The Established Program to Stimulate Competitive Research (EPSCoR) is a federal-state-university partnership designed to increase extramural research support for South Carolina. SC EPSCoR leverages federal and state support to build research infrastructure; infuse research into education; provide opportunities for diverse groups of institutions, students, faculty, and disciplines in science and technology; and increase collaboration among key stakeholders of the state's science and technology enterprise. State Funds are used to meet the cost-share for federal EPSCoR awards, manage the state-wide award, continue to build capacity to be successful in obtaining federal EPSCoR awards, and to manage the SC EPSCoR Office. Part of the cost-share is used to support a portion of the Program Operation cost as well as to provide seed funding to increase research capacity in SC.
