

New Program Proposal Executive Summary

M. Ed. in Counseling: Concentrations (1) School Counseling and (2) Clinical Mental Health Counseling

[CIP Code: 13.1101]

Coastal Carolina University [Site Code: 85500]

A. SUMMARY

Coastal Carolina University seeks to introduce a M. Ed. in Counseling with concentrations in School Counseling and Clinical Mental Health Counseling (60 credit hours) beginning in Fall 2025. The Master of Education in Counseling is designed to train professionals in the foundational concepts of professional counseling and ethical practice, social and cultural diversity, lifespan development, career development, counseling relationships, group counseling, assessment and the diagnostic process, and research and program evaluation with specialized training in one of two concentrations: School Counseling or Clinical Mental Health Counseling.

The Department of Mental Health audit uncovered a severe shortage of behavioral health services, with more than half of South Carolina public schools unable to offer services. According to the report, South Carolina currently has a ratio of only 1 mental health counselor available for every 1,300 public school students. Best practices stipulate that states should aim for a ratio of 1:250. As is the case nationally, this shortage comes at a time when South Carolina's children are experiencing crisis conditions, with the state audit noting that the proportion of emergency mental health calls from children aged 14 and under is growing faster than any other demographic group in the state.⁸

Students may go on to doctoral study in counseling, education, or related fields. Graduates of the school counseling program will be eligible for South Carolina Department of Education certification in elementary and secondary school counseling. Students enrolled in the School Counseling specialization can take additional classes and complete additional field experiences to become eligible for dual credentialing as a Licensed Professional Counselor (LPC).

Entrance Requirements

A SLED background check is required of all candidates entering education programs.

Students are required to take the PRAXIS II Exam in Professional School Counseling prior to enrolling in the internship.

Program requirements

New Courses

EDCO 500- Professional Counseling Orientation and Ethical Practice (3 credits): This course provides the student with a broad overview of professional issues related to the counseling profession, including reference to current and historical role issues, licensure and professional development, and emphasis on matters of ethics and mental health law related to the counseling profession. Particular attention is given to the examination of ethical principles and mental health law relevant to the potential conflicts/dilemmas arising in counseling practice (e.g., suicide, homicide, role conflict, multiple relationships, record keeping, decision making, working with minors, school district policy, etc.). Issues specific to service delivery to minoritized populations/communities are addressed, as are possible ethical conflicts arising within counseling modalities (e.g., marital and family counseling, group counseling).

EDCO 501- Counseling Practice and Relationships (3 credits): This course examines therapeutic rapport between counselor and client(s) and how to effectively establish using foundational counseling skills from initial meeting to termination across various settings. There is an emphasis on experiential learning for intentional demonstration of verbal and written clinical counseling skills with candidate attention to counselor presence, professionalism, awareness, the understanding, and use of self in counseling, client relationships, and working within the change process.

EDCO 502- Lifespan Development (3 credits): This course provides an analysis of the principles of human development. Development is explored within the contributions of biological, social, psychological, and multicultural influences as applied to an understanding of cognitive, emotional, social, and physical development across the lifespan. Emphasis is given to the psychobiological nature and social context of development and cultural and ethnic variations impacting developmental processes.

EDCO 503- Identities and Experiences (3 credits): In this course, candidates gain knowledge and skills to analyze their attitudes and beliefs related to their personal values. This course helps candidates increase their awareness as they examine diverse client worldviews with an emphasis on ways gender, race, ability, language, sexuality, economic status, education, etc. has an impact on individuals, neighborhoods, and society over time. Candidates gain insight on how intersecting identities influence therapeutic relationships with clients. This course emphasizes the use of appropriate advocacy interventions.

EDCO 504- Counseling Theories and Applications (3 credits): This course provides an overview of existing and emerging theories and approaches in counseling and psychotherapy. Candidates use a multicultural lens to learn how to conceptualize various client concerns and choose appropriate theoretical intervention techniques to foster healing. Through self-awareness of one's own personal values, belief, ethics, and cultural worldview, candidates begin to develop their own theoretical framework of counseling to help shape theory into practice.

EDCO 505- Assessment and Diagnostic Process (3 credits): This course provides a broad understanding of group and individual educational and psychometric theories and approaches to appraisal and assessment. Also examined are data and information gathering methods, validity and reliability, psychometric statistics, factors influencing appraisals, and use of appraisal results in helping processes. The ability to administer and interpret tests and inventories to assess abilities, interests, and identify career options is considered.

EDCO 506- Trauma-Informed Care and Crisis Intervention Counseling (3 credits): This course provides an overview of key crisis theoretical approaches to respond to a variety of crisis situations on the individual, local, and national level. Special emphasis is given to crisis situations such as sexual assault, natural disasters, suicidality, and other trauma causing events. Essential skills needed for crisis prevention are addressed.

EDCO 507- Career Development (3 credits): This course provides an overview of existing and emerging theories of career counseling. Candidates learn foundational career development theories, the usefulness of career inventories, and the current trends in career counseling for adults and school-age children. Additionally, candidates practice and demonstrate competency in career counseling.

EDCO 508- Group Counseling and Group Work (3 credits): This course focuses on the practice and theories of group counseling through the exploration of group dynamics, group development, member roles, and group processes. Ethical, legal, cultural, and professional issues are explored to prepare candidates to consider leading groups in various mental health settings. Candidates participate in role practice as a group member and as a leader to demonstrate their ability to facilitate an effective group.

EDCO 509- Research and Program Evaluation (3 credits): This course introduces candidates to research design, methods, and program evaluation pertaining to counseling. Ethical guidelines and culturally relevant considerations are emphasized for conducting and evaluating research. Candidates demonstrate the skills necessary to identify a problem, conduct a literature review, create a research design, and analyze qualitative, quantitative, and/or mixed methods data.

EDCO 510- Diagnostics of Psychopathology for Counselors (3 credits): This course provides an overview of mental illnesses delineated in major diagnostic classification systems (e.g., DSM 5-TR). Concepts and constructs, assessment processes, etiology, cultural factors, differential diagnosis, decision-making, evidence-based therapeutic approaches, and medication management are emphasized for the corresponding counselor role.

EDMH 601- Advanced Counseling Techniques and Strategies (3 credits): This course integrates clinical assessment, case conceptualization, and treatment planning and evaluation. The emphasis on assessment highlights specific, focused procedures for common clinical problems. Interview methods, self-report instruments, and self-monitoring strategies, among others, are reviewed for their psychometric characteristics, clinical utility, and practicality. Case conceptualization will integrate the

results of the assessment process with current conceptual and empirical literature on etiology and treatment. The course includes the application of counseling skills to empower clients to experience therapeutic progress both in face-to-face and telehealth settings.

EDMH 602- Introduction to Couples and Family Counseling (3 credits): Major models and techniques of couples and family counseling are examined, as well as history, research, legal, ethical, and other professional issues. This course examines the historical and conceptual development of family and couple therapy as a discipline and reviews current theoretical perspectives on couple/family interaction and the specific therapeutic techniques that stem from those theoretical perspectives. Ethical and legal implications will be highlighted for face-to-face and virtual counseling settings. The course goal is to facilitate engagement with, and application of, current theoretical and empirical research literature.

EDMH 603- Diagnosis and Treatment of Addictions Counseling (3 credits): This course provides a supportive, structured learning environment for acquiring substance use and addictive behavior counseling skills. The course provides candidates with an understanding of the physiological and psychological effects of substance use, abuse, and misuse along with addictive behaviors and the significance of treatment planning in diverse settings. Candidates use their knowledge of individual, group, and family counseling strategies with assessing for client's readiness to change commitment for support of treatment and relapse prevention. Candidates learn about the diagnostic criteria of substance use and addictive behavior, models of etiology, and approaches to treatment.

EDMH 604- Clinical Mental Health Practicum (3 credits): The practicum in clinical mental health counseling is the first formal field experience introducing candidates to the work experience of a professional clinical mental health counselor. This course is a supervised 100-hour field experience for clinical mental health counseling candidates at the end of their program. Of the 100 hours, at least 40 will be spent providing direct clinical service. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies. The practicum course integrates previous course experiences with counseling skills. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDMH 605- Clinical Mental Health Counseling Internship I (6 credits): This is the first semester of candidates' internship experience. Internship is the concluding supervised field experience for the student's master's degree program. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies throughout their internship experience. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDMH 606- Clinical Mental Health Counseling Internship II (6 credits): This is the second semester of the candidates' internship experience. The semester of internship involves the student completing their remaining field experience hours required for the master's degree program. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies throughout their internship experience. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDCO 601- School Counseling Programming and Leadership (3 credits): This course introduces the role, qualities, styles, and approach of counselors as leaders, advocates, and systems change agents within the school setting. Candidates enhance their understanding of organizational structure within a school by recognizing leadership theories and principles. Candidates explore school counselor roles in consultation with families, P-12 and postsecondary school personnel, and community agencies. Candidates gain effective leadership skills to manage and evaluate an effective comprehensive developmental school counseling program, with emphasis on program planning, management, and evaluation in school counseling.

EDCO 602- Elementary & Secondary School Counseling Strategies (3 credits): This course presents theory and techniques for counseling children in educational institutions and other settings. The course offers examination of counseling common challenges and developmental implications for evidence-based interventions with elementary aged-children and students in secondary schools in a variety of settings (e.g., face-to-face, and virtual). Candidates have the opportunity to practice counseling interventions to promote student client welfare with direct supervision and feedback. The school counselor's role and function are discussed as a balance of responsive services, systems support, individual planning, and guidance curriculum.

EDCO 603- School Counseling Practicum (3 credits): The practicum in school counseling is the first formal field experience. Through this practicum, candidates gain practical knowledge of the school setting and the school counselor's role and begin to develop skills in individual and group counseling and interactive classroom instruction. The practicum requires candidates to complete 100 supervised hours over one semester in a school with a school counselor. Of the 100 hours, at least 40 will be spent providing direct clinical service. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies. The practicum course integrates previous course experiences with counseling skills. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDCO 604- School Counseling Internship I: Elementary (6 credits): The internship is the second formal field experience in elementary school counseling. The internship further develops skills in individual and group counseling and interactive classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers, parents, and other relevant stakeholders. Internship involves candidates completing 300 hours of supervised field experience in an elementary school over one semester. Of the 300 hours, at least 120 will be spent providing direct clinical

service. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDCO 605- School Counseling Internship II: Secondary (6 credits): The internship is the third formal field experience in secondary school counseling. The internship further develops skills in individual and group counseling and interactive classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers, parents, and other relevant stakeholders. Internship involves candidates completing 300 hours of supervised field experience in an elementary school over one semester. Of the 300 hours, at least 120 will be spent providing direct clinical service. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDSP 635- Legal and Policy Issues in Special Education (3 credits): Course provides a critical examination of current issue surrounding the field of special education including instruction methodologies, latest research, legislation and policy, case law, high stakes exams, over-representation of minorities in special education, and teacher shortages.

EDSC 518- Reading and Writing in the Content Area (3 credits): A literacy methods course designed for students to learn general literacy instructional techniques and assessment strategies. Candidates will use these techniques and strategies to design a content-area instructional unit complete with an accompanying text set and assessments. Attention is given to addressing reading difficulties and enhancing reading skills necessary for effective teaching of content area materials.

EDCO 606- Play Therapy (3 credits): This course focuses on interpreting play and using play techniques to facilitate the counseling process. Basic concepts and practices related to the history of play therapy, developmental issues, and ethical considerations in working theory to the practices of play therapy are reviewed and examined.

EDCO 607- Special Topics in Counseling (3 credits): Course topics vary based on the interests of the professor and candidates. This course addresses a contemporary topic/issue relevant to counseling that is not otherwise addressed in-depth in another course offering.

EDCO 608- Advocacy in the Counseling Field (3 credits): This course provides candidates with an overview of social justice systems approaches necessary to facilitate a culture of advocacy. Candidates will examine leadership and advocacy issues, models, competencies, and approaches related to the practice of counseling. Candidates will stay abreast of social advocacy issues within counseling profession and individuals served by professional counselors and conceptualize action steps

to be effective change agents, leaders, and advocates for the profession and clients at the individual and systematic level in community and school settings. Issues specific to policies and processes that create barriers and challenges are addressed.

EDCO 609- Counselor Supervision (3 credits): This course equips candidates with the skills to pursue supervisory roles as counselors. Multiple strategies of supervision are reviewed, including how to conduct observations and review transcripts of counseling sessions. The course also includes how to create and deliver micro-training, model counseling strategies, engage in role-play, and other supervisory techniques. The course reviews theoretical consultation and collaboration strategies as it relates to supervisory roles.

E. ENROLLMENT PROJECTIONS

Projected Enrollment- CHE						
Year	Fall Headcount		Spring Headcount		Summer Headcount	
	New	Total	New	Total	New	Total
2025-2026	24	0	22	0	20	0
2026-2027	43	0	40	0	38	0
2027-2028	60	0	57	0	54	0
2028-2029	56	0	53	0	50	0
2029-2030	52	0	49	0	46	0

The table is based on enrollment of 24 new students each fall. Years one through five total headcounts based on 95% returning fall to spring, spring to summer, and summer to fall. Additionally, beginning with year three summer headcount, each fall term is based on an 80% graduation rate of returning students.

F. INDUSTRY-RELATED OCCUPATIONAL WAGES AND PROJECTIONS IN SOUTH CAROLINA

Occupation	State			National			Data Type and Source
	Expected Number of Jobs	Employment Projection	Median Pay per Year	Expected Number of Jobs	Employment Projection	Median Pay per Year	
School Counselors	585	12% (Annual)	\$33,152	336,000	10% (2021-31)	\$60,140	S.C. Works Online; U.S. Bureau of Labor Statistics
Mental Health Counselors	N/A	N/A	N/A	351,000	22% (2021-31)	\$49,710	U.S. Bureau of Labor Statistics
Child, Family and School Social Workers	490	12% (Annual)	\$45,188	N/A	N/A	N/A	S.C. Works Online
Community and Social Service, All	3,623	11% (Annual)	\$39,300	708,100	9% (2021-31)	\$46,190	S.C. Works Online; U.S. Bureau of Labor Statistics

We anticipate demand among in-service PK-12 teachers seeking additional certification and current mental health professionals seeking coursework needed to become a licensed counselor and/or continuing education credits. The Bureau of Labor Statistics projects a positive occupational outlook for professionals in school and mental health counseling fields. The employment projection at the national level estimates mental health counselor employment growth of 23% from 2020 to 2030. The expected growth in school counseling positions is 14% over the same period. Growth is also expected in similar positions, including social workers and community social service specialists (14%), and marriage and family therapists (16%). Per the US Department of Labor/PMP projections, employment projections for these positions in South Carolina track at the national average through 2030, with an increase of 23.4% for mental health counselor positions and a 13.5% increase for school counselors.

Background Information

State the nature and purpose of the proposed program, including target audience, centrality to institutional mission, and relation to the strategic plan.

The Coastal Carolina University (CCU) mission statement asserts that the institution “embraces its leadership role” in the region and commits to serving the needs of the region. Coastal Carolina University proposes the M.Ed. in Counseling, with concentrations in School Counseling and Clinical Mental Health Counseling, as a degree program of national and regional significance that will provide additional professional opportunities to our students while meeting a critical workforce need in the region, South Carolina, and beyond. The Master of Education in Counseling is designed to train professionals in the foundational concepts of professional counseling and ethical practice, social and cultural diversity, lifespan development, career development, counseling relationships, group counseling, assessment and the diagnostic process, and research and program evaluation with specialized training in one of two concentrations: School Counseling or Clinical Mental Health Counseling. The degree program will prepare students to work with people in varied situational and organizational contexts by integrating theoretical knowledge, research, and evidence-based practice in alignment with ethical behavior. In doing so, the Master of Education in Counseling program addresses the university’s strategic plan initiatives of Learning (providing “innovative curricular and co-curricular pathways to improve graduation outcomes and post-college success”), Living (promoting “the wellness & well-being of all members of campus community”), and Legacy (“making a difference beyond our campus”).¹

Students enrolled in the School Counseling specialization will be prepared to work as school counselors in PK-12 settings with varied populations. This program includes a focus on data-driven practices, collaboration with school personnel and families and the development as advocates in their schools. In addition to the coursework and field experience requirements, students are required to take the PRAXIS II Exam in Professional School Counseling prior to enrolling in the internship. Students may go on to doctoral study in counseling, education, or related fields. Graduates of the school counseling program will be eligible for South Carolina Department of Education certification in elementary and secondary school counseling. Students enrolled in the School Counseling specialization can take additional classes and complete additional field experiences to become eligible for dual credentialing as a Licensed Professional Counselor (LPC).

¹ <https://www.coastal.edu/aboutccu/leadership/strategicplan/>

Students enrolled in the Clinical Mental Health specialization will complete coursework designed to provide knowledge, abilities, and skills for counselors working in community mental health centers, psychiatric hospitals, substance abuse programs, couples and family counseling facilities, social service agencies, etc. Graduates will be qualified for employment as entry-level professional clinical mental health counselors in public or private settings. Students may also go on to doctoral study in counseling or related fields. Graduates of the clinical mental health program will complete all master's level education coursework required by the state of South Carolina to seek the Licensed Professional Counselor (LPC) credential.

The Spadoni College of Education and Social Sciences houses nine undergraduate degree programs spanning educator preparation and social science disciplines. Our initial licensure programs – Early Childhood Education, Elementary Education, Middle-Grades Education, Physical Education, Special Education, and the M.A.T. – prepare students to enter PK-12 classrooms. Students in our degree program in Sociology study a variety of subjects related to social and human services, including criminology, and often complete internships in community-based nonprofits and social service agencies. The Gupta College of Science houses a B.S. in Psychology. Many of those students seek post-graduate degrees related to mental health fields. The proposed M.Ed. in Counseling will complement these undergraduate disciplines, providing an additional CCU pathway to professional preparation. Otherwise, students in these fields must seek counselor education at other institutions.

The program will help to alleviate the shortage of professional counselors in our schools and public and private mental health organizations and agencies, as 1 in 5 Americans live with a mental illness and 760,000 residents in South Carolina have been diagnosed with a mental illness.² CCU's counselor education program will also deepen CCU's engagement with the broader community and provide a much-needed resource for mental health awareness and education in the region, as 66.4% of South Carolina residents have unmet mental health care needs due to a mental health care shortage,³ yet only five higher education institutions in South Carolina offer programs in counseling with a specialization in School Counseling or Clinical Mental Health Counseling. This degree will not only assist in closing the shortage gap, but the degree will also provide students with two different career pathways and all educational and academic pre-requisites necessary to obtain appropriate certification and licensure in the field.

Assessment of Need

Provide an assessment of the need for the program for the institution, the state, the region, and beyond, if applicable.

The United States is amid a national mental health crisis. The Kaiser Family Foundation notes that 43% of U.S. adults reported negative mental health and well-being in 2021, up from only 11% during the year 2019.³ Young adults have experienced a higher-than-average frequency of mental health struggles; 56% of young adults aged 18 – 24 report negative mental health, with symptoms ranging from anxiety and

depressive disorders to suicidal thoughts.⁴ This mental health crisis also extends to children. In 2021, the American Academy of Pediatrics, along with the American Academy of Child and Adolescent Psychiatry and the Children's Hospital Association, declared a national emergency in child and adolescent mental health, citing rapid increases in childhood mental health concerns and noting that – by 2018 – suicide had become the second leading cause of death for youth aged 10 – 24.⁵ Exacerbating this crisis is the dearth of mental health providers across the United States. The National Alliance on Mental Illness estimates that there is significant unmet need for mental health services in the U.S., with over 38% of adults diagnosed with mental illnesses going without services in 2020.⁶ In 2022, the Kaiser Family Foundation reported that 24% of adults in South Carolina experiencing mental health symptoms were unable to obtain mental health services.⁷

In 2021, South Carolina Governor McMaster ordered an audit of the state's ability to provide adequate mental health services to school-aged children. The Department of Mental Health audit uncovered a severe shortage of behavioral health services, with more than half of South Carolina public schools unable to offer services. According to the report, South Carolina currently has a ratio of only 1 mental health counselor available for every 1,300 public school students. Best practices stipulate that states should aim for a ratio of 1:250. As is the case nationally, this shortage comes at a time when South Carolina's children are experiencing crisis conditions, with the state audit noting that the proportion of emergency mental health calls from children aged 14 and under is growing faster than any other demographic group in the state.⁸ A similar shortage exists for adult mental health services in South Carolina; South Carolina ranks in the bottom quintile of U.S. states for mental health workforce availability.⁹ While the Substance Abuse and Mental Health Services Administration (SAMHSA) estimates that 37.6% of South Carolinians experience depression or anxiety,¹⁰ there is a marked lack of Licensed Professional Counselors (LPCs) and Licensed Marriage and Family Therapists (LMFTs) across the state. Additionally, the South Carolina Area Health Education Consortium reports that 17 of 46 South Carolina counties have no psychiatrists and depend completely upon counselors and therapists.¹¹ There is also a significant demand for continuing education credits required for LPC licensure renewal. In a November 2021 meeting between CCU administrators and the Waccamaw Center for Mental Health (Conway), Director Jackie Brown and HR Director Ann O'Connor voiced a critical need to have quality continuing education and licensure training for Center staff.

The U.S. Department of Health and Human Services, via the National Center for Health Workforce Analysis, projects that nationwide demand for mental health workers across a variety of occupational

titles will grow by 13% through 2030 (approximately 18,090 positions).¹² The Bureau of Labor Statistics estimates that the job outlook for school counselors and for substance abuse, behavioral disorder, and mental health counselors outpace the average growth rate for all other occupations.¹³ In South Carolina, the U.S. Department of Labor projects that by 2030, job growth will increase by 13.5% (approximately 5,950 positions) for school counselors and by 23.4% (approximately 2,060 positions) for substance abuse, behavioral disorder, and mental health counselors.¹⁴ Counselors are currently in high demand across the state. Job advertisements seeking certified practitioners include the South Carolina Department of Mental Health, the South Carolina Youth Advocate Program, Upward Bound, the Veterans Health Administration, various behavioral health settings, drug and alcohol facilities, summer camps, and university settings. P-12 school counselors in South Carolina are particularly needed.¹⁵ The Center for Educator Recruitment, Retention, and Advancement reported that there were 37 school counselor vacancies in South Carolina during the 2022-2023 academic year, and some school systems have left open their school counselor job posting for more than six months.¹⁶ In Horry County, there are currently several openings for school counselors at Myrtle Beach High School, Carolina Forest High School, Conway High School, Aynor High School, and St. James High School. The surrounding county school systems of Georgetown, Williamsburg, Florence, and Marion are also advertising for school counselors, school psychologists, and behavior modification specialists.

CCU has several undergraduate majors that could be feeder programs for enrollment in the M.Ed. Counseling degree. Those programs, listed here with their average enrollments, include: the B.A. in Sociology (221), B.S. in Psychology (710), and five B.A.E. degrees across multiple areas of initial P-12 licensure (622). Other undergraduate programs whose students may have an interest in Counseling include Criminal Justice (150), Communication (444), Public Health (323), and Interdisciplinary Studies.

Currently, CCU graduates who wish to pursue a master's degree in counseling either leave the area to enroll at an outside university or become a graduate student in an online program. When students move, it reduces the likelihood they will return, especially when practicum and internship placements are typically local or within a short driving distance from the institution. Additionally, internship placements often turn into full-time employment opportunities for graduate students. Students in online programs are also at a disadvantage in terms of serving as certified counselors in our region. It may be challenging to complete in-person internships and practicums because online programs may not have relationships with schools and facilities in Horry County.

Transfer and Articulation

Identify any special articulation agreements for the proposed program. Provide the articulation agreement or Memorandum of Agreement/Understanding.

There are currently no articulation agreements in place for this program.

Child, Family and School Social Workers	490	12% (Annual)	\$45,188	N/A	N/A	N/A	S.C. Works Online
Community and Social Service, All	3,623	11% (Annual)	\$39,300	708,100	9% (2021-31)	\$46,190	S.C. Works Online; U.S. Bureau of Labor Statistics

Supporting Evidence of Anticipated Employment Opportunities

Provide supporting evidence of anticipated employment opportunities for graduates.

We anticipate demand among in-service PK-12 teachers seeking additional certification and current mental health professionals seeking coursework needed to become a licensed counselor and/or continuing education credits. The Bureau of Labor Statistics projects a positive occupational outlook for professionals in school and mental health counseling fields. The employment projection at the national level estimates mental health counselor employment growth of 23% from 2020 to 2030. The expected growth in school counseling positions is 14% over the same period. Growth is also expected in similar positions, including social workers and community social service specialists (14%), and marriage and family therapists (16%). Per the US Department of Labor/PMP projections, employment projections for these positions in South Carolina track at the national average through 2030, with an increase of 23.4% for mental health counselor positions and a 13.5% increase for school counselors.

Description of the Program

Projected Enrollment			
	Fall Headcount	Spring Headcount	Summer Headcount
Year	Total	Total	Total
2025-2026	24	22	20
2026-2027	43	40	38
2027-2028	60	57	54
2028-2029	56	53	50
2029-2030	52	49	46

Explain how the enrollment projections were calculated.

The table is based on enrollment of 24 new students each fall. Years one through five total headcounts based on 95% returning fall to spring, spring to summer, and summer to fall. Additionally, beginning with year three summer headcount, each fall term is based on an 80% graduation rate of returning students.

Besides the general institutional admission requirements, are there any separate or additional admission requirements for the proposed program? If yes, explain.

☒ Yes

☐ No

A SLED background check is required of all candidates entering education programs.

Curriculum

New Courses

List and provide course descriptions for new courses.

EDCO 500- Professional Counseling Orientation and Ethical Practice (3 credits)

This course provides the student with a broad overview of professional issues related to the counseling profession, including reference to current and historical role issues, licensure and professional development, and emphasis on matters of ethics and mental health law related to the counseling profession. Particular attention is given to the examination of ethical principles and mental health law relevant to the potential conflicts/dilemmas arising in counseling practice (e.g., suicide, homicide, role conflict, multiple relationships, record keeping, decision making, working with minors, school district policy, etc.). Issues specific to service delivery to minoritized populations/communities are addressed, as are possible ethical conflicts arising within counseling modalities (e.g., marital and family counseling, group counseling).

EDCO 501- Counseling Practice and Relationships (3 credits)

This course examines therapeutic rapport between counselor and client(s) and how to effectively establish using foundational counseling skills from initial meeting to termination across various settings. There is an emphasis on experiential learning for intentional demonstration of verbal and written clinical counseling skills with candidate attention to counselor presence, professionalism, awareness, the understanding, and use of self in counseling, client relationships, and working within the change process.

EDCO 502- Lifespan Development (3 credits)

This course provides an analysis of the principles of human development. Development is explored within the contributions of biological, social, psychological, and multicultural influences as applied to an understanding of cognitive, emotional, social, and physical development across the lifespan. Emphasis is given to the psychobiological nature and social context of development and cultural and ethnic variations impacting developmental processes.

EDCO 503- Identities and Experiences (3 credits)

In this course, candidates gain knowledge and skills to analyze their attitudes and beliefs related to their personal values. This course helps candidates increase their awareness as they examine diverse client worldviews with an emphasis on ways gender, race, ability, language, sexuality, economic status, education, etc. has an impact on individuals, neighborhoods, and society over time. Candidates gain insight on how intersecting identities influence therapeutic relationships with clients. This course emphasizes the use of appropriate advocacy interventions.

EDCO 504- Counseling Theories and Applications (3 credits)

This course provides an overview of existing and emerging theories and approaches in counseling and psychotherapy. Candidates use a multicultural lens to learn how to conceptualize various client concerns and choose appropriate theoretical intervention techniques to foster healing. Through self-awareness of one's own personal values, belief, ethics, and cultural worldview, candidates begin to develop their own theoretical framework of counseling to help shape theory into practice.

EDCO 505- Assessment and Diagnostic Process (3 credits)

This course provides a broad understanding of group and individual educational and psychometric theories and approaches to appraisal and assessment. Also examined are data and information gathering methods, validity and reliability, psychometric statistics, factors influencing appraisals, and use of appraisal results in helping processes. The ability to administer and interpret tests and inventories to assess abilities, interests, and identify career options is considered.

EDCO 506- Trauma-Informed Care and Crisis Intervention Counseling (3 credits)

This course provides an overview of key crisis theoretical approaches to respond to a variety of crisis situations on the individual, local, and national level. Special emphasis is given to crisis situations such as sexual assault, natural disasters, suicidality, and other trauma causing events. Essential skills needed for crisis prevention are addressed.

EDCO 507- Career Development (3 credits)

This course provides an overview of existing and emerging theories of career counseling. Candidates learn foundational career development theories, the usefulness of career inventories, and the current trends in career counseling for adults and school-age children. Additionally, candidates practice and demonstrate competency in career counseling.

EDCO 508- Group Counseling and Group Work (3 credits)

This course focuses on the practice and theories of group counseling through the exploration of group dynamics, group development, member roles, and group processes. Ethical, legal, cultural, and professional issues are explored to prepare candidates to consider leading groups in various mental health settings. Candidates participate in role practice as a group member and as a leader to demonstrate their ability to facilitate an effective group.

EDCO 509- Research and Program Evaluation (3 credits)

This course introduces candidates to research design, methods, and program evaluation pertaining to counseling. Ethical guidelines and culturally relevant considerations are emphasized for conducting and evaluating research. Candidates demonstrate the skills necessary to identify a problem, conduct a literature review, create a research design, and analyze qualitative, quantitative, and/or mixed methods data.

EDCO 510- Diagnostics of Psychopathology for Counselors (3 credits)

This course provides an overview of mental illnesses delineated in major diagnostic classification systems (e.g., DSM 5-TR). Concepts and constructs, assessment processes, etiology, cultural factors, differential diagnosis, decision-making, evidence-based therapeutic approaches, and medication management are emphasized for the corresponding counselor role.

EDMH 601- Advanced Counseling Techniques and Strategies (3 credits)

This course integrates clinical assessment, case conceptualization, and treatment planning and evaluation. The emphasis on assessment highlights specific, focused procedures for common clinical problems. Interview methods, self-report instruments, and self-monitoring strategies, among others, are reviewed for their psychometric characteristics, clinical utility, and practicality. Case conceptualization will integrate the results of the assessment process with current conceptual and empirical literature on etiology and treatment. The course includes the application of counseling skills to empower clients to experience therapeutic progress both in face-to-face and telehealth settings.

EDMH 602- Introduction to Couples and Family Counseling (3 credits)

Major models and techniques of couples and family counseling are examined, as well as history, research, legal, ethical, and other professional issues. This course examines the historical and conceptual development of family and couple therapy as a discipline and reviews current theoretical perspectives on couple/family interaction and the specific therapeutic techniques that stem from those theoretical perspectives. Ethical and legal implications will be highlighted for face-to-face and virtual counseling settings. The course goal is to facilitate engagement with, and application of, current theoretical and empirical research literature.

EDMH 603- Diagnosis and Treatment of Addictions Counseling (3 credits)

This course provides a supportive, structured learning environment for acquiring substance use and addictive behavior counseling skills. The course provides candidates with an understanding of the physiological and psychological effects of substance use, abuse, and misuse along with addictive behaviors and the significance of treatment planning in diverse settings. Candidates use their knowledge of individual, group, and family counseling strategies with assessing for client's readiness to change commitment for support of treatment and relapse prevention. Candidates learn about the diagnostic criteria of substance use and addictive behavior, models of etiology, and approaches to treatment.

EDMH 604- Clinical Mental Health Practicum (3 credits)

The practicum in clinical mental health counseling is the first formal field experience introducing candidates to the work experience of a professional clinical mental health counselor. This course is a supervised 100-hour field experience for clinical mental health counseling candidates at the end of their program. Of the 100 hours, at least 40 will be spent providing direct clinical service. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies. The practicum course integrates previous course experiences with counseling skills. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDMH 605- Clinical Mental Health Counseling Internship I (6 credits)

This is the first semester of candidates' internship experience. Internship is the concluding supervised field experience for the student's master's degree program. Candidates experience individual and group

supervision that emphasizes case conceptualization and the use of intervention strategies throughout their internship experience. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDMH 606- Clinical Mental Health Counseling Internship II (6 credits)

This is the second semester of the candidates' internship experience. The semester of internship involves the student completing their remaining field experience hours required for the master's degree program. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies throughout their internship experience. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDCO 601- School Counseling Programming and Leadership (3 credits)

This course introduces the role, qualities, styles, and approach of counselors as leaders, advocates, and systems change agents within the school setting. Candidates enhance their understanding of organizational structure within a school by recognizing leadership theories and principles. Candidates explore school counselor roles in consultation with families, P-12 and postsecondary school personnel, and community agencies. Candidates gain effective leadership skills to manage and evaluate an effective comprehensive developmental school counseling program, with emphasis on program planning, management, and evaluation in school counseling.

EDCO 602- Elementary & Secondary School Counseling Strategies (3 credits)

This course presents theory and techniques for counseling children in educational institutions and other settings. The course offers examination of counseling common challenges and developmental implications for evidence-based interventions with elementary aged-children and students in secondary schools in a variety of settings (e.g., face-to-face, and virtual). Candidates have the opportunity to practice counseling interventions to promote student client welfare with direct supervision and feedback. The school counselor's role and function are discussed as a balance of responsive services, systems support, individual planning, and guidance curriculum.

EDCO 603- School Counseling Practicum (3 credits)

The practicum in school counseling is the first formal field experience. Through this practicum, candidates gain practical knowledge of the school setting and the school counselor's role and begin to develop skills in individual and group counseling and interactive classroom instruction. The practicum requires candidates to complete 100 supervised hours over one semester in a school with a school counselor. Of the 100 hours, at least 40 will be spent providing direct clinical service. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies. The practicum course integrates previous course experiences with counseling skills. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDCO 604- School Counseling Internship I: Elementary (6 credits)

The internship is the second formal field experience in elementary school counseling. The internship further develops skills in individual and group counseling and interactive classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers, parents, and other relevant stakeholders. Internship involves candidates completing 300 hours of supervised field experience in an elementary school over one semester. Of the 300 hours, at least 120 will be spent providing direct clinical service. Candidates experience individual and group supervision that emphasizes

case conceptualization and the use of intervention strategies. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDCO 605- School Counseling Internship II: Secondary (6 credits)

The internship is the third formal field experience in secondary school counseling. The internship further develops skills in individual and group counseling and interactive classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers, parents, and other relevant stakeholders. Internship involves candidates completing 300 hours of supervised field experience in an elementary school over one semester. Of the 300 hours, at least 120 will be spent providing direct clinical service. Candidates experience individual and group supervision that emphasizes case conceptualization and the use of intervention strategies. Candidates receive on average 1-hour weekly individual/triadic supervision from on-site supervisor and 1.5 hours of group supervision from program faculty.

EDSP 635- Legal and Policy Issues in Special Education (3 credits)

Course provides a critical examination of current issue surrounding the field of special education including instruction methodologies, latest research, legislation and policy, case law, high stakes exams, over-representation of minorities in special education, and teacher shortages.

EDSC 518- Reading and Writing in the Content Area (3 credits)

A literacy methods course designed for students to learn general literacy instructional techniques and assessment strategies. Candidates will use these techniques and strategies to design a content-area instructional unit complete with an accompanying text set and assessments. Attention is given to addressing reading difficulties and enhancing reading skills necessary for effective teaching of content area materials.

EDCO 606- Play Therapy (3 credits)

This course focuses on interpreting play and using play techniques to facilitate the counseling process. Basic concepts and practices related to the history of play therapy, developmental issues, and ethical considerations in working theory to the practices of play therapy are reviewed and examined.

EDCO 607- Special Topics in Counseling (3 credits)

Course topics vary based on the interests of the professor and candidates. This course addresses a contemporary topic/issue relevant to counseling that is not otherwise addressed in-depth in another course offering.

EDCO 608- Advocacy in the Counseling Field (3 credits)

This course provides candidates with an overview of social justice systems approaches necessary to facilitate a culture of advocacy. Candidates will examine leadership and advocacy issues, models, competencies, and approaches related to the practice of counseling. Candidates will stay abreast of social advocacy issues within counseling profession and individuals served by professional counselors and conceptualize action steps to be effective change agents, leaders, and advocates for the profession and clients at the individual and systematic level in community and school settings. Issues specific to policies and processes that create barriers and challenges are addressed.

EDCO 609- Counselor Supervision (3 credits)

This course equips candidates with the skills to pursue supervisory roles as counselors. Multiple strategies of supervision are reviewed, including how to conduct observations and review transcripts of counseling sessions. The course also includes how to create and deliver micro-training, model counseling strategies, engage in role-play, and other supervisory techniques. The course reviews theoretical consultation and collaboration strategies as it relates to supervisory roles.

Curriculum**M.Ed in Counseling****Core Courses (33 credits)**

- EDCO 500 Professional Counseling Orientation and Ethical Practice (3 credits)
- EDCO 501 Counseling Practice and Relationships (3 credits)
- EDCO 502 Lifespan Development (3 credits)
- EDCO 503 Identities and Experiences (3 credits)
- EDCO 504 Counseling Theories and Applications (3 credits)
- EDCO 505 Assessment and Diagnostic Process (3 credits)
- EDCO 506 Trauma-Informed Care and Crisis Intervention Counseling (3 credits)
- EDCO 507 Career Development (3 credits)
- EDCO 508 Group Counseling and Group Work (3 credits)
- EDCO 509 Research and Program Evaluation (3 credits)
- EDCO 510 Diagnostics of Psychopathology for Counselors (3 credits)

Clinical Mental Health Concentration (CMHC) (27 credits)

Take the following courses (24 Credits):

- EDMH 601 Advanced Counseling Techniques and Strategies (3 credits)
- EDMH 602 Introduction to Couples and Family Counseling (3 credits)
- EDMH 603 Diagnosis and Treatment of Addictions and Counseling (3 credits)
- EDMH 604 Clinical Mental Health Practicum (3 credits)
- EDMH 605 Clinical Mental Health Internship I (6 credits)
- EDMH 606 Clinical Mental Health Internship II (6 credits)
- CMHC Elective Choices: Choose one course (3 credits)
- EDCO 606 Play Therapy (3 credits)
- EDCO 607 Special Topics in Counseling (3 credits)
- EDCO 608 Advocacy in the Counseling Field (3 credits)
- EDCO 609 Counselor Supervision (3 credits)

School Counseling Concentration (27 credits)

- EDCO 601 School Counseling Programming and Leadership (3 credits)
- EDCO 602 Elementary & Secondary School Counseling Strategies (3 credits)
- EDCO 603 School Counseling Practicum (3 credits)
- EDCO 604 School Counseling Internship I- Elementary (6 credits)
- EDCO 605 School Counseling Internship II- Secondary (6 credits)
- EDSC 518 Reading and Writing in the Content Area (3 credits)
- EDSP 635 Legal and Policy Issues in Special Education (3 credits)

Total: 60 credits

Addiction Counseling Program graduates can sit for addictions counselor licensing exams.</p>

Program Name and Designation	Total Credit Hours	Institution	Similarities	Differences
Marriage and Family Therapy (M.S.)	63	Converse University	Face to face courses only.	All coursework (core/electives) focused on Families, Couples, and Children.
Clinical Mental Health Counseling (M.A.)	60	Webster University	<p>Core courses in counseling.</p> <p>Mental Health Counseling emphasis.</p> <p>Face to face option in South Carolina (campuses in Myrtle Beach, Charleston, and Columbia).</p> <p>Graduates can sit for LPC.</p>	<p>Webster University is a Missouri-based institute of higher education with satellite campuses around the country and the world.</p> <p>Required courses include “Psychodiagnostics,” and “Trauma, Crisis, and Emergency Relief Counseling”</p> <p>Housed in the College of Science and Health.</p>

Comparison to other programs

To gauge state demand for an additional program in Student Counseling at the master's level, we probed the IPEDS data for the number of completions in programs with the same CIP code as proposed (13.11, Student Counseling and Personnel Services), and for similar programs with a different CIP code (42.28, Clinical, Counseling and Applied Psychology) for the last 3 years.¹⁷ See table below:

Institution Name	Degree Title	Degree Level	Completions		
			2020	2021	2022
<u>Student Counseling</u>					
Citadel Military College of South Carolina	Student Counseling and Personnel Services	Master's degree	19	16	19
Clemson University	Student Counseling and Personnel Services	Master's degree	55	68	127
University of South Carolina-Columbia	Student Counseling and Personnel Services	Master's degree	27	21	40
South Carolina State University	Student Counseling and Personnel Services	Master's degree	13	17	6
Winthrop University	Student Counseling and Personnel Services	Master's degree	16	21	24
<u>Clinical Counseling</u>					
Charleston Southern University	Clinical, Counseling and Applied Psychology	Master's degree	0	3	18
Bob Jones University	Clinical, Counseling and Applied Psychology	Master's degree	17	15	10
Clemson University	Clinical, Counseling and Applied Psychology	Master's degree	8	7	12
Columbia International University	Clinical, Counseling and Applied Psychology	Master's degree	13	22	24
Francis Marion University	Clinical, Counseling and Applied Psychology	Master's degree	12	19	20
University of South Carolina Aiken	Clinical, Counseling and Applied Psychology	Master's degree	6	10	7
University of South Carolina-Columbia	Clinical, Counseling and Applied Psychology	Master's degree	6	13	11
Winthrop University	Clinical, Counseling and Applied Psychology	Master's degree	12	11	12

Based on this data, the eight state-wide programs in clinical counseling graduated an average of 14 students in 2022, 13 students in 2021, and 9 students in 2020. The five programs offered in school counseling graduated an average of 36 students in 2022, 24 students in 2021, and 26 students in 2020, though it should be noted that Clemson's significantly larger program size does impact this mean score. The majority of programs demonstrate a growing number of completions over time, and all programs meet the program productivity metrics for completions. Given the large need for counselors, as evidenced in the Assessment of Needs and Employment Opportunities sections of the proposal, this is not enough counselors to meet the state demand; thus, this program will be an additional resource to help fulfill those needs.

Total FTE needed to support the proposed program: 1.27

Faculty: 1.00

Staff: 0.13

Administration: 0.14

Faculty, Staff, and Administrative Personnel

The College of Education and Social Sciences at Coastal Carolina University has sufficient faculty to initiate the program. The program will rely on the current dean for leadership and administrative staff. In the future, more faculty will be necessary and will be determined by university allocation resources. Spadoni College intends to hire at least two additional full-time, tenure-track faculty member and one additional clinical faculty member to cover the courses necessary to implement the curriculum and to meet CACREP requirements.

Resources

Library and Learning Resources

Kimbel Library holds about 1.1 million items in all formats, including over 375,000 eBooks provided by PASCAL, a statewide consortium. The library subscribes to about 230,000 periodicals, including magazines, newspapers, scholarly journals, and proceedings in print and online formats. The library provides access to its print holdings, as well as 175 online citation, full-text, and reference resources, via the library website at www.coastal.edu/library. All electronic resources, including books, articles, and videos, are available to Coastal students, faculty, and staff from off campus.

Course-integrated library instruction sessions are available to all academic departments; the library also offers one-credit information literacy courses. Librarians offer appointments for in-depth research help.

Kimbel Library is open 98 hours per week during the fall and spring semesters; during that time, library staff members are available to assist students via phone, chat, or in-person at the help desk.

Teaching faculty provide input regarding selection of library resources, including both print and electronic resources. The Spadoni College of Education and Social Sciences has a designated library liaison who takes order requests and communicates with faculty when new resources are available.

Library holdings are as follows:

Monographs

Subject areas for counseling education and training were identified for this program. Kimbel Library currently has access to almost 1000 relevant titles in print or eBook format.

Audiovisual

The library provides access to streaming videos in support of the counselor education curriculum, and currently has access to more than two hundred counseling films.

Serials and Subscriptions

Kimbel Library currently provides access to several peer-reviewed and trade journals in counseling and education. Online access is provided via aggregator databases, publisher packages, open access titles, and direct online subscriptions. Titles include:

- Adultspan Journal
- American Psychologist
- Applied & Preventive Psychology
- Career Development Quarterly
- Child Development
- Counseling and Values
- Counseling Psychologist, The
- Counselor Education and Supervision
- International Journal for Educational and Vocational Guidance
- JAMA: Journal of the American Medical Association
- Journal of Addictions & Offender Counseling
- Journal of College Counseling
- Journal of Counseling and Development
- Journal of Counseling Psychology
- Journal of Counselor Preparation and Supervision
- Journal of Creativity in Counseling
- Journal of Employment Counseling
- Journal of Humanistic Counseling
- Journal of Mental Health Counseling
- Journal of Military and Government Counseling
- Journal of Multicultural Counseling and Development
- Journal of School Counseling
- Professional Psychology: Research and Practice
- Professional School Counseling

- Health and Psychosocial Instruments
- JSTOR
- Mental Measurements Yearbook with Tests in Print
- Professional Development Collection
- PsycARTICLES
- Psychology and Behavioral Sciences Collection
- PsycINFO
- PsycTESTS
- ScienceDirect
- SocINDEX with Full Text
- Sociological Abstracts
- SpringerLink
- Web of Science

Student Support Services

All CCU students have access to university sponsored student support services including Accessibility and Disability Services, Student Computing Services, Kimbel Library, Student Health Services, and the Coastal Student Success Center including the Tutoring and Learning Center.

Advising

The College of Graduate and Continuing Studies supports graduate students with managing the enrollment process. The College of Education and Social Sciences employs a Graduate Programs Manager who assists in facilitating graduate student processes in the College, from recruitment to matriculation to program completion and graduation. We do not anticipate the need to add new student services for this program, thus we do not anticipate additional costs.

Counseling Services

Counseling Services are offered to Coastal Carolina University students to assist students in defining and accomplishing their personal and academic goals. Services include:

- Treating mental health concerns
- Preventing psychological difficulties
- Educating students to live emotionally and behaviorally healthy lives, and
- Contributing to a healthy campus environment.

Services also include individual, couples, and group counseling; psychiatric services; crisis intervention; assessment; nutritional counseling; drug and alcohol education; referrals; and consultation. The aim of Counseling Services is to produce graduates who are healthy citizens. Counseling Services adheres to the standard professional procedure regarding confidentiality of information and records are not part of any other Coastal Carolina University records.

Accessibility and Disability Services

Accessibility and Disability Services offers students with physical, psychological, or learning disabilities accommodations and assistance. With appropriate documentation, counselors determine accommodations needed to assist students in taking full advantage of their Coastal Carolina University educational opportunities. Ongoing disability coaching is offered to assist students with disabilities to help ensure their success at Coastal Carolina University. To access services and accommodations, students should register with the office, obtain documentation of the disability, and make an appointment with a staff member.

Physical Resources/Facilities

No new facilities or physical resources are needed for this program.

Equipment

Identify new instructional equipment needed for the proposed program.

No new equipment will be needed for this program.

Impact on Existing Programs

Will the proposed program impact existing degree programs or services at the institution (e.g., course offerings or enrollment)? If yes, explain.

☒ Yes

☐ No

Two courses in this program (EDSC 518, EDSP 635) are currently taught in other programs. These courses will see increased enrollments. Department chairs and program coordinators have been notified and are prepared to accommodate the increase in enrollment for these courses. The impact should be minimal.

Financial Support

Sources of Financing for the Program by Year

Total	\$71,400	\$94,432	\$70,437	\$169,149	\$71,400	\$244,377	\$0	\$322,093	\$0	\$328,535	\$213,237	\$1,158,586
Net Total (Sources of Financing Minus Estimated Costs)	\$195,900	\$674,276	\$202,209	\$1,279,162	\$206,699	\$1,844,155	\$283,661	\$1,660,668	\$289,334	\$1,543,389	\$1,177,803	\$7,001,649

Note: New costs - costs incurred solely as a result of implementing this program. Total costs - new costs; program's share of costs of existing resources used to support the program; and any other costs redirected to the program.

Budget Justification

Program cost-effectiveness and return-on-investment are evaluated institutionally using an induced revenue/expense model. As shown in the Financial Support table, tuition revenues are based on a 9-credit course load for each student projected to enroll in the program. These revenues represent course revenues derived from all courses taken by the student, including both departmental-fielded courses and cross-department electives. The expenses shown in the Financial Support table represent only direct expenses necessary for delivering program courses and administration. The beginning program administration and faculty/staff salaries total are determined by using average faculty and administration salaries of faculty and staff supporting the program based on FTEs for the program. The expenses for new faculty or administration salaries are determined by using a proportion of the CUPA salary averages based on FTE for new positions in the year being hired. The university uses a 50% gross academic margin assessment to ensure that new graduate and certificate programs will provide sufficient revenues to support their expense impact on institutional operations.

To derive gross academic margin, total induced revenue (\$8,160,235 for the period) is calculated minus total direct expenses (\$1,158,586 for the period) divided by total induced revenue (\$8,160,235 for the period). $[(\text{Revenue}-\text{Expenses})/\text{Revenue}]$

For a program to be considered cost-effective, the University looks for undergraduate and certificate programs to produce a gross academic margin of 50% or better. This program's gross academic margin is 85.80% for the period, which indicates that this program has a high likelihood of producing sustainable revenues.

While Spadoni College has existing faculty expertise in educational psychology, we will need to add full-time faculty to cover the breadth of the program, particularly in the clinical mental health counseling concentration. We anticipate the addition of two new full-time faculty members and one full-time clinical faculty member to fully implement the program; one of those faculty members will also serve as the program coordinator, and a portion of the teaching load will be redirected to administrative duties.

Evaluation and Assessment

Program Objectives	Student Learning Outcomes Aligned to Program Objectives	Methods of Assessment
1. Students will be able to demonstrate a professional counseling identity founded by ethical practices.	Graduates will demonstrate commitment as ethical and competent clinicians with a strong professional counselor identity aligned with the American Counseling Association ethical standards prepared to advocate on behalf of the profession and promotes client equity and access while committing to personal self-care and wellness.	<u>CMHC and SC Programs:</u> EDCO 500: Ethical Dilemmas and Counselor Welfare <u>CMHC Program Only:</u> EDMH 601: Theory of Change Discussion CMHC-Cumulative: Faculty and Site Supervisor Evaluation-Practicum CMHC-Cumulative: Faculty and Site Supervisor Evaluation-Internship I

There are numerous key assessments throughout the counseling programs for students. The counselor education program will have a comprehensive evaluation plan for systematically evaluating, monitoring, and reporting achievement of program objectives annually. The plan includes:

1. academic quality indicators aligned with program objectives;
2. minimum thresholds for academic quality indicators, as determined by counselor education program faculty;
3. the data that will be collected;
4. a procedure for how and when data will be collected;
5. a method for how and when data will be reviewed or analyzed;
6. a process for addressing unmet minimum thresholds;
7. a procedure for identifying and analyzing trends in the data across multiple years;
and
8. an explanation for how data will be used for curriculum and program improvement.

The 2024 CACREP Standards Academic Quality section will provide a framework for program evaluation and student assessment. The program objectives are evaluated by student learning outcomes measured by the associated course assignments. Throughout the clinical mental health and school counseling programs, students will need to achieve an 80% or higher on key assessments to pass the course. All key assessments must receive this grade to be granted a counseling degree. Formative evaluation examines the development of professional competencies with a focus on identifying strengths and deficiencies and corresponding learning interventions. Summative evaluation focuses on outcomes and is used to assess whether desired learning goals are achieved consistently with a professional standard. Students will be supported with gatekeeping protocols and faculty will be evaluated by anonymous student course evaluations, colleague observations, and annual evaluations with school leadership.

The program analyzes graduate outcomes and reports in aggregate, by program delivery type and CACREP specialized practice area, the achievement of minimum thresholds determined by the program for each of the following:

- a) pass rates on credentialing examinations,
- b) degree completion rates, and
- c) employment and doctoral admission rates.

Counselor education program faculty create an annual report that includes:

- a) a summary of the program evaluation results, including achievement of academic quality indicators;
- b) subsequent curriculum modifications and program improvement informed by program evaluation; and
- c) any other significant program changes. The annual report is submitted to the university assessment site.

Programmatic student learning outcome assessment is completed yearly, and is reviewed and evaluated at the college level by a college assessment committee. The college assessment committee makes recommendations for improvement to the department concerning both the structure of the assessment plan, and the outcomes of the assessment. At the University level, completion of yearly assessment is monitored by the University-Wide Assessment Committee – Educational Programs (UWAC-EP) Subcommittee. In addition, every three years, each program completes a three-year summary of their assessment outcomes, including an evaluation of the degree to which the program is meeting its student learning outcomes, and plans for improvements based on these outcomes. The three-year summaries are evaluated by the UWAC-EP, who also provides feedback and suggestions for improvement. In this way, the University ensures that yearly program assessment is completed, and also that programs close the loop leading to learning improvements.

Accreditation and Licensure/Certification

Will the institution seek program-specific accreditation (e.g., CAEP, ABET, NASM, etc.)? If yes, describe the institution's plans to seek accreditation, including the expected timeline.

- ☒ Yes
☐ No

The Educator Preparation Program (EPP) will seek Council for the Accreditation of Educator Preparation (CAEP) accreditation for the School Counseling program through American School Counselor Association (ASCA), and for both concentrations through the Council for Accreditation of Counseling and Related Educational Programs (CACREP). The EPP's current programs are recognized by CAEP (See Appendix A). The next EPP site visit will occur in Fall 2026; available data from this program will be shared as part of the on-site visit if approved before that date.

Will the proposed program lead to licensure or certification? If yes, identify the licensure or certification.

- ☒ Yes
☐ No

Explain how the program will prepare students for this licensure or certification.

Candidates are prepared for licensure through coursework focused on counseling pedagogy, assessment, and extensive fieldwork hours. Courses in counseling and assessment support candidates' content knowledge. In addition, candidates will participate in over 600 hours of field experience per state requirements. Their progression through the program is monitored by faculty as they complete course work and fieldwork experiences and successfully complete key assessments related to accreditation in alignment with state credentialing requirements. School counseling students must attempt the Praxis II exam before their first internship course. School counseling students must pass to be endorsed for certification.

If the program is an Educator Preparation Program, does the proposed certification area require national recognition from a Specialized Professional Association (SPA)? If yes, describe the institution's plans to seek national recognition, including the expected timeline.

☒ Yes

☐ No

Graduates will be qualified for employment in mental health counseling (e.g., able to seek credentials equivalent of Licensed Professional Counselor (i.e., Licensed clinical mental health counselor and licensed clinical professional counselor) in public or private settings and/or school counseling in public or private PK-12 settings. Students may also go on to doctoral study in counseling or related fields. Graduates of the Clinical Mental Health program will complete all coursework required by the state of South Carolina to seek the Licensed Professional Counselor (LPC) credential. Graduates of the School Counseling program will be eligible for South Carolina Department of Education certification in elementary and/or secondary school counseling. Once approved by CHE, the complete, approved proposal is sent to the SCDE. Then, it will go through SCDE internal review, external peer review, Professional Review Committee consideration, and SBE consideration. The process is expected to take approximately 24 months from state submission to program implementation.

May 15, 2020

Dr. David A. Deenzon
President
Coastal Carolina University
642 Century Circle
Conway, SC 29526

Dear Dr. Deenzon:

The Accreditation Council of the Council for the Accreditation of Educator Preparation (CAEP) met on April 27, 2020, and I am pleased to inform you that the following accreditation status has been granted:

William L. Spadoni College of Education at Coastal Carolina University is granted **Member** status at the initial level and advanced level as described in the Accreditation Action Report.

Included with this letter are two documents:

- 1) The Accreditation Action Report provides details of the accreditation status.
- 2) Initial Full Pathway Accreditation provides further information on the Council's decision process and provider responsibilities during the accreditation term.

Congratulations on your accreditation achievement. I appreciate your commitment to excellence in education.

Sincerely,

CL... A.. Kach

Oliver A. Kom, BID.
President

Enclosure: Accreditation Action Report, Certificate of Accreditation (mailed to provider leadership), and Information on CAEP Accreditation

Dr. Demis G. Wiseman, William L. Spadoni College of Education

Appendix B:

Required South Carolina Department of Education Documentation

III. SCDE Requirements

This section includes a description of the ways in which the program will meet all state requirements as outlined in the South Carolina Educator Preparation Guidelines: Standards Policies, and Procedures, South Carolina Provider Requirements, as applicable. These will include:

A. Requirements Related to State Statutes and Regulations

1.1. National provider standards

The M.Ed. in Counseling program will undergo review using the CACREP standards.

1.2. Criminal records check and fingerprinting requirements

To fulfill South Carolina legislative requirements and related public-school policies, all candidates who participate in any type of field-based experience associated with schools must undergo a SLED background check. Candidates must show a clear record on this check. If a criminal record is revealed, results are considered individually to determine if the candidates can be placed in a field experience. These decisions are made with the school district, and when appropriate, the state. Typically, candidates will not be placed in a field experience unless court records indicate that the matter was legally resolved or expunged from the individual's criminal record history. Coastal Carolina University will not place candidates in field experiences who have been convicted of or plead guilty to violent crimes or crimes of sexual nature. Candidates will not be placed in a field experience if they have been convicted of a felony that would make the candidate ineligible for a Professional Certificate.

To meet state certification requirements, an additional and more extensive FBI check is required at the beginning of the first practicum course for candidates. Candidates must show a clear record and no offenses that would make them ineligible for professional certification to be placed into an internship.

1.3 Read to Succeed

Candidates will take one course to meet Read to Succeed standards, EDSC 518 Reading and Writing in the Content Areas. This course will be submitted to the state for approval for the Read to Succeed standards as required by the South Carolina Department of Education (it is already approved for other graduate programs offered at Coastal). The course includes multiple assignments that address the standards. These include classroom design projects, text set projects, and reading theory reports.

Table 1. Read to Succeed Requirements

Course Title	Course Number	Credit Hours	Catalog Description	SC Literacy Standards, Elements, and Competencies Addressed
EDSC	518	3	A literacy methods course designed for candidates to learn general literacy instructional techniques and assessment strategies. Candidates will use these techniques and strategies to design a content-area instructional unit complete with an accompanying text set and assessments. Attention is given to addressing reading difficulties and enhancing reading skills necessary for effective teaching of content area materials.	1.2, 2.1, 2.2, 2.3, 3.1, 3.2, 3.3, 3.4, 4.1, 4.2, 4.3, 6.2

1.4 Assisting, developing, and evaluating professional counseling—ADEPT for School Counselors

Assessment of professional counseling is assessed and evaluated based upon competencies in planning, program management, direct and indirect services, and professionalism as defined by the South Carolina ADEPT Rubric for School Counselors. All candidates receive extensive training related to the current South Carolina requirements integrated into the Expanded ADEPT Support and Evaluation System. Prior to beginning the clinical experiences, all candidates receive a comprehensive orientation that includes written and oral explanations of

- Assistance and evaluation processes;
- Expectations related to the *ADEPT* System; and
- Requirements, including the SCTS performance criteria, for successfully completing the clinical practice.

The counseling education program will implement a plan that integrates ADEPT standards throughout the field experiences and internship. The program has infused the SCTS 4.0 rubric and expectations in courses and field experiences prior to internship to build familiarity and for both reflection and formative feedback. Candidates are introduced to SCTS 4.0 guidelines in each content course. The standards are first addressed in the School Counseling Programming and Leadership course and each of the respective content methods courses in the semesters before the internship experiences.

Counseling education candidates are evaluated on the ADEPT standards during internship by university supervisors that have completed the required ADEPT training to serve as an evaluator. Each candidate must be supervised by one or more EPP faculty supervisors and one or more school-based supervisors (i.e., cooperating counselors) throughout the clinical practice. Candidates are observed using the instrument during field experiences and internship. Each counselor candidate receives at least four formative observations (two by their university supervisor and two by the cooperating counselor) and four summative observations (two by their university supervisor and two by the cooperating counselor), written and oral feedback, and assistance regarding all SCTS Indicators from both the EPP and their school-based cooperating/supervising counselors throughout the clinical practice.

After each observation, the candidate and cooperating counselor discuss their progress and set goals for the next observation. University Supervisors, Cooperating Counselors, and Counselor Candidates review the instrument at a formative and summative conference. Evaluation decisions about candidate performance are based on the consensus judgments of the university supervisor and cooperating counselor. Evaluations are based on teaching performance in the four domains of Planning, Program Management, Direct and Indirect Services, and Professionalism and their accompanying indicators in the SCTS rubric. Candidates must receive a mean competency score of 2.5 or higher to successfully complete an internship.

1.5 Program for assisting, developing, and evaluating principal performance—PADEPP (Leadership programs only)

Not applicable

1.6 Family, school, and community engagement

The Spadoni College of Education and Social Sciences emphasizes the importance of involvement of families and communities in the school community and the classroom. To address the standards in this area, we meet the standards in the following ways:

(a) practices that are responsive to diversity, and are appropriate to various grade-level needs;

In the first course for the school counseling program, EDCO 500: Professional Counseling Orientation and Ethical Practice, students explore the ethical implications related to their desired role of counselor in supporting the uniqueness of each of their clients. Candidates read and discuss current literature that prepares them to respond to the diverse needs and experiences of clients. Counselors actively attempt to understand the backgrounds of the clients they serve to develop positive relationships with clients and meet client needs with evidence-based counseling practices.

Candidates gain an in-depth understanding of client uniqueness with exploration of biopsychosocial/intakes within their EDCO 501: Counseling Practice and Relationships course. Candidates gain knowledge and skills to analyze their attitudes and beliefs in EDCO 503: Identities and Experiences. This course helps candidates increase their awareness as they examine diverse client worldviews with an emphasis on ways gender, race, ability, language, sexuality, economic status, education, etc. impact counseling. Candidates gain insight into how intersecting identities influence therapeutic relationships with clients. Candidates learn and practice advocacy to address potential barriers and obstacles that inhibit access and/or the growth and development of clients. Candidates complete a curriculum audit that prompts them to consider the standards in their field in terms of how best meet the unique needs of their clients in their field placements. The main responsibility of counselors is to respect dignity and promote clients' welfare.

In EDCO 505: Assessment and Diagnostic Process, candidates complete an assessment of a client, substantiate client diagnosis, and formulate an evidence-based treatment plan to meet the unique needs of their client. This learned process is then implemented in each course after in which students are required to corroborate how their interventions with clients are evidence-based and align with their unique needs.

Finally, beginning in the first field experience, practicum, and continuing throughout the program, school counseling candidates are evaluated on their ability to ethically, legally, and use with evidence-based practices meet the unique needs of their clients. School counseling candidates are evaluated on models of school-based collaboration and consultation, school counselor consultation with families, PK-12 and postsecondary school personnel, community agencies, and other referral sources, and their skills to critically examine the connections of social, cultural, familial, emotional, and behavioral factors to academic achievement.

Furthermore, school counseling candidates are evaluated using the Direct and Indirect Services and Professionalism sections of the SCTS 4.0 rubric, which include a focus on their abilities to create a safe and welcoming environment for all students.

(b) establishment and maintenance of parent-friendly school settings;

In EDCO 500: Professional Counseling Orientation and Ethical Practice and EDCO 501: Counseling Practice and Relationships, school counseling candidates examine stakeholder relationships in clients' lives and explore how to navigate ethically and legally the involvement of parents and guardians when working with minors. These approaches are then revisited with specific attention to working with clients experiencing or who have experienced crisis and/or trauma in EDCO 506: Trauma-Informed Care and Crisis Intervention Counseling. Parameters are also explored in relation to group counseling in EDCO 508: Group Counseling and Group Work. In the EDCO 601: School Counseling Programming and Leadership, school counselor candidates are introduced to the role, qualities, styles, and approach of counselors as leaders, advocates, and systems change agents within the school setting. Candidates enhance their understanding of organizational structure within a school by recognizing leadership theories and principles. Candidates explore school counselor roles in consultation with families, P-12 and postsecondary school personnel, and community agencies. Candidates are introduced to issues related to meeting the needs of diverse parents and are prompted in class assignments to locate and use best practices for parent communication.

(c) awareness of community resources that strengthen families and assist students to succeed;

In the EDCO 503: Identities and Experiences course, candidates read and discuss current literature that prepares them to understand the need for understanding the community in which students live. In this course, candidates will engage in community cultural immersion and reflect upon and share with their peers what they have learned from the experience and highlight advocacy efforts based on their experiences. In Trauma- Informed Care and Crisis Intervention Counseling, candidates will complete a Mental Health Crisis Responder Interview to gain understanding of this role in their community and how to best support the needs of their future clients. In Professional Counseling Orientation and Ethical Practice course, candidates complete the South Carolina Mandated Reporter Training. This will assist students with understanding state and local resources to best support the welfare of their clients as well as be able to provide psychoeducation of support services available to the community. In this same course, candidates identify a mental health advocacy effort and act to support their community with the advocacy project. In the Career Development course, candidates create a career action plan for hypothetical clients that considers community barriers and access while also offering resources to meet the unique needs of their clients. Beginning in the first field experience, practicum, and continuing throughout the program, candidates are also evaluated using their ability to create a safe and

therapeutic counseling relationship for all clients through drawing on community resources and developing a rapport with clients and their support systems (i.e., families).

1.7 Safe School Climate Act

School counseling candidates are trained and assessed on the Safe Schools Climate Act during their EDCO 601: School Counseling Programming and Leadership and their field experiences. School counseling candidates are evaluated on their abilities to create a safe and welcoming environment for all clients during their field experience each semester.

1.8 Education and Economic Development Act (EEDA)

Before a recommendation for state licensure is made, evidence is provided that each school counseling candidate for program completion has passed the EPP's Safe Schools Climate Act Assessment, the EEDA Assessment, and the Professional Conduct Assessment. The Standards of Conduct for South Carolina Educators (Code of Conduct) is presented to all school counseling interns during their fieldwork experience. In the Career Development course, school counseling candidates utilize career inventories and biopsychosocial/intakes to practice and demonstrate competency in career counseling to meet the unique needs of their clients. In EDCO 602 Elementary & Secondary School Counseling Strategies and all fieldwork courses, school counseling candidates examine and practice (a) approaches to increase promotion and graduation rates, (b) interventions to promote postsecondary and career readiness, (c) strategies to facilitate school and postsecondary transitions, and (d) strategies to promote equity in student achievement and access to postsecondary education opportunities. Additionally, candidates are trained and assessed on EEDA during internship.

1.9 Student Health and Fitness Act (Early Childhood Education and Elementary Education only)

Not applicable

1.10 Admission to advanced level educator preparation programs

To be accepted to the M.Ed. in Counselor Education program, candidates must meet the following requirements:

- Statement of disclosure concerning all prior convictions to include felonies and misdemeanors
- Earned undergraduate degree with a GPA of 3.0 or higher

Additionally, all applicants for the M.Ed. in Counseling (Clinical Mental Health Counseling and School Counseling) must meet the Coastal Carolina University admission requirements. In addition, all applicants will be reviewed by an admissions committee who will make recommendations based on the following criteria:

1. Completion of a Coastal Carolina University application form.
2. An earned Bachelor's Degree.
3. A minimum overall cumulative grade point average of 3.0 (on a 4.0 scale) documented by official transcripts for all collegiate coursework.

- If grade point average is below 3.0, but not less than 2.7, applicants can choose to provide copies of official scores on Graduate Record Examination (GRE) and Test of English as a Foreign Language (TOEFL) if applicable. A score of 300 with no less than 160 on the verbal and 140 on the quantitative Graduate Record Examination is required. Scores must be no more than five years old. *If an applicant's bachelor's degree with overall GPA is 3.0 or higher, the Graduate Record Examination is waived.*
4. Applicants who are non-native speakers of English must demonstrate proficiency in English and provide official results from tests taken within the last three (3) years or one of the following acceptable means of documenting English language proficiency consistent with success in graduate programs. Note that higher scores may be required of some graduate programs so applicants are urged to consult their desired program to identify whether a higher score is required:
- A minimum score of 550 on the paper-based (PBT) or 79 on the internet (iBT) Test of English as a Foreign Language (TOEFL).
 - A minimum score of 6.5 on the International English Language Testing System (IELTS) exam
 - Certificate of Completion of level 112 of English for Academic Purposes (EAP) from an ELS Language Center.
 - Pearson Test of English (PTE) Academic with a score of 59.
 - Cambridge CAE (Certificate of Advanced English) with a minimum level of C1.
 - Cambridge CPE (Certificate of Proficiency in English) with a minimum level of C1.
 - MEL-AB (Michigan English Language Assessment Battery) with a score of 77.
 - TOEIC (Test of English for International Communication) with a score of 745.
 - Bachelor's degree earned from a regionally accredited U.S. institution of higher education within the last three (3) years.
5. Online application to include a statement of professional goals
6. Submit three (3) professional references that can specifically address the candidates' ability to successfully meet the demands of graduate coursework and relevant work experience.
- must be professional and diverse. *(1 reference must be from a current/previous higher education instructor and 1 must be from a current/previous supervisor. Family and friends are not appropriate references.)*
 - need to be able to discuss the candidates' interpersonal and intrapersonal skills and aptitude for success in a hybrid graduate program at CCU's counseling program (e.g., clinical mental health counseling or school counseling).
 - Strong references are knowledgeable about the applicant's academic preparation and/or relevant work experience.
7. Based on application to include exploration of professional goals, GPA and/or GRE scores, three references, and, if applicable, demonstration of English language

proficiency, candidates will be required to attend an interview primarily focusing on the applicant's statement of professional goals^[OBJ, TOB] vision.

1.11 PK–12 academic standards

The program will align with CACREP standards and undergo CACREP review for approval.

1.12 Tuberculosis screening and evaluations

Counselor education candidates must provide documentation of a negative TB test before starting the internship.

B. Requirements Related to SBE Guidelines and SCDE Policy

2.1 Field experiences

Candidates must complete 100 hours of supervised practicum experience prior to internship in EDCO 603, the School Counseling Practicum, with at least 40 of those hours spent providing direct clinical service. After, candidates must complete at least 600 hours of internship, 300 hours at the elementary level (EDCO 604) and 300 hours at the middle/secondary level (EDCO 605). Of the 600 hours, at least 240 must be spent providing direct clinical service. The internship experience must provide for intensive and continuous involvement in a public-school setting. Our five partnering districts work closely with the college to help provide relevant and productive sites for field placements of counselor education majors. These schools collaborate with the college to provide the personnel, curriculum, and environments necessary to offer effective instruction and services for prospective counselors. Throughout the field experiences, candidates are observed regularly by university supervisors and cooperating counselors using the SCTS 4.0 rubric domains. Field experiences provide actual settings in which to develop and demonstrate the knowledge, skills, and dispositions necessary to help all students. The field experiences are diverse and provide interaction with students in a variety of settings. At the internship level, interns meld the theoretical and practical knowledge of classroom instruction with professional behaviors. Interns can explore, investigate, grow, and develop through the internship. Interns must apply their knowledge of learners and counseling strategies by working with students as full participating members of a professional school community.

Expectations for school counseling interns include the ability to:

- assume the role of a professional counselor, working productively with their mentors.
- demonstrate a professional school counselor orientation in their roles, responsibilities, and relationships with an emphasis on legal and ethical issues.
- demonstrate culturally and developmentally appropriate skills in individual and group counseling, including consultation, assessment, treatment planning, and record keeping

Additionally, interns are expected to prepare counseling lesson/unit plans, demonstrate how to effectively manage the learning environment, demonstrate how to plan for assessment of student learning, and how to analyze and reflect on student learning data to determine comprehensive school counseling program. Interns are expected to participate in school-wide initiatives, attend professional development, attend to administrative tasks, and support school functions. All candidates receive formative and summative feedback during the internship regarding their growth and performance.

Finally, the internship represents an all-important exit point in the program. The internship serves as the final check of both candidate quality and program effectiveness. When the program is successfully completed, candidates will have met requirements toward receiving a South Carolina school counselor license.

2.2 Professional ethics and decision-making

The Spadoni College emphasizes professional ethics and responsibilities in all programs. The program addresses the following principles: Principle I: Responsibility to the Profession; Principle II: Responsibility for Professional Competence; Principle III: Responsibility to Students; Principle IV: Responsibility to the School Community; and Principle V: Ethics of the Use of Technology. The program faculty teach these standards throughout the coursework and internship. Professionalism and professional behavior are reviewed and tracked through the instruments described below.

As future professional counselors, the faculty expects candidates to be concerned about other people, to be stable and psychologically well adjusted (personally and professionally) without impairment, to be capable of effective interpersonal relationships, to be able to receive feedback willingly, and to give feedback constructively. Candidates must behave in a way that demonstrates fitness for a role in counseling. Finally, candidates should be committed to continued personal growth and professional development and to demonstrate that commitment through self-reflection and responsiveness to supervision in all activities related to their degree program.

Both informal and formal review will occur for candidates' professional dispositions. Formal review will be embedded with course experiences that support the development of the counselor's professional identity with emphasis on professional responsibilities. Candidates are first introduced to professional orientation and ethical responsibilities during their first course in the school counseling program, EDCO 500 Professional Counseling Orientation and Ethical Practice. Prior to even being accepted into the program, the application asks the candidate to examine applicability to of the American Counseling Association (ACA) ethical codes with their desired professional goals. The assessment of Candidate Dispositions used throughout the program, to include field experiences. It defines professional expectations of a counselor and monitors if candidates are behaving professionally, making sound decisions in ethical behavior that could impact themselves or the school community. It evaluates their ability to maintain awareness of unique needs of clients and application of evidence-based strategies. It examines how the candidates interact with students, fellow teachers/counselors, parents/guardians, and community. It requires candidates to critically analyze their content and accept constructive criticism. In addition, it explores how to maintain confidentiality about students and communicate with and about students to colleagues and families. If at any time a behavior is seen that does not align with the professional dispositions, a notification of professional performance concern is created by faculty and/or counseling faculty advisor, and they monitor and provide remediation guidance to support the candidate with demonstrating professional behavior in the future.

The SCTS 4.0 has evaluation lines expressly addressing professionalism and how to grow as a professional. The instrument asks candidates to reflect on their professionalism and how they would like to grow in the future. It also asks faculty and cooperating site supervisors to evaluate the candidate's growth and development in their learning and learning goals, their ability to reflect on their practice, their community involvement, and their school responsibilities. In addition, rubric lines evaluate program plans, communication practices, lesson planning, program management assessment and monitoring, and professionalism in relation to ethics, student success, leadership, and collaboration.

This instrument is used to evaluate candidates in field experience placements. Additionally, the summative evaluation includes faculty supervisor and site supervisor evaluation of school counselor candidates' abilities to meet the role expectations set forth by the Council for Accreditation of Counseling & Related Educational Programs (CACREP) for school counselors.

2.3 Initial program approval

The new program will gain State Board of Education approval prior to implementation, recruitment, and admission of candidates.

2.4 Continuing program recognition (modified/continuing programs only)

Not applicable

2.5 Verification of candidate program completion for educator certification

The EPP completes the verification of program completion for educator certification form for all candidates once they meet program completion requirements; this includes meeting state GPA guidelines, completion of all coursework, successful completion of all key assessments, successful completion of internship requirements, application for counseling intern fieldwork experience, and completion of state-required Praxis II.

2.6 Annual reporting

The EPP completes both the CAEP Annual Report and the Title II report in accordance with accreditation and federal requirements; in addition, the EPP submits the Educator Preparation Provider Annual Report, the ADEPT Report, and SCDE Assurances form each year to the South Carolina Department of Education. Finally, each program submits an annual university report documenting candidate performance as it aligns to each program's student learning outcomes. All programs submit either state- or Specialized Professional Association (SPA) reports according to the deadlines set by CAEP or their accrediting bodies (e.g., CACREP).

2.7 Technology for the enhancement of PK–12 student learning

All candidates will participate in a blended program experience in which they gain support and practice with asynchronous and synchronous technology components. Candidates will examine ethical and legal telehealth practices applicable to schools and the community. Students will gain practice with the implementation of telehealth practices and receive support for continued professional development. Candidates will complete throughout their program varied tasks that require diverse technology applications (e.g., PowerPoint Presentations, Zoom, technology integration (apps, web tools, creative design applications). These skills will be developed to support implementation within schools to support student success (e.g., lesson planning, program planning, program evaluation).

May 15, 2020

Dr. David A. DeCenzo
President
Coastal Carolina University
642 Century Circle
Conway, SC 29526

Dear Dr. DeCenzo:

The Accreditation Council of the Council for the Accreditation of Educator Preparation (CAEP) met on April 27, 2020, and I am pleased to inform you that the following accreditation status has been granted:

The William L. Spadoni College of Education at Coastal Carolina University is granted **Accreditation** at the initial-licensure level and advanced-level as described in the Accreditation Action Report.

Included with this letter are two subsequent documents:

- 1) The Accreditation Action Report provides details of the accreditation status.
- 2) Information for EPPs Granted Accreditation provides further information on the Council's decision process and provider responsibilities during the accreditation term.

Congratulations on your accreditation achievement. I appreciate your commitment to excellence in educator preparation accreditation.

Sincerely yours,

A handwritten signature in black ink that reads "Christopher A. Koch". The signature is written in a cursive, slightly stylized font.

Christopher A. Koch, Ed.D.
President

Enclosures: Accreditation Action Report, Certificate of Accreditation (mailed to provider leadership), and Information on CAEP Accreditation

Dr. Dennis G. Wiseman, William L. Spadoni College of Education

IV. National accreditor and SPA Standards, and assessments

A. A current accreditation approval letter from the Specialized Professional Association (e.g., NASM, NASAD, etc.):

A copy of the most recent CAEP letter may be found in Appendix A.

B. Program report

B1. Context

The Dean of the Spadoni College of Education and Social Sciences is responsible for all institutional policies for the College. The Dean works with the faculty and other academic administrators within the College to ensure the quality of the academic program and the alignment with CACREP and state standards. The College's organization and governance structure assures the integrity and quality of academic programming.

South Carolina State Laws and Regulations include the following: (1) Educator preparation units offering initial licensure programs must develop and implement a plan that integrates the South Carolina ADEPT performance standards throughout candidates' coursework, field experiences, and clinical practice. The unit must provide evidence that all candidates recommended for certification meet their respective ADEPT competencies, (2) Educator preparation units must provide assessment evidence to indicate that all candidates enrolled in educator preparation, school guidance counseling, and education administration programs possess the knowledge, skills, and dispositions to integrate the following into the PK-12 curriculum: career guidance; cluster study; curriculum frameworks; individual graduation plans; the instruction of students with diverse learning styles; the elements of the Career Guidance Model; contextual teaching; cooperative teaching; and character education. Institutions must also prepare and assess all candidates in the use of applied methodologies in PK-12 academic courses, (3) Educator preparation units must provide candidates with specific written information regarding the state Standards of Conduct (SC Code Ann. §§ 59-25-160, 59-25-530, 63-17-1060) required of South Carolina educators for initial certification, (4) Educator preparation units must provide evidence that candidates in all certification programs possess the knowledge, skills, and dispositions to identify and prevent bullying, harassment, and intimidation in schools, (5) Educator preparation units must provide evidence that candidates in all certification programs know, understand, and can apply South Carolina PK-12 Academic Curriculum Standards in the area in which they seek to be certified, (6) Educator preparation programs must ensure that candidates meet minimum admission requirements at the initial and advanced levels, (7) Educator preparation programs and other school personnel preparation programs must provide field experiences (also known as the practicum) that provide candidates with a variety of progressive experiences in multiple and diverse settings. All candidates complete a minimum of 100 hours of field experience prior to the clinical practice (internships), which must total 600 hours. (8) Counselor education candidates must complete a 3-credit hour course in literacy to fulfill the state's Read to Succeed requirements.

The counselor education program at Coastal Carolina University will provide a sequence of field-based experiences in which candidates develop and demonstrate the knowledge, skills, and dispositions necessary to help all students learn. Teacher candidates advance through three field experiences, each requiring them to assume greater responsibility in the classroom before the internship semester. Field experiences are designed to engage candidates in a variety of school settings, including those with high and low levels of diversity, those with high and low levels of SES, and more rural and urban settings.

Table 1. Field Experience Requirements

Course	Placement	Minimum Required Hours
EDCO 603	Public school	100 hours
EDCO 604	Public elementary school	300 hours
EDCO 605	Public high school	300 hours

Field Experience I – EDCO 603 (100 hours)

Candidates spend 100 hours gaining practical knowledge of the school setting and the role of the school counselor as well as to begin to develop skills in individual and group counseling and interactive classroom instruction. The candidates observe and may work with an individual child, small groups, or a class alongside the counselor.

Field Experience II – EDCO 604 (300 hours)

Counselor candidates have opportunities to apply knowledge and skills in authentic situations. At the internship level, interns meld the theoretical and practical knowledge of counseling with professional behaviors. Interns can explore, investigate, grow, and develop through the internship. The internship further develops skills in individual and group counseling and interactive classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers and parents. This field experience occurs in a public elementary school.

In Field Experiences II and III, the candidate has at least three formative observations (two by the University Supervisor and one by the cooperating counselor) and three summative observations (two by the University Supervisor and one by the cooperating counselor) using the ADEPT for School Counselors rubric. They are also scored on the Assessment of Candidate Dispositions. Finally, the internships represent an all-important exit point in the program. Interns may not finish the internships, or complete their programs of study, without demonstrating competence as defined in this document; therefore, the internships serve as the final check of both candidate quality and program effectiveness.

Field Experience III – EDCO 605 (300 hours)

Counselor candidates have opportunities to apply knowledge and skills in authentic situations. At the internship level, interns meld the theoretical and practical knowledge of counseling with professional behaviors. Interns can explore, investigate, grow, and develop through the internship. Candidates are expected to assume a greater responsibility as the instructional leader. The internship further develops skills in individual and group counseling and interactive

classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers and parents. This field experience occurs in a public high school.

Interns are expected to demonstrate proficiency in selected Performance Dimensions in addition to all the Professional Behaviors and Dispositions. Interns must apply their knowledge of learners and counseling by working with students as full participating members of a professional school community.

As previous noted, in field experiences II and III, the candidate has at least three formative observations (two by the University Supervisor and one by the cooperating counselor) and three summative observations (two by the University Supervisor and one by the cooperating counselor) using the ADEPT for School Counselors rubric. They are also scored on the Assessment of Candidate Dispositions. Finally, the internships represent an all-important exit point in the program. Interns may not finish the internships, or complete their programs of study, without demonstrating competence as defined in this document; therefore, the internships serve as the final check of both candidate quality and program effectiveness.

Assurances of High-Quality Field Experience:

The counselor education faculty work from a well-planned, collaborative research agenda that builds on and extends themes related to high quality field experiences. The faculty work closely with the Clinical Experiences Placement Coordinator to place the candidates with high quality schools that will work closely and collaboratively with our candidates. We use a strict vetting process when hiring University Supervisors, who are trained as ADEPT evaluators, to evaluate our counselor candidates. Our faculty have also worked closely to create a clear consensus about what high-quality field experiences look like and how that plays into a high-quality program.

B2, 3, 4. LIST OF ASSESSMENTS/ RELATIONSHIP OF ASSESSMENTS TO STANDARDS

CACREP does not limit EPPs to 6-8 key assessments, unlike other specialized program associations. Additionally, CACREP programs must address multiple strands of standards, versus a single set required by other accrediting bodies. Thus, the M.Ed. in Counseling has created a comprehensive portfolio of key assessments aligned to the CACREP standards. The following tables, pulled from the CACREP self-study report guidelines, show the alignment between courses, key assessments, and CACREP standards:

SSR 2.C KPIs and Dispositions Information

(Table taken from CACREP submission requirements)

Key Performance Indicators

Program Objectives	Key Performance Indicator (KPI)	Associated Foundational Curricular Area or Specialized Practice Area	Minimum Performance Expectation	Specific Measures Used to Assess KPI	Knowledge/Skill Assessment	When and Where Measurements Occur
Students will be able to demonstrate a professional counseling identity founded by ethical practices.	Graduates will demonstrate commitment as ethical and competent clinicians with a strong professional counselor identity aligned with the American Counseling Association ethical standards prepared to advocate on behalf of the profession and promotes client equity and access while committing to personal self-care and wellness.	Professional Counseling Orientation and Ethical Practice	Key Assessment Assignment: Candidates must receive an 80% or higher score on the assignment.	Ethical Dilemmas and Counselor Welfare Assignment	Knowledge	EDCO 500: Professional Counseling Orientation and Ethical Practice Course Assignment; Core course for CMHC and SC program candidates.
		Professional Counseling Orientation and Ethical Practice	<u>CMHC Program Only</u> : 80% or higher score on the assignment. Internship II: Key Assessment Assignment: Candidates must receive an 80% or higher score on the assignment.	<u>CMHC only</u> Summative: Faculty and Site Supervisor Evaluation- Internship II	Skill	<u>CMHC program only</u> : EDMH 606: Clinical Mental Health Internship II course assignment
		Professional Counseling Orientation and Ethical Practice	<u>SC Program Only</u> : Key Assessment Assignment: Candidates must receive an 80% or higher score on the assignment.	<u>SC Program Only</u> : School Counseling Program Presentation	Knowledge and Skill	<u>SC Program Only</u> : EDCO 602: Elementary & Secondary School Counseling Strategies course assignment.

			<p>SC Program Only: 80% or higher score on the assignment. Internship I and II: Key Assessment Assignment: Candidates must receive an 80% or higher score on the assignment.</p>	<p>SC Program Only: SC- Internship I Cumulative: (a) SC DOE summative evaluation, (b) Faculty Supervisor evaluation, Site Supervisor evaluation SC- Internship II Cumulative: (a) SC DOE summative evaluation, (b) Faculty Supervisor evaluation, Site Supervisor evaluation</p>	Skill	<p>SC Program Only:</p> <p>EDCO 604: School Counseling Internship I: Elementary course assignment.</p> <p>EDCO 605: School Counseling Internship II: Secondary course assignment.</p>
Students will be able to utilize assessments to support counseling plans development for clients.	Graduates will demonstrate the knowledge, skills, and practices to competently complete assessments, case conceptualizations, diagnoses, treatment plans, and program development and evaluation across the lifespan.	Counseling Practice and Relationships	Key Assessment Assignment: Candidates must receive an 80% or higher score on the assignment. Professional Dispositions

Each Professional Performance Standard is rated on a scale of 0 (poor) to 4 (excellent) as described in the Criteria for Professional Performance Standards Evaluation (**Appendix A in Handbook**). Both informal and formal review will occur for candidate professional disposition. Formal review will be embedded with course experiences that support the development of the counselor professional identity with emphasis on professional responsibilities:

- EDCO 602: Taping Role-Plays and Transcript
- Fieldwork Summative Evaluations

Candidates' fulfillment of the ten Professional Performance Standards is reviewed by individual faculty during each course and by the conclusion of each semester by the CCU Counseling Program faculty within the Professional Performance Standards Committee.

SSR 2.C KPIs and Dispositions Information

(Table from CACREP submission requirements)

Professional Dispositions

Professional Dispositions and Definitions	Method of Assessment	When and Where Assessment Occurs
<p>1. <i>Openness to new ideas.</i> The candidate solicits ideas and opinions from others, invites constructive feedback, displays an interest in others' perspectives, and strongly incorporates feedback to change one's own behavior.</p>	<p>Faculty are required to assess candidate professional dispositions using the counseling program's Professional Performance for eight (8) core CMHC and SC counseling program courses, five (5) occurrences within the CMHC entry-level program courses, and five (5) occurrences within the SC entry-level program courses. These assignments require the associated course faculty to assess candidate professional dispositions in relation to their performance on this assignment within the course.</p>	<p>Faculty are required to assess candidate professional dispositions using the counseling program's Professional Performance Standards throughout the entirety of their program. Some courses and assignments have been pre-identified to support gatekeeping efforts (see methods of assessment). Faculty must complete the evaluation associated with specific course assignments while accounting for the candidate's professional dispositions throughout the course. The faculty will select the score most closely matching the candidate's professional dispositions during the course aligned to the rubric.</p>
<p>2. <i>Flexibility.</i> The candidate shows effort to recognize the changing demands in the professional environment, shows effort to adapt responses and behavior to meet the demands of the changing professional environment, and accepts changes in one's own schedule without resentment.</p>	<p>Professional disposition assessment is not limited to these assignments. If any concern of candidate professional dispositions is displayed throughout their enrollment in the program, associated course faculty, advisor, and/or program director, are responsible to disclose with report to the professional standards committee.</p>	<p>Clinical Mental Health Counseling and School Counseling Programs</p>
<p>3. Culturally Relevant Interpersonal Skills: Interacts with others in a manner that evidences emotional awareness, emotional control, and mutual respect. Works cooperatively with others (e.g., peers, faculty, supervisors). Clearly communicates ideas and concepts to encourage receptiveness of message. Provides objective feedback with ability to substantiate self in theory and scholarly research. Is willing to embrace client worldview. Seeks to meet the client in the client's here and now with consideration of cultural and developmental sensitivity to support access to services and successful</p>	<p>Candidate dispositions are also assessed each semester during counseling program meetings.</p>	<ul style="list-style-type: none"> • EDCO 501: Foundational Skill Biopsychosocial and Progress Note • EDCO 502: Developmental Autobiography • EDCO 503: Self-Reflection Worldview Paper • EDCO 504: Personal Counseling Theory Integration Paper • EDCO 505: Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project, Part 5- Reflection • EDCO 506: Crisis Counseling Practice, Supervision, and Reflection • EDCO 507: Cover Letter and

therapeutic experience with therapeutic progression.		Resume/CV for the Counseling Field
<p>4. <i>Willingness to accept and use feedback.</i> The candidate invites and welcomes all types of feedback from others with a receptive attitude, incorporates supervisory feedback into one's own views and behaviors, and demonstrates a willingness to give and receive supervisory feedback.</p>		<ul style="list-style-type: none"> • EDCO 508: Group Facilitator Self-Assessment Paper
<p>5. <i>Self-awareness of own impact on others.</i> The candidate demonstrates effort on recognizing how one's own words and actions impact others, initiates and accepts feedback from others regarding the impact of own words and actions, and incorporates feedback from others into positive behavioral change of own words and actions.</p>		<p>Clinical Mental Health Counseling (only)</p> <ul style="list-style-type: none"> • EDMH 601: Taping Role Plays and Transcript • EDMH 601: Theory of Change Discussion • Field experience Evaluations (practicum, internship I, and internship II)
<p>6. <i>Ability to deal with conflict.</i> The candidate is consistently willing and able to consider others' point of view, examine one's own role in conflict, open to supervisory critique about one's own role in conflict, and initiates problem-solving efforts in conflicts.</p>		<p>School Counseling (only)</p> <ul style="list-style-type: none"> • EDCO 602: School Counseling Program Presentation • EDCO 602: Taping Role-Plays and Transcript • Field experience Summative Evaluations (practicum, internship I, and internship II)
<p>7. <i>Ability to accept personal responsibility.</i> The candidate monitors their own level of responsibility in professional performance, invites constructive critique from others and incorporates feedback into professional growth, accepts own mistakes and uses them as an opportunity for self-improvement and</p>		

growth, and rejects blame in favor of self-reflection and examination.		
8. <i>Ability to express feelings effectively and appropriately.</i> The candidate is consistently able to articulate one's own feelings, shows evidence of acknowledging the feelings of others, expresses feelings in a manner appropriate to the setting, and openly discusses feelings during supervision.		
9. <i>Ethical Conduct.</i> The candidate maintains clear personal-professional boundaries with clients, demonstrates consistent sensitivity to diversity and inclusion, consistently ensures client safety and well-being, and safeguards the confidentiality of clients.		
10. <i>Alignment to the Profession: Initiative and motivation.</i> Demonstrates motivation to pursue graduate study in chosen field (i.e. met all attendance requirements and deadlines, regularly participated in class activities, met or exceeded expectations, consistently displayed initiative and creativity in assigned work). Rationale for pursuing chosen field aligns with values and mission of the profession. Goals for professional development are appropriate for the chosen field.		

SSR 3.A Foundational Counseling Curriculum

PROFESSIONAL COUNSELING ORIENTATION AND ETHICAL PRACTICE

A. PROFESSIONAL COUNSELING ORIENTATION AND ETHICAL PRACTICE	EDCO 500 Professional Counseling Orientation and Ethical Practice	EDCO 501 Counseling Practice and Relationships	EDCO 505 Assessment and Diagnostic Process	Narrative
A.1: history and philosophy of the counseling profession and its specialized practice areas	X			EDCO 500 History Guides the Future Presentation Assignment: Candidates will review the history of how the profession of counseling has developed over time and identify one ethical or legal standard developed to support the improvement of the counseling profession.
A.2: the multiple professional roles and functions of counselors across specialized practice areas	X		X	EDCO 500 Helping Professionals' Scope of Practice Assignment: Candidates are expected to identify the scope of practice of numerous helping professionals and explore their ethical responsibilities using their ethical codes/standards. This assignment will require candidates to complete research to identify the organization providing ethical and legal guidance for the specific helping profession. EDCO 505 Assessment Practice and Professionalism: Throughout the semester, candidates will practice taking and interpreting findings as well as facilitating and interpreting results for hypothetical cases. Consideration of audience receiving report will be examined in addition to within scope of practice and need for referrals for out-of-scope client assessment needs.

A.3: 3. counselors' roles, responsibilities, and relationships as members of specialized practice and interprofessional teams, including (a) collaboration and consultation, (b) community outreach, and (c) emergency response management	X			EDCO 500 Helping Professionals' Scope of Practice Assignment: After completing research of the varying helping professional roles and their ethical responsibilities, candidates will explore how their role as a helping professional intersects with the other helping professions for (a) collaboration and consultation, (b) community outreach, and (c) emergency response management.
A.4: 4. the role and process of the professional counselor advocating on behalf of and with individuals receiving counseling services to address systemic, institutional, architectural, attitudinal, disability, and social barriers that impede access, equity, and success	X			EDCO 500 Advocacy Project assignment: Candidates will explore a current issue impacting their community and the counseling profession and report about it in relation to their role as a change agent to their classmates. For this assignment, candidates have the option to write a letter or email related to legislative action or participate in an organized mental health community event that focuses on helping an underrepresented population or raises awareness of an issue in their community. Candidates will reflect on the experience they choose.
A.5: 5. the role and process of the professional counselor advocating on behalf of the profession	X			EDCO 500 Advocacy Project assignment: For this assignment, candidates have the option to write a letter or email related to legislative action or participate in an organized mental health community event that focuses on helping an underrepresented population or raises awareness of an issue in their community. Candidates will reflect on the experience, to include, but not limited to, their role, for the option they choose.
A.6: 6. professional counseling organizations, including membership benefits, activities,	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will examine how a counseling organization's membership can support their professional

services to members, and current issues				goals. and gain understanding of the current labor market.
A.7: 7. professional counseling credentialing across service delivery modalities, including certification, licensure, and accreditation practices and standards for all specialized practice areas	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will identify their state's organization which guides credentialing for counseling specialty. Candidates will identify the requirements to become and maintain their desired counseling credential: (a) licensed professional counselor or (b) school counselor in their state depending on counseling program enrollment. Exploration concerning parameters of service delivery (e.g., telehealth) will be identified.
A.8: 8. legislation, regulatory processes, and government/public policy relevant to and impact on service delivery of professional counseling across service delivery modalities and specialized practice areas	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will identify their state board/ credentialing organization's parameters of service delivery (e.g., telehealth) will be identified.
A.9: current labor market information and occupational outlook relevant to opportunities for practice within the counseling profession	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will identify the current labor market for their desired counseling specialty.
A.10: ethical standards of professional counseling organizations and credentialing bodies, and applications of ethical and legal considerations in professional counseling across service delivery modalities and specialized practice areas	X			EDCO 500 Ethical Dilemmas and Counselor Welfare assignment: Candidates identify ethical and legal dilemmas counselors can face with clients in accordance with state law and professional ethical responsibilities as a counselor and integrate ethical decision-making models to resolve specific legal and ethical issues.

A.11: self-care, self-awareness, and self-evaluation strategies for ethical and effective practice	X	X	X	<p>EDCO 500 Ethical Dilemmas and Counselor Welfare assignment: Candidates articulate the impact of a counselor's personal values on the ability to resolve legal and ethical dilemmas within the counseling profession and develop strategies to address the influence of a counselor's personal values on ethical decision making.</p> <p>EDCO 501: Counselor Welfare Assignment: Candidates will engage in personal and professional wellness awareness exercises throughout the course. Candidates will reflect on their commitment to their self-care and their current feelings towards their satisfaction with their personal self-care. Candidates will consider what went well for them as well as what was more difficult. As an aspiring future counselor, candidates will examine their ethical obligation to monitor their effectiveness and be mindful of any impairments to safeguard the welfare of clients first and foremost.</p> <p>EDCO 505 Assessment Practice and Professionalism: Candidates are expected to demonstrate professionalism with facilitation of and interpreting results for hypothetical cases. Professionalism represents a way of being made up of appearance, manner, communication, interacting, attitudes, approach, skills, and openness to grow.</p>
A.12: the purpose of and roles within counseling supervision in the profession	X			<p>EDCO 500 Ethical Dilemmas Class Examination and Quizzes: Candidates are expected to come prepared to actively research state laws and ethical code/standard application to resolve dilemmas for service delivery across</p>

				modalities (e.g., face-to-face versus telehealth) when supervised and unsupervised.

SSR 3.B Foundational Counseling Curriculum

SOCIAL AND CULTURAL IDENTITIES AND EXPERIENCES

B. SOCIAL AND CULTURAL IDENTITIES AND EXPERIENCES	EDCO 503 Identities and Experiences	CMHC: EDMH 603- Diagnosis and Treatment of Addictions Counseling	SC: EDCO 604 School Counseling Internship I: Elementary	Narrative
B.1: theories and models of multicultural counseling, social justice, and advocacy	X			EDCO 503 Annotated Bibliography assignment: Candidates will research 3 professional, peer-reviewed, journal articles addressing issues related to counseling a subgroup you have chosen to study. This assignment will give you the opportunity to discover how theories of counseling are applied to diverse populations and further developed through empirical research.
B.2: the influence of heritage, cultural identities, attitudes, values, beliefs, understandings, within-group differences, and acculturative experiences on individuals' worldviews	X			EDCO 503 Culturally sensitive Biopsychosocials/Intakes assignment: Candidates will be required to research cultures and populations unfamiliar to them to support establishing therapeutic rapport with the client.
B.3: the influence of heritage, cultural identities, attitudes, values, beliefs, understandings, within-group differences, and acculturative experiences on help-seeking and coping behaviors	X	CMHC		EDCO 503 Self-Reflection Worldview Paper assignment's purpose is to stimulate self-reflection on one's life experiences, particularly regarding race, gender, class, ability, sexuality, and spirituality. It also seeks to prompt thought about the interrelationships among race, gender, issues of social justice, and class

				<p>(socioeconomic background), and how this influences your clinical work.</p> <p>CMHC EDMH 603 Experiential Project: Candidates will watch films that address issues related to substance use and addictive behavior. Considerations of prevalence within culture should be considered. Students will choose to view 1 film outside of class (with instructor approval) and complete a developmentally and culturally appropriate treatment plan.</p> <p>CMHC EDMH 603 Counseling Demonstrations and Experiential Activities: Candidates will engage in group discussion and exercises including examination of mental health behaviors for cultures.</p>
B.4: the effects of historical events, multigenerational trauma, and current issues on diverse cultural groups in the U.S. and globally	X			EDCO 503 Cultural Immersion Impact assignment: candidates will identify historical and/or current issues impacting culture stereotypes and the effects of stereotypes.
B.5: the effects of stereotypes, overt and covert discrimination, racism, power, oppression, privilege, marginalization, microaggressions, and violence on counselors and clients	X			EDCO 503 Cultural Immersion Impact assignment: candidates will identify historical and/or current issues impacting culture stereotypes and the effects of stereotypes.
B.6: the effects of various socio-cultural influences, including public policies, social movements, and cultural values, on mental and physical health and wellness	X			EDCO 503 Self-Reflection Worldview Paper assignment: Candidates will discuss the formative experiences that shaped your beliefs about race, gender, class, ability, and sexuality.
B.7: disproportional effects of poverty, income disparities, and health disparities toward people with marginalized identities	X			EDCO 503 Self-Reflection Worldview Paper assignment: Candidates will examine class variances I comparison to other cultures.

B.8: principles of independence, inclusion, choice and self-empowerment, and access to services within and outside the counseling relationship	X		SC	<p>EDCO 503 Cultural Immersion Impact assignment: Candidates will apply guidelines developed by professional counseling organizations related to social justice, advocacy, and working with individuals with diverse cultural identities.</p> <p>EDCO 604 Individual Case Study: Candidate will identify client current life situation which includes experiences with barriers and resources for mental health services.</p>
B.9: strategies for identifying and eliminating barriers, prejudices, and processes of intentional and unintentional oppression and discrimination	X		SC	<p>EDCO 503 Cultural Immersion Impact assignment: Candidates will highlight advocacy efforts for this culture by highlighting researched strategies to support elimination of barriers, prejudices, and processes of intentional and unintentional oppression and discrimination.</p> <p>EDCO 604 Individual Case Study: Candidate will identify strategies to eliminate and/or decrease hardships related to client experiences with barriers to care.</p> <p>EDCO 604 Special Education Project: Candidates will sit in on a review of an IEP or 504 Plan and examine benefits to the student clients implemented.</p> <p>EDCO 604 Family Session: Candidate will complete and reflect on a family session where the interaction helps a student and a family member with communication, grades, or any other school related issue.</p>
B.10: guidelines developed by professional counseling organizations related to social	X			EDCO 503 Cultural Immersion Impact assignment: Candidates will apply guidelines

justice, advocacy, and working with individuals with diverse cultural identities				developed by professional counseling organizations related to social justice, advocacy, and working with individuals with diverse cultural identities.
B.11: the role of religion and spirituality in clients' and counselors' psychological functioning	X			EDCO 503 Culturally sensitive Biopsychosocials/Intakes assignment: Candidates will practice sessions will focus on accounting for the unique needs of the hypothetical case studies presented. Culturally sensitive skill practice will include application of the foundational skills to support successful completion of thorough biopsychosocial assessments intended to support counselor thorough understanding of their client and their unique experiences.

SSR 3.C Foundational Counseling Curriculum

LIFESPAN DEVELOPMENT

C. LIFESPAN DEVELOPMENT	EDCO 502 Lifespan Development	EDCO 510 Diagnostics of Psychopathology for Counselors	CMHC: EDMH 602- Introduction to Couples and Family Counseling	SC: EDCO 602- Elementary & Secondary School Counseling Strategies	Narrative
C.1: theories of individual and family development across the lifespan	X				EDCO 502 Quizzes will assess candidate understanding of developmental theories. EDCO 502 Trauma Research Paper will apply human development theory.
C.2: theories of cultural identity development	X				EDCO 502 Developmental Autobiography assignment: Part 3 of the assignment includes analysis of cultural implications.

C.3: theories of learning	X			SC	EDCO 502 Adaptive Learning Case Study assignment: Candidates will rationalize learning theory to support continued educational/professional goals for hypothetical client. EDCO 602 Taping Role-Plays and Transcript: Candidates examine learning to support personal growth as a counselor.
C.4: theories of personality and psychological development	X				EDCO 502 Group Development Project: Candidates will work in small groups and present the characteristics of an assigned developmental stage, the results of a literature review on a chosen topic relevant to the developmental stage, and a counseling psychoeducational activity/program to address the chosen topic.
C.5: theories and neurobiological etiology of addictions	X				EDCO 502 quiz assignments: After completing readings concerning addiction experience over the lifespan, candidates will complete a quiz to assess their comprehension of the content.
C.6: structures for affective relationships, bonds, couples, marriages, and families	X		CMHC		EDCO 502 quiz assignments: After completing readings concerning relational dynamics over the lifespan, candidates will complete a quiz to assess their comprehension of the content. EDMH 602 Genogram: Candidates will create a genogram. Relationships will be explored for triangles, coalitions, emotional cutoffs, and enmeshments. Boundaries (open and closed) and subsystems will also be explored and defined with symbols in the genogram.
C.7: models of resilience, optimal development, and wellness in individuals and families across the lifespan	X		CMHC		EDCO 502 Group Development Project: The presentation must include a model of

					<p>coping/resilience specific to the developmental stage.</p> <p>EDMH 602 Genogram: Candidates will explore implications of the client's Genogram for couples or family counseling and theories of individual and family development across the lifespan which would be relevant for application of counseling to support models of resilience, optimal development, and wellness in individuals and families across the lifespan.</p>
C.8: models of psychosocial adjustment and adaptation to illness and disability	X				EDCO 502 Adaptive Learning Case Study assignment: Address models of psychosocial adjustment for the hypothetical client candidate created. Rationalize a learning theory to support continued educational/professional goals.
C.9: the role of sexual development and sexuality related to overall wellness	X				EDCO 502 quiz assignments: After completing readings concerning sexual development over the lifespan, candidates will complete a quiz to assess their comprehension of the content.
C.10: biological, neurological, and physiological factors that affect lifespan development, functioning, behavior, resilience, and overall wellness	X				EDCO 502 Developmental Autobiography assignment: Choose a period of your own lifespan development (i.e., early childhood, middle childhood, adolescence, etc.) and address significant issues and life events that occurred within biopsychosocial and development. b. Utilizing one or a blend of developmental theories (Piaget/Vygotsky/Erikson etc.) presented in your reading (or not mentioned), the paper will present theoretical context specifically related to this period of personal development.

C.11: systemic, cultural, and environmental factors that affect lifespan development, functioning, behavior, resilience, and overall wellness	X	X			<p>EDCO 502 Adaptive Learning Case Study assignment: Address models of psychosocial adjustment for the hypothetical client candidate created. Candidate is responsible to include appropriateness for their cultural considerations. Rationalize a learning theory to support continued educational/professional goals.</p> <p>EDCO 510 Class Differential Diagnosis and Treatment Planning: Candidates are expected to actively engage in guided practice concerning the process of treatment planning protocol to support the desired outcomes of the presenting hypothetical cases with consideration of client uniqueness.</p> <p>EDCO 510 Online Discussion Posts: Require candidates to examine the whole client in rationalizing best practices.</p> <p>EDCO 510 Psychopharmacology Research Presentation: Requires candidates to critique medication appropriateness for client uniqueness.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper: Candidates will develop treatment objectives aligned to client's cultural and developmental considerations.</p>
C.12: the influence of mental and physical health conditions on coping, resilience, and overall wellness for individuals and families across the lifespan	X				<p>EDCO 502 Developmental Autobiography assignment: Choose a period of your own lifespan development (i.e., early childhood, middle childhood, adolescence, etc.) and address significant issues and life events that occurred within biopsychosocial and development.</p>

C.13: effects of crises, disasters, stress, grief, and trauma across the lifespan	X				EDCO 502 Trauma Research Paper assignment: This assignment will provide an opportunity to study Erikson's developmental stage theory and explore the potential impact of a trauma topic approved by the instructor on the psychosocial development at a specific stage of development (an age of your choosing). Candidates should complete an APA (7th ed) style paper on your choice of one of Erikson's Psychosocial developmental stages (Trust vs Mistrust, Autonomy vs Shame and Doubt, Initiative vs Guilt, Industry vs Inferiority, Identity vs Role Confusion, Intimacy vs Isolation, Generativity vs Stagnation, Integrity vs Despair) and the potential effects of a selected trauma topic on healthy development (e.g. death of a loved one, sexual abuse, natural disaster, loss of a loved one at an early age). An emphasis in this discussion should include discussion about how specific crisis events play a part in the traumatic event itself and how crisis/trauma triggers are associated with ongoing mental health issues throughout a person's life.

SSR 3.D Foundational Counseling Curriculum

CAREER DEVELOPMENT

D. CAREER DEVELOPMENT	EDCO 507 Career Development	CMHC: EDMH 606- Clinical Mental Health Counseling Internship II	SC: EDCO 604 School Counseling Internship I: Elementary	Narrative
------------------------------	--	---	--	-----------

D.1: theories and models of career development, counseling, and decision-making	X			EDCO 507 Career Theories Paper: Candidates will evaluate and analyze personal career development using the theoretical perspective of at least three major theorists discussed in class (ex. Holland, Super, Krumboltz, etc.).
D.2: approaches for conceptualizing the interrelationships among and between work, socioeconomic standing, wellness, disability, trauma, relationships, and other life roles and factors	X			EDCO 507 Career Infographic assignment: Candidates will consider a hypothetical client and their unique needs related to careers or work that may present as an issue in a counseling context. They will research the topic and create a tangible product (infographic, brochure, etc.) for your classmates to keep which includes counseling implications and recommendations.
D.3: processes for identifying and using career, avocational, educational, occupational, and labor market information resources, technology, and information systems				EDCO 507 Career Infographic assignment: Candidate will research the topic and create a tangible product (infographic, brochure, etc.) for your classmates to keep which includes resources to support their hypothetical client with careers or work that may present as an issue in a counseling context.
D.4: approaches for assessing the conditions of the work environment on clients' life experiences	X			EDCO 507 Final Project: Career and Culture Assignment: Candidates will include recommendations for additional assessment, evaluation, and research tools.
D.5: strategies for assessing abilities, interests, values, personality, and other factors that contribute to career development	X	CMHC		EDCO 507 Career Assessment Reflection: You Take One, Do One assignment: The candidate will familiarize themselves with taking

				and administering career assessments. EDMH 606 Cover Letter/Resume assignment: Candidates will implement strategies for assessing abilities, interests, values, personality, and other factors that contribute to career development.
D.6: career development program planning, organization, implementation, administration, and evaluation	X			EDCO 507 Final Project: Career and Culture Assignment: Candidates will develop a Career Action Plan, which identifies next steps, suggests client homework, and appropriate goals.
D.7: developmentally responsive strategies for empowering individuals to engage in culturally sustaining career and educational development and employment opportunities	X			EDCO 507 Final Project: Career and Culture Assignment: Candidates will examine hypothetical client multiple complexities and identities different from your own (age, developmental disabilities, acquired disabilities, religion, ethnicity, sexual orientation, socioeconomic status, indigenous group membership, national, and gender) and rationalize evidence-based practice.
D.8: strategies for advocating for employment support for individuals facing barriers in the workplace	X			EDCO 507 Career Infographic assignment: Candidates will identify advocate role when a client presents with career or work related issues.
D.9: strategies for facilitating client skill development for career, educational, and life-work planning and management	X		SC	EDCO 507 Final Project: Career and Culture Assignment: Candidates will apply Super, Krumboltz, and any other theories which might be relevant to the interviewee and give

				<p>evidence to support your suggestions.</p> <p>EDCO 604 Individual Case Study: Candidate will identify strategies to support student client success.</p> <p>EDCO 604 Special Education Project: Candidates will sit in on a review of an IEP or 504 Plan and examine benefits to the student clients implemented.</p> <p>EDCO 604 Family Session: Candidate will complete and reflect on a family session where the interaction helps a student and a family member with communication, grades, or any other school related issue.</p>
D.10: career and postsecondary training readiness and educational decision-making	X			EDCO 507 Final Project: Career and Culture Assignment: Candidates will discuss the interviewees education and/or work experience, mental health considerations, counseling experiences, recreational and leisure interests and activities, and strengths/obstacles related to work.
D.11: strategies for improving access to educational and occupational opportunities for people from marginalized groups	X		SC	EDCO 507 Quiz assignment: Candidates will assess their knowledge of securing educational and work-related opportunities with accounting for cultural implications.

				<p>EDCO 604 Individual Case Study: Candidate will identify strategies to eliminate and/or decrease hardships related to student client experiences with barriers to success.</p> <p>EDCO 604 Special Education Project: Candidates will sit in on a review of an IEP or 504 Plan and examine benefits to the student clients implemented.</p> <p>EDCO 604 Family Session: Candidate will complete and reflect on a family session where the interaction helps a student and a family member with communication, grades, or any other school related issue.</p>
D.12: ethical and legal issues relevant to career development and career counseling	X			<p>EDCO 507 Quizzes: Quizzes are intended to prepare candidates for success with navigating ethical and legal issues associated with educational and career counseling. Questions are intended to mimic credentialing exams (e.g. National Counselor Exam (NCE) and the National Clinical Mental Health Counselor Exam (NCMHCE) for clinical mental health counselors; Praxis and National Certified School Counselor [NCSC] for school counselors).</p>

SSR 3.E Foundational Counseling Curriculum

COUNSELING PRACTICE AND RELATIONSHIPS

E. COUNSELING PRACTICE AND RELATIONSHIPS	EDCO 501: Counseling Practice and Relationships	EDCO 504 Counseling Theories and Applications	EDCO 505 Assessment and Diagnostic Process	EDCO 506 Trauma-Informed Care and Crisis Intervention Counseling	EDCO 510 Diagnostics of Psychopathology for Counselors	CMHC: EDMH 601-Advanced Counseling Techniques and Strategies	SC: EDCO 602 Elementary & Secondary School Counseling Strategies	Narrative
E.1: theories and models of counseling, including relevance to clients from diverse cultural backgrounds		X	X		X	CMHC	SC	<p>EDCO 504 Counseling Theory Discussion assignment: Each Forum post must be comprised of specific theory related content to address the content/ concepts regarding the theory, view of human nature, and alignment with cultures.</p> <p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Candidate will substantiate theoretical fit with client.</p> <p>EDCO 510 Psychopathology Case</p>

								<p>Study and Diagnosis Paper assignment: Candidates will substantiate theoretical approach fit for uniqueness of client and diagnosis.</p> <p>EDMH 601and EDCO 602 Taping Role Plays and Transcript: Candidates are expected to demonstrate ability to understand client's problem integrating cultural, historical, developmental and contextual elements to design a counseling plan to work with the client, and articulate case from a theoretical perspective.</p> <p>EDMH 601 Theory of Change Discussion: Candidates will identify theoretical orientation alignment with view of human nature concerning the change process.</p>
E.2: critical thinking and reasoning strategies for clinical	X		X			CMHC	SC	EDCO 501 Foundational Counseling Skills

judgment in the counseling process								<p>Practice Assignment: During class sessions, candidates will be required to practice foundational counseling skills with hypothetical clients both in role play and in written form. For each counseling practice session role-play, candidates will have the opportunity to act in the role of counselor, client, and observer. After each session, candidates will be required to submit an example of the skill practiced that session in written format with a personal reflection of what went well, where they see an area of growth for themselves, and a plan to continue to develop this skill.</p> <p>EDC 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Candidates will substantiate</p>
------------------------------------	--	--	--	--	--	--	--	---

								<p>appropriate strategies for client.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will demonstrate ability to discern effectiveness and consider alternative modes to improve client's therapeutic progression.</p>
E.3: case conceptualization skills using a variety of models and approaches		X						<p>EDCO 504 Theory Skill Practice and Supervision assignment: During the course, candidates will participate in numerous practice sessions applying various theoretical skills.</p>
E.4: consultation models and strategies		X						<p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will have the opportunity to act in the role of counselor, client, and observer to support understanding of the theoretical process for numerous theoretical</p>

								orientations. The observer acts in the role as consultant for their peer counselor in the role play practice.
E.5: application of technology related to counseling	X	X				CMHC	SC	EDCO 501 Informed Consent and Technology assignment: Candidates will create their own informed consent document you can utilize for your fieldwork experience. They will record themselves having their first session with a hypothetical client in which they are verbally reviewing the informed consent with them. They will submit a 2-3-page reflection on this experience to include examination of the informed consent process, use of foundational skills in conducting the session and the experience of technology related to counseling.

								<p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will reflect on application of technology related to counseling (e.g., complete as a telehealth session, recorded with face-to-face session)</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will complete telehealth training to prepare counselors-in-training to provide virtual counseling experiences for their clients.</p>
E.6: ethical and legal issues relevant to establishing and maintaining counseling relationships across service delivery modalities	X					CMHC	SC	<p>EDCO 501 Foundational Counseling Skills Practice Assignment: Candidates will receive feedback throughout their practice and a formal mid-semester supervision session. Candidate will meet with their course instructor for</p>

								<p>supervision to discuss their progress and skill development regarding their work in your role of counselor.</p> <p>EDCO 501 Informed Consent and Technology assignment: Candidates will create their own informed consent document you can utilize for your fieldwork experience. They will record themselves having their first session with a hypothetical client in which they are verbally reviewing the informed consent with them. They will submit a 2-3-page reflection on this experience to include examination of the informed consent process, use of foundational skills in conducting the session and the experience of technology related to counseling.</p>
--	--	--	--	--	--	--	--	--

								EDMH 601 and EDCO 602: Telehealth training: Candidates will complete telehealth training to address the ethical and legal implications of virtual counseling.
E.7: culturally sustaining and responsive strategies for establishing and maintaining counseling relationships across service delivery modalities	X	X	X			CMHC	SC	EDCO 501 Foundational Skill Biopsychosocial and Progress Note assignment: Candidates are expected to address aspects of cultural identity often relevant to the counseling process (e.g., race, gender, age, class) and invite a discussion with the “client” regarding the impact of identity match or difference during counseling. This assignment's purpose is to formally practice broaching skills and identify areas of growth to become a multiculturally competent and responsive counselor.

								<p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will address how the model is culturally responsive in supporting client 's worldview of wellness.</p> <p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Candidates will substantiate approach fit for client.</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will complete telehealth training to align with desired counseling setting and account for diverse client capabilities and needs.</p> <p>EDMH 601and EDCO 602 Taping Role Plays and Transcript: Candidates will examine best practices</p>
--	--	--	--	--	--	--	--	---

								to support client therapeutic success with accounting for uniqueness of the client.
E.8: counselor characteristics, behaviors, and strategies that facilitate effective counseling relationships	X	X				CMHC	SC	EDCO 501 Foundational Skill Biopsychosocial and Progress Note assignment: Part 2 of the assignment has candidates analyze their recording to identify areas of strength and areas in need of growth. Candidates will identify a minimum of 10 foundational skills used throughout the intake session. Each skill will be examined for effectiveness with the client. If an alternative strategy would have been more effective, this will be identified, and rationale will be provided. Candidates are not expected to be experts during this experience but are required to reflect on the process to support counselor skill growth.

							<p>Candidates will also complete at least a two-page reflection of their experience with this hypothetical client: (a) counselor competence, (b) client-counselor match, (c) transference, and (d) countertransference.</p> <p>EDCO 504 Personal Counseling Theory Integration Paper assignment: Candidates will reflect upon the course content as well as your theory skill practice sessions and supervision experienced and substantiate their personal theoretical orientation with accounting for counselor role implications.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will participate in reflection of personal impact on</p>
--	--	--	--	--	--	--	---

								<p>client therapeutic progression.</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will examine their role within a telehealth counseling setting to support client therapeutic progression.</p>
<p>E.9: interviewing, attending, and listening skills in the counseling process</p>	X	X				CMHC	SC	<p>EDCO 501 Foundational Counseling Skills Practice assignment: During class sessions, candidates will be required to practice foundational counseling skills with hypothetical clients both in role play and in written form.</p> <p>EDCO 501 Foundational Skill Biopsychosocial and Progress Note assignment: Candidates will work with a partner to record yourself in the role of counselor conducting a hypothetical client</p>

								biopsychosocial/intake session EDCO 504 Theory Skill Practice and Supervision assignment: Using the thinking and terminology of the particular theory of therapy, candidates will discuss the major themes/patterns they noticed through the lens of this approach concerning counseling skill implementation. EDMH 601and EDCO 602 Taping Role Plays and Transcript: Candidates will assess role of and effectiveness with foundational skills for client therapeutic progression.
E.10: counseling strategies and techniques used to facilitate the client change process	X	X	X		X	CMHC	SC	EDCO 501 Clients Readiness to Change assignment: Candidates will create a hypothetical client case. and identify where the client is on the readiness to change continuum. Candidates

							<p>will complete a biopsychical for their hypothetical client. Considering the unique needs of the client, you will identify barriers and supports for the client to progress with change. Candidates will also explore their role in facilitating change for the client.</p> <p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will examine what interventions they tried and their outcomes.</p> <p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will explain how the theory identifies how people hurt and how people change.</p> <p>EDCO 505 Scholar-Practitioner Client</p>
--	--	--	--	--	--	--	---

								<p>Assessment, Diagnosis, and Treatment Plan Project: Identify how change will be measured.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Treatment interventions are provided with rationale.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will evidence best practices to support client therapeutic progression.</p>
E.11: strategies for adapting and accommodating the counseling process to client culture, context, abilities, and preferences		X	X		X	CMHC	SC	<p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will examine the effects of cultural influences observed to impact this session.</p> <p>EDCO 504 Counseling Theory Presentation</p>

								<p>and Skill Demonstration assignment: Candidates will address how the model is culturally responsive in supporting client 's worldview of wellness.</p> <p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Account for unique client considerations with empirical evidence for effectiveness.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates create and substantiate a treatment appropriate for unique client.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will substantiate alignment</p>
--	--	--	--	--	--	--	--	--

								<p>of approach for the client.</p> <p>EDCO 602 Classroom Guidance Activity and Lesson Plan: Candidates will rationalize the choice of topic with consideration of the student population.</p> <p>EDCO 602 School Counseling Program Presentation: Candidates will analyze program's alignment/appropriateness for the school's needs (i.e., strengths, weaknesses, cultural relevance, ethical, and legal implications, feasibility of delivery to be considered.)</p>
E.12: goal consensus and collaborative decision-making in the counseling process		X	X		X	CMHC	SC	<p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will identify key interventions for the theory and their intended purpose.</p>

								<p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Examine client role in treatment planning process.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates will match the treatment objectives to the client's desired outcomes.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will examine client role in treatment planning.</p>
<p>E.13: developmentally relevant and culturally sustaining counseling treatment or intervention plans</p>			X		x			<p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Develop treatment plan goals supportive of client success.</p>

								<p>EDCO 510 Class Differential Diagnosis and Treatment Planning: Candidates will experience guided practice concerning the process of differential diagnosis while considering the uniqueness of each client to substantiate best practice with treatment.</p> <p>EDCO 510 Psychopharmacology Research Presentation assignment: Candidates will examine developmental and culturally appropriate medication management within the treatment plan.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates rationalize intervention effectiveness for specific client considerations.</p>
--	--	--	--	--	--	--	--	--

E.14: development of measurable outcomes for clients			X				SC	<p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: develop SMART goals within the treatment plan.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates develop measurable treatment goals for the client.</p> <p>EDCO 602 Classroom Guidance Activity and Lesson Plan: Candidates will develop student outcomes related to their topic accounting for student capability for the activity.</p>
E.15: evidence-based counseling strategies and techniques for prevention and intervention		X	X		X			<p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will explain how the theory was created and with what purpose. Examination of how</p>

								<p>the interventions support the purpose occurs.</p> <p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: substantiate the effectiveness with the prevalence of the population.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidate explains appropriate application of psychodynamic techniques and practices for the diagnosis presented, and supports this explanation with evidence from scholarly literature.</p> <p>EDMH 601 Taping Role Plays and Transcript: Candidates will provide rationale</p>
--	--	--	--	--	--	--	--	---

								for approach with the client supporting therapeutic success.
E.16: record-keeping and documentation skills	X					CMHC	SC	<p>EDCO 501 Clients Readiness to Change assignment- Part 4: Based on the intake, candidates will create a progress note (e.g., SOAP, DAP, BIP, BIRP) to document their session with their hypothetical client session.</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will examine implications related to documentation for telehealth.</p>
E.17: principles and strategies of caseload management and the referral process to promote independence, optimal wellness, empowerment, and engagement with community resources	X							EDCO 501 Clients Readiness to Change assignment- Part 4: Candidates will be expected to identify a minimum of one possible referral and provide rationale for supporting client empowerment and wellness.
E.18: classification, effects, and indications of commonly					X			EDCO 510 Psychopharmacology Research Presentation

prescribed psychopharmacological medications								<p>assignment: Candidates will examine medication management options to treat diagnosis with consideration of strengths and weaknesses.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates will examine <u>commonly prescribed psychopharmacological medication supportive of treatment goals if needed/desired (e.g. classification, effects, purpose).</u></p>
E.19: suicide prevention and response models and strategies				X				<p>EDCO 506Crisis/Trauma Counseling Practice, Supervision, and Reflection: Candidates will complete real-time practice of hypothetical clients presenting with trauma and/or in crisis. Candidates will learn to differentiate the symptomology and select appropriate</p>

							<p>assessments to discern the symptomology experienced by clients. Formal and informal assessments will be administered (e.g. non-suicidal injury, SLAP). Ethical and legal implications will be examined concerning the case. Scopes of practice will be explored (e.g. CMHC/SC) along with continuum of care implications (e.g. referrals, follow-up, after-care) for school and community settings.</p> <p>EDCO 506 Suicide Training: Candidates will complete Suicide Training and reflect on the content for application in their desired counseling role.</p> <p>EDCO 506 Mental Health Crisis/Trauma Responder Interview: Candidates will conduct an interview with a mental health</p>
--	--	--	--	--	--	--	--

								provider who works with clients who have experienced trauma. Candidates will seek understanding of the approach and its effectiveness with the interviewee uses with their clients.
E.20: crisis intervention, trauma-informed, community-based, and disaster mental health strategies				X				<p>EDCO 506 Crisis/Trauma Counseling Practice, Supervision, and Reflection: Students will gain experience transitioning from traditional counseling sessions to assessment mode for supporting client stabilization with hypothetical clients.</p> <p>EDCO 506 Mental Health Crisis/Trauma Responder Interview: Candidates will conduct an interview with a mental health provider who works with clients who have experienced trauma. Candidates will seek understanding of the rationale concerning</p>

								the strategies' used at the site.
E.21: processes for developing a personal model of counseling grounded in theory and research		X				CMHC		<p>EDCO 504 Personal Counseling Theory Integration Paper: This paper should be comprehensive and address the candidate's</p> <ol style="list-style-type: none"> 1) philosophy of humanity and how individuals and/or systems change, 2) theory(ies) of counseling, 3) goals as a counselor, 4) techniques to facilitate obtaining goals and corresponding theoretical justification, 5) a philosophy for counseling diverse clients, 6) personal and professional qualities that may add to or detract from one's effectiveness as a counselor, and 7) plans for future growth. <p>EDMH 601 Theory of Change Discussion: Candidates will how their view of human</p>

								nature impacts their theoretical orientation .

RESEARCH AND PROGRAM EVALUATION

H. RESEARCH AND PROGRAM EVALUATION	EDCO 509 Research and Program Evaluation	EDMH 606- Clinical Mental Health Counseling Internship II	EDCO 605 School Counseling Internship II: Secondary	Narrative
H.1: the importance of research in advancing the counseling profession, including the use of research to inform counseling practice	X			<p>EDCO 509 Research Project: Candidates will present research relevant to the counseling profession to support best practices.</p> <p>EDCO 509 Journal article critique: Critiques will address the relevance of research to the counseling profession.</p>
H.2: identification and evaluation of the evidence base for counseling theories, interventions, and practices	X		SC	EDCO 509 Journal article critique: Critiques will address the relevance and applicability of this article to inform counseling practice.

				<p>EDCO 509 Evidence-Based Topic Literature Review: Candidates will complete a literature review examining an original topic of interest in counseling.</p> <p>EDCO 606 Individual Case Study Presentation: Candidates will evaluate effective approaches that align with the uniqueness of their clients and their symptomology for analysis of fit with their client.</p>
H.3: qualitative, quantitative, and mixed methods research designs	X			<p>EDCO 509 Research Project: Candidates will introduce research purpose, questions, and design are mutually supportive and coherent.</p> <p>EDCO 509 Journal article critique: Critiques will address methodology used in research to inform outcomes.</p>
H.4: practice-based and action research methods	X			<p>EDCO 509 Research Project: Candidates will present procedures that generate valid and reliable data to support counseling advancement.</p> <p>EDCO 509 Journal article critique: Critiques will address outcomes of the research to support the profession.</p>
H.5: statistical tests used in conducting research and program evaluation	X			<p>EDCO 509 Research Project: Candidates will substantiate appropriate data collection measures.</p> <p>EDCO 509 Journal article critique: Critiques will address how the research was conducted.</p>
H.6: analysis and use of data in research	X	CMHC		<p>EDCO 509 Research Project: Candidates will substantiate appropriate data analysis procedures.</p> <p>EDCO 509 Journal article critique: Critiques will address the data collected and the purpose of analysis.</p> <p>EDMH 606 Case Conceptualization Presentation and Session Analysis: Candidates will complete research to rationalize best practices with their unique clients</p>

				and their symptomology to support development of an evidence-based treatment plan.
H.7: use of research methods and procedures to evaluate counseling interventions	X	CMHC	SC	<p>EDCO 509 Research Project: Candidates will substantiate methodology to assess research interventions.</p> <p>EDCO 509 Journal article critique: Critiques will address how the results implicate counseling best practices.</p> <p>EDMH 606 Case Conceptualization Presentation and Session Analysis: Candidates will complete research to evaluate appropriate interventions to support client success with goal attainment.</p> <p>EDCO 605 Individual Case Study Presentation: Candidates will complete research to evaluate appropriate interventions to support student client success with goal attainment.</p>
H.8: program evaluation designs and procedures, including needs assessments, formative assessments, and summative assessments to inform decision-making and advocacy	X			EDCO 509 Research Project: Candidates will examine how results will impact future considerations in the counseling field.
H.9: culturally sustaining and developmentally relevant outcome measures for counseling services	X			EDCO 509 Research Project: Candidates will analyze cultural implications of results.
H.10: ethical and legal considerations relevant to conducting, interpreting, and reporting the results of research and program evaluation	X			EDCO 509 Research Project: Candidate asks a question about a specific situation or problem/topic requiring analyzation, synthesize, and/or evaluation accounting for ethical and legal parameters.

				EDCO 509 CITI Training: Candidates will complete the online CITI training for research with human subjects. This training provides ethical training for researchers conducting, or planning to conduct, biomedical or social-behavioral-educational human subjects research.
H.11: culturally sustaining and developmentally responsive strategies for conducting, interpreting, and reporting the results of research and program evaluation	X			EDCO 509 Research Project: Candidates will present research Information In an organized, clear, and logical way supportive of audience understanding.

B5. Planned use of assessment results to improve candidate and program performance.

The Counselor Education program will analyze data each semester to assess student performance and needed changes for coursework. Data from the Praxis II exam and key assessments allow faculty to identify areas of content strength and weakness in candidates' speaking and content knowledge; this information allows faculty to determine which areas to focus on in the methods course and to watch while observing candidates during their teaching.

Additionally, the data will provide the faculty with opportunities to review candidates' performance as it relates to pedagogical practices, delivery of counseling services, planning, and content knowledge. Because many of these assessments occur in the semester prior to internship or during internship, they allow faculty to assess candidates' development as professionals and their readiness to enter the classroom. If a candidate is not performing at the expected levels on these key assessments, faculty can intervene and work with them to provide additional support, so they may improve their practices. Additionally, examining the data enables faculty to identify areas of strength and weakness across each program, so that they can adjust their instruction to better meet candidate needs. Assignments such as the Assessment Project ensure that candidates understand diagnostic and screening tools used in counseling education, how to interpret data, and ways to use the data to make decisions for students and their families.

By tracking the data over time, the faculty can look at trends in data and to disaggregate data not only by content area of focus, but also by candidate demographics. Looking at these data allows faculty to assess their own practices and ensure they are using equal scoring approaches across diverse student populations. Analyzing subgroup data and engaging in yearly training to reflect on their own practices, enables opportunities to ensure that faculty are scoring work appropriately for all candidates.

Dr. David A. DeCenzo
President
Coastal Carolina University
642 Century Circle
Conway, SC 29526

Dear Dr. DeCenzo:

The Accreditation Council of the Council for the Accreditation of Educator Preparation (CAEP) met on April 27, 2020, and I am pleased to inform you that the following accreditation status has been granted:

The William L. Spadoni College of Education at Coastal Carolina University is granted **Accreditation** at the initial-licensure level and advanced-level as described in the Accreditation Action Report.

Included with this letter are two subsequent documents:

- 1) The Accreditation Action Report provides details of the accreditation status.
- 2) Information for EPPs Granted Accreditation provides further information on the Council's decision process and provider responsibilities during the accreditation term.

Congratulations on your accreditation achievement. I appreciate your commitment to excellence in educator preparation accreditation.

Sincerely yours,

A handwritten signature in black ink that reads "Christopher A. Koch". The signature is written in a cursive, slightly stylized font.

Christopher A. Koch, Ed.D.
President

Enclosures: Accreditation Action Report, Certificate of Accreditation (mailed to provider leadership), and Information on CAEP Accreditation

Key Assessments 1-15

1. EDCO 500 Professional Counseling Orientation and Ethical Practice (3 credits)

Ethical Dilemmas and Counselor Welfare (30%)***Key Assessment***

CACREP (2024) III. A.1--8,10-12

CMHC: CACREP (2024) V. C. 2-3,6-8

SC: CACREP (2024) V. H. 3,6,10

SCTS 4.0 (School Counselors): Professionalism.1-2;5

NBPTS (School Counselors): II, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

For this assignment, candidates will select one ethical dilemma from a list provided to you from your instructor and select one ethical decision-making model to resolve the ethical dilemma. Be sure to clearly identify and describe the model used. The assignment will be divided into three parts.

Part 1: Candidates will identify the ethical dilemma and the model being applied. Reasoning for the appropriateness of the model for the dilemma will be supported with scholarly resources.

Part 2: Discuss what actions you would take in the role of counselor-in-training under supervision as you proceed through the steps of your selected model. Be sure to provide an adequate response to each step and include outside references in determining/identifying the issues. Describe what ethical and/or legal issues are apparent, which ethical codes may be in violation, and what you might do given that scenario. Be sure to use state law and ethical codes to guide your efforts in resolving the ethical dilemma. Remember you are not treatment planning for the client but making decisions based on what you, as the counselor-in-training, know at this point.

Part 3: The counselor role can be challenging at times. It is important to be able to process to avoid experiences with compassion fatigue, burnout, and vicarious trauma. Counselors are responsible for addressing any impairments which can negatively impact client welfare (ACA, 2014, C.2.g.). Based on the case you selected, address two personal values/opinions needed to be considered to support best practices with and for the client in the case explored? Explain two strategies you can use to prevent influencing your work with the client. Explore how professional counseling organizations and credentialing processes can support efforts. Lastly, to promote your longevity in the field, identify a S.M.A.R.T. self-care goal for yourself to combat burnout, compassion fatigue, and vicarious trauma.

Paper requirements: This must be written using APA 7th edition formatting and be 5-6 pages in length, not including references and title page.

NBPTS (School Counselors): XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

This assignment consists of four parts. The first part will require a partner and the second and third parts are independent work.

Part 1: Candidates will work with a partner to record yourself in the role of counselor conducting a hypothetical client biopsychosocial/intake session. Your partner will act in the role of hypothetical client. Candidates are expected to address aspects of cultural identity often relevant to the counseling process (e.g., race, gender, age, class) and invite a discussion with the "client" regarding the impact of identity match or difference during counseling. This assignment's purpose is to formally practice broaching skills and identify areas of growth to become a multiculturally competent and responsive counselor.

Part 2: Candidates will analyze their recording to identify areas of strength and areas in need of growth. Candidates will identify a minimum of 10 foundational skills used throughout the intake session. Each skill will be examined for effectiveness with the client. If an alternative strategy would have been more effective, this will be identified, and rationale will be provided. Candidates are not expected to be experts during this experience but are required to reflect on the process to support counselor skill growth. Candidates will also complete at least a two-page reflection of their experience with this hypothetical client: (a) counselor competence, (b) client-counselor match, (c) transference, and (d) countertransference. Candidates will examine the importance of broaching the topic of culture during counseling and identify their personal areas of strength and areas in need of growth for broaching culture with clients.

Part 3: Candidate will meet with their course instructor for supervision to discuss their progress and skill development regarding their work in your role as counselor (not about their role as a client). The supervision session will last approximately 15 minutes. You will bring 2 with you to the supervision session.

Part 4: Based on the intake, you will create a progress note (e.g., SOAP, DAP, BIP, BIRP) to document their session with their hypothetical client session. Candidates will be expected to identify a minimum of one possible referral and provide rationale for supporting client empowerment and wellness.

3. EDCO 502 Lifespan Development (3 credits)

Trauma Research Paper **(25%)

CACREP (2024) III.A.2-3,8,10; C. 1-13; E.19-20; G13-14

CACREP (2024) V.C.1-2,4,8

CACREP (2024) V.H.9,11-12,15-16,19

SCTS 4.0 (School Counselors): Direct Services.1-2; Professionalism.3

NBPTS (School Counselors): III, IV, IX

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Current researchers of human development are learning that trauma plays a much more significant role than thought previously in terms of healthy identity development and coping skills. In fact, much of the DSM-5-TR includes considerations about the link between traumatic experiences and the development of psychological disorders, symptoms, and associated life issues (e.g., relationships, learning). This assignment will provide an opportunity to study Erikson's developmental stage theory and explore the potential impact of a trauma topic approved by the instructor on the psychosocial development at a specific stage of development (an age of your choosing). Candidates should complete an APA (7th ed) style paper on your choice of one of Erikson's Psychosocial developmental stages (Trust vs Mistrust, Autonomy vs Shame and Doubt, Initiative vs Guilt, Industry vs Inferiority, Identity vs Role Confusion, Intimacy vs Isolation, Generativity vs Stagnation, Integrity vs Despair) and the potential effects of a selected trauma topic on healthy development (e.g., death of a loved one, sexual abuse, natural disaster, loss of a loved one at an early age). An emphasis in this discussion should include discussion about how specific crisis events play a part in the traumatic event itself and how crisis/trauma triggers are associated with ongoing mental health issues throughout a person's life. Candidates must study Erikson's theory in at least 3 (three) scholarly resources (including the course text) and do extensive research on their chosen topic of a traumatic experience in at least 3 (three) scholarly sources. Discussion about the impact of said trauma on the development of someone in the chosen stage of development will be written from the candidate's ideas and beliefs as a result of a thorough review of professional literature. Note: this is not an assignment for personal disclosure about candidate's individual experiences. The chosen topic of a traumatic experience should be based on candidates' future work with clients/students.

Summary of Aspects to be Addressed:

- a. Erikson's stage of choice
- b. Traumatic event
- c. Crises involved during the event and crisis triggers during lifelong mental health challenges
- d. Impact of trauma on development
- e. Counselor role
- f. Summary

SCTS 4.0 (School Counselors): Professionalism.2

NBPTS (School Counselors): V, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Each candidate will complete one cultural immersion exercise where you will immerse and engage with the population of your choice and write an impact paper about the experience and present to your class concerning your reflections with special focus on educating best-practices for this culture.

Part 1: Complete one cultural immersion exercise.

Part 2: Your final paper must be 6 double-spaced pages. For this assignment, you are asked to purposely put yourself in a situation to encounter self-reflection. We will discuss more in class about how to find an event to attend, and what makes a good event for this assignment. A suggested list of potential events will be provided. After you complete your immersion exercise, please summarize your insights by addressing the following in your paper:

- a. What event did you attend and what subcultural group did you choose to focus on?
- b. What happened at the event (in detail)? Were you an observer, an information seeker, a participant?
- c. Using journaling techniques, reflect on the situation. Talk about how your thinking was challenged. Describe any transformations that took place because of the experience. Specifically, in what areas did you critically reflect?
- d. Describe how the values and beliefs that comprise this situation are different than yours. Which of those preconceived ideas are now open to re-interpretation and why?
- e. How is your thinking impacted? How did you critically reflect on the ideologies?
- f. Revisit your worldview. Where do the values and beliefs align/differ from yours? What have you learned about yourself and this subgroup now that the immersion is over?

Part 3: Candidates will conduct a 10–15-minute class presentation about their immersion experience and summarize what they have learned from the experience. Candidates will identify historical and/or current issues impacting culture stereotypes and the effects of stereotypes. Candidates will apply a multicultural theory to highlight counselor cultural competence for this culture. Candidates will highlight advocacy efforts for this culture by highlighting researched strategies to support elimination of barriers, prejudices, and processes of intentional and unintentional oppression and discrimination. Apply guidelines developed by professional counseling organizations related to social justice, advocacy, and working with individuals with diverse cultural identities.

**To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.*

Candidates will receive a partner to present a theory to the class, through Power Point or other multimedia (30-40 minutes). The presentation must include the following:

- a. Who founded/created it? Where was it created?
- b. What need did it fill? (Why was it created/differ/expanded on from other theories?)
- c. When did it come about and what was going on in the world?
- d. What are the Key concepts / Key words
- e. How does the theory explain why people hurt and how people change?
- f. Review key interventions for the theory and their intended purpose
- g. Address how the model is culturally responsive in supporting client 's worldview of wellness
- h. Five-minute demonstration of theoretical counseling skills with a hypothetical client (partner 1: counselor; partner 2: hypothetical client; must introduce the hypothetical client identifying information and purpose for seeking counseling)
- i. An interactive activity/ quiz/ discussion points/ reflection questions
- j. Attach a handout or cheat sheet summarizing main points about theory (1-2 pages)

6. EDCO 505 Assessment and Diagnosis Process (3 credits)

Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project (60%)**

CACREP (2024) III.A.11; E.1-2,7,10-15; G.1-17

CACREP (2024) V.C.1,4-5

CACREP (2024) V.H.11-19

SCTS 4.0 (School Counselors): Direct and Indirect Services.1-2; Professionalism.2-3NBPTS (School Counselors): II-IV, IX, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

This assignment requires five parts with three separate due dates: (1) selecting and reviewing a movie (see Appendix A), (2) complete an assessment of the character chosen from the movie, (3) establish client diagnosis(es), (4) create a treatment plan for the client, (5) personal reflection for completing the project.

Part 1: Movie (0%)- Due XX/XX/XX

CACREP (2024) III. G.16

Candidates will select a character from a movie (see Appendix A) to serve as the basis for a comprehensive case study. Select and review movie by due date to support time management for remainder of project components.

Part 2: Assessment (40%)- Due XX/XX/XX

CACREP (2024) III.G.2-10

Candidates will use what they know of this character to construct:

- Presenting problem
- Biopsychosocial history
- Mental status report
- Select assessment to support understanding of client symptomology for support of diagnosis and determining an evidence-based treatment plan. Each candidate will choose a test and conduct a review of the literature critical analysis to determine the test's psychometric properties, strengths, and weaknesses. The strengths and weaknesses sections must be a minimum of three combined pages of text. Appropriateness for the population you desire to serve must be examined. A sample review will be provided. The purpose of this project is to focus and integrate the concepts covered in class. The grade for this project will reflect the comprehensiveness of the review, application, and integration of information and clarity of professional writing style. Citations and references must adhere to APA style. Your assignment must include a references section. An outline of essential information to be included and a sample review is included below.

TEST REVIEW PROJECT OUTLINE

- Title, acronym, author(s), publication date, publisher, price, computer scoring software available:

GENERAL INFORMATION

- Primary constructs assessed, test purpose, administration type, population/range, time required to administer, score, and interpret,

interpretive scores derived, subtest (subscale) format, item/scoring format, and qualifications of examiners

GENERAL ADMINISTRATION AND SCORING PROCEDURES NORMATIVE INFORMATION

- Type of norms, age/grade of participants, sex of participants, dates of standardization, number of participants in sample, sample characteristics, geographic composition, racial composition, socioeconomic composition, availability of subgroup norms:

RELIABILITY

- Internal consistency, test-retest, alternate-form, scorer reliability

VALIDITY

- Content validity, criterion-related validity, construct validity

GENERAL EVALUATION

- Ethical and multicultural considerations, special merits and strengths of the test, criticisms and limitations of the test, personal recommendation – do you think you would use this test in your future work? Why or why not?

REFERENCES

Part 3: Differential Diagnosis (20%)- Due XX/XX/XX

CACREP (2024) III.G.11-12

You will present the diagnostic criteria for your client in written form; should be 4 to 6 pages in length, APA Style, and uses scholarly sources to substantiate the differential diagnosis. Please refer to DSM-5 for specific guidelines. Provide the criteria used to reach your diagnosis, including descriptions of the simulated client's signs and symptoms to support your clinical decision. Discussion of differential diagnosis is needed; please refer to DSM-5 for a list of alternative diagnosis. Discuss and provide evidence that eliminates all the alternative diagnosis for this disorder presented in the DSM-5 manual. All data included in the report must be written using professional language, based on evidence provided in the media source, and supported with a sound clinical rationale. Candidates are encouraged to consider and document multiple sources of information (e.g., client report, collateral report, observation). When information is not available, the candidate should indicate that additional information is needed and propose methods for gathering such information. Evidence of differential diagnosis should be provided.

Part 4: Treatment Plan (30%)- Due XX/XX/XX

CACREP (2024) III.E.1-2,7,10-15; G.7,17

You will develop a evidence-based treatment plan for your client and provide

Justification. The treatment plan will include the development of 1 Problem, S.M.A.R.T. Goal, Objective, and Intervention sequence. You will complete a two-three page APA formatted paper supporting how your treatment plan is evidence-based,

culturally competent, and in accordance with professional ethics and state law. This section is an opportunity for you to offer challenges to the diagnosis you proposed in part 3. I am interested in any alternative explanations of the client's symptoms, especially those that do not fit in the medical model/DSM philosophy. The following are questions that may get you started and guide you in this section.

- What is your client's assessment of the presenting concerns? Does he/she believe he/she has a "mental disorder?"
- In what ways does your client differ from the DSM criteria? For example, what are some behaviors that contradict the diagnosis you selected?
- How might the client's gender/cultural background/sexual orientation affect his or her diagnosis and treatment plan?
- What historical-social-political-cultural-familial-religious issues do you need to consider before applying this diagnosis and developing the treatment plan? Are there any alternative explanations for the client's behavior, taking into account these contextual factors?

Candidates should support rationale for treatment plan choices by incorporating data from at least six scholarly sources (e.g., DSM-5, treatment manual, journal article).

Part 5: Reflection (10%)- Due XX/XX/XX

CACREP (2024) III.A.11; G.1

The final portion of the project will require you to reflect on the project experience to support awareness for avoiding imposing personal values, opinions, and beliefs on your work with your client and promote professional identity development. Apply historical perspectives concerning the nature and meaning of assessment and testing in counseling and what this means for you in your role today and moving forward. This paper should be submitted in first person and 2-3 pages in length.

7. EDCO 507 Career Development

Final Project: Career and Culture Assignment (30%)**

CACREP (2024) III. A.11; D.1-12

CMHC: CACREP (2024) V.C.1,4

SC: CACREP (2024) V.H.11,15-19

SCTS 4.0 (School Counselors): Direct and Indirect Services.1-2; Professionalism.1-3

NBPTS (School Counselors): II-V, VIII-IX, XI

**To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.*

For this final project, you will assist in career development for an individual. First, select a client:

- CMHC candidates will select an individual who is between the ages of 18-30, who has recently experienced a career change.
- SC candidates will select an individual who is between 8-18, who is seeking support in making a choice with taking a hobby/interest/co-curricular experience more serious and considering as a probable future career path.

Guardian permission is assumed in this case.

The individual selected must have multiple complexities and identities different from your own (age, developmental disabilities, acquired disabilities, religion, ethnicity, sexual orientation, socioeconomic status, indigenous group membership, national, and gender). DO NOT use a family member, close friend, or someone with whom you have a dual relationship with. You will write a 6-8 page paper including the following topics:

- Discuss the interviewees education and/or work experience, mental health considerations, counseling experiences, recreational and leisure interests and activities, and strengths/obstacles related to work.
- Identify the gender, cultural, ethical considerations, and personal issues that might impact the interviewee in his/her career.
- Theorize your interviewee's Holland Code or MBTI preference and give evidence to support to your theory.
- Apply Super, Krumboltz, and any other theories which might be relevant to the interviewee and give evidence to support your suggestions.
- Develop a Career Action Plan, which identifies next steps, suggests client homework, and appropriate goals. Include your recommendations for additional assessment, evaluation, and research tools.
- Critique the interview process, including a self-evaluation of your comfort with the process. What worked? What did not? What would you change?

8. EDCO 508 Group Counseling and Group Work

Group Proposal (30%)**

CACREP (2024) III. F.1-9

CMHC: CACREP (2024) V.A.11; C.2; F.10

SC: CACREP (2024) V.H.5,12-13,15

SCTS 4.0 (School Counselors): Program Planning.1-3; Program Management 1-2; Direct and Indirect Services.1-2; Professionalism1-4

NBPTS (School Counselors): III-IV, IX-XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Candidates will write a proposal for a psychoeducational/counseling group with a specific population (e.g., young boys/parental divorce, adolescent girls/bullying, college students/test anxiety, older adults/retirement planning). This proposal should be written in APA format and the body of the paper must be five to six (5-6) pages in length (This does not include title page, abstract, resources, references). Group proposals must be approved by the instructor prior to initiating group practicum. In addition, your proposal should include the following sections.

1. Title Page
2. Abstract
3. Type of Group (e.g., psychoeducational, open/closed)
4. Population
5. Modality (e.g., in-personal, virtual/telehealth)
6. Pre-Group Activities (needs assessment, site approval, recruiting, screening, consent, ethical and legal implications)
7. Rationale, Goals, and Objectives
8. Theoretical Orientation and Developmental Theory; include exploration of role of the group leader/facilitator
9. Rights and Expectations of Group Members
10. Basic Ground Rules
11. Unit Outline and Topics for Six [6] Group Sessions
12. Evaluation and Follow-Up
13. Counselor Development for this Proposal
13. References and Resources

The sampling strategy was inappropriate for the research questions	The description of the context, population, or sampling strategy was confusing, lacked relevance to the purpose, was incomplete, or failed to identify specific quantitative or qualitative details.	The context, population, and sampling strategy was adequately identified and described. The size of the population, sample, and comparison groups was identified.	The description of the context and population was meaningful, including both quantitative and qualitative description. The sampling process was reasonable to recruit a representative sample of the population. Attention was given to controlling for extraneous factors and sampling error.	

10. EDCO 510 Diagnoses of Psychopathology for Counselors

Psychopathology Case Study and Diagnosis Paper **(20%)

CACREP (2024) III. C.11; E.1,10-15,18; G.5-9,11-12,16

CMHC: CACREP (2024) V. C.1,4-5

SC: CACREP (2024) V. H. 11-15

SCTS 4.0 (School Counselors): Direct and Indirect Services. 1-2; Professionalism.1,3,5

NBPTS (School Counselors): II-VIII, IX, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Psychopathology refers to the study of mental disorders in terms of their causes, development, course, classification, and treatment for maladaptive personality traits. Each candidate will select from one of the presented case studies. The candidate will then prepare a diagnostic summary and treatment plan. The paper will be 5-6 pages, following APA style. At least three peer-reviewed sources, from the last 5 years, must be included. The paper must include the following:

- a. Identify one diagnosis you find interesting, want to know more about, or hope to work with future clients with.
- b. Include a summary of the diagnosis, in depth, with one theoretical view of the etiology and treatment
- c. Assessment techniques used to reach diagnostic conclusion appropriate for desired future counseling population (consider ethical and legal implications)
- d. Treatment objectives with a treatment plan (with cultural and developmental considerations given).
- e. Interventions supported with rationale
- f. Examination of one commonly prescribed psychopharmacological medication supportive of treatment goals if needed/desired (e.g. classification, effects, purpose)
- g. Prognosis

11. EDCO 602 Elementary & Secondary School Counseling Strategies (3 credits)

School Counseling Program Presentation* (20%)

CACREP (2024) III.A.2-4, 9; D.10-11; H.2,7-8; E.11

CACREP (2024) V.H.2, 4-6,15,19

SCTS 4.0 (School Counselors): Planning. 1-3; Program Management.1-2; Direct and Indirect Services. 1-2; Professionalism. 1-5

NBPTS (School Counselors): I-III, V-VI, IX

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Working in groups (minimum of 2 and maximum of 3), candidates are to design a presentation reviewing a curriculum program used in schools. Examples include: Green Dot, Kelsoe's Choice, Reconnecting Youth, Second Step, Speak Up Be Safe, Steps to Respect, Too Good for Drugs, Signs of Suicide, etc. The audience should be presented with an overview of the program including aspects such as: the name, year developed, topic, population/grade level, number of lessons, cultural relevance, feasibility of delivery, affordability, training requirements, role of the counselor and understanding of employability, evidence of effectiveness, etc. The length of the presentation should be 30 to 45 minutes – use of visuals and class involvement is highly recommended. Groups must email a complete presentation (use a visual modality such as PowerPoint or Prezi) to the instructor at least 24-hours in advance to ensure materials are received and can be used appropriately. Groups will be graded for the most part as a whole group, but 5 points are specific to each individual's ability to professionally present within the group.

Partially examines lessons attention to students' developmental, diversity/advocacy and inclusion (of special education students) with supportive scholarly literature. Submit three (3) classroom guidance lessons by the due date.	Candidate spells out at least four (4) areas of the following: counselor and school name, lesson topic, lesson title, grade level, and format of presentation. Examines lessons attention to students' developmental, diversity/advocacy and inclusion (of special education students) with supportive scholarly literature. Submit all Four (4) classroom guidance lessons by the due date.	Candidate clearly provides responses for all of the six (6) areas: counselor and school name, lesson topic, lesson title, grade level, and format of presentation. Comprehensively examines lessons attention to students' developmental, diversity/advocacy and inclusion (of special education students) with supportive scholarly literature. Submit all Four (4) comprehensive classroom guidance lessons by the due date.

14. School Counseling Fieldwork
EDCO 604 School Counseling Internship I: Elementary
EDCO 605 School Counseling Internship II: Secondary

Included in EDCO 603 School Counseling Practicum. Must have an 80% or higher in field experience courses to progress to the next stage, however, only a key assessment during the internship phases, Internship I and Internship II.

Summative Evaluation (40%)**

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 1-19

SCTS 4.0 (School Counselors): Planning. 1-3; Program Management.1-2; Direct and Indirect Services.1-2; Professionalism.1-5

NBPTS (School Counselors): I- XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

(a) South Carolina DOE Summative School Counseling Evaluation (20%)

South Carolina requires a summative evaluation of school counseling candidates to be completed.

Please see: <https://ed.sc.gov/educators/educator-effectiveness/adept-for-special-areas-2020/rubric-for-school-counselors/>

(b) Faculty Supervisor Evaluation Addendum (10%)

During each semester of your fieldwork experience, you will be evaluated by your faculty supervisor regarding your preparedness for endorsement as graduate degree level clinical mental health counselor. Your professionalism, competence, and skills as a professional counselor will be assessed (e.g., cultural competence, self-awareness, clinical skill effectiveness).

SEE APPENDIX A

(c) Site Supervisor Evaluation Addendum (10%)

During each semester of your fieldwork experience, you will be evaluated by your site supervisor regarding your preparedness to join your supervisor as a colleague in the counseling field as a clinical mental health counselor. Your professionalism, competence, and skills as a professional counselor will be assessed (e.g., cultural competence, self-awareness, clinical skill effectiveness) in relation to your work with clients at their site under their supervision.

SEE APPENDIX B

APPENDIX A
FACULTY SUPERVISOR EVALUATION OF CANDIDATE FORM
(School Counseling)

General Information:

- The primary supervisor completes this form both at midterm and at the end-of-the semester internship experience. If the candidate has more than one supervisor at the same site, the supervisor with the most contact with the candidate should complete the evaluation after consulting with the other supervisors. If the candidate has a supervisor at two or more different sites, each site supervisor will need to complete and the scores will be averaged.
- This completed form is submitted by the site supervisor to Handshake for the appropriate rotation by specified due dates for the semester field experience. The faculty supervisor/course instructor, reviews and then submits the end of semester evaluation into the gradebook become part of the candidate's record in the candidate's practicum/internship file.
- This supervisor evaluation is considered in assigning grades for the internship.
- Please be sure to discuss your evaluation with your candidate during supervision. They will be asked to be prepared to reflect on their rating with their faculty supervisor/course instructor.
- Your time and careful evaluation are very important and much appreciated. Thank you!

Candidate Name:

Date of Evaluation:

This is the: Mid-Term Evaluation ____ Final Evaluation ____ (check one)

Faculty Supervisor:

Internship Rotation: (drop-down menu; select one) Practicum, Internship 1, Internship 2

Please indicate the type of review done with the student, during group supervision and/or courseroom tasks, as well as specify the number of sessions you observed:

____ I reviewed recordings of candidate's sessions. ____ Number of sessions reviewed.

____ I reviewed transcripts of candidate's sessions. ____ Number of sessions reviewed

Instructions for Completing the Candidate Counseling Skills and Competencies

Sections:

Supervisor feedback is a critical component of candidate development and evaluation. This form organizes candidate counseling performance into four general areas: Professional Work Requirements, Professional Ethics and Behaviors, Counseling Knowledge and Skills, Learning Behaviors and Self-Care, and Professional Dispositions.

Specific aspects of each area will have descriptions (rubric) of five levels of student performance:

Points Associated with Level	Rubric Descriptor
0	the candidate was Unable to Perform/Not Met (<i>if candidate receives this score during internship 2; candidate will automatically need to repeat the course</i>)
1	the candidate has Deficient (<i>does not meet criteria for program level</i>)

2	the candidate is still Developing (<i>meets criteria minimally or inconsistently for program level</i>)
3	the candidate Meets Expectations (<i>meets criteria consistently at this program level</i>)
4	the candidate Exceeds Expectations (<i>exceeds criteria at this program level</i>)

At each point in the candidate's rotation, they should be scored in accordance to their experience. For instance, a practicum candidate, first field experience of a master's level counseling candidate, should be scored in accordance. Therefore, do they meet the expectations expected of where they are in their training program. The rubric should not be used as a means of comparison to those in the field (e.g. post-master's degree, LAC, LPC). Developing skills and competencies in counseling takes time. In practicum we anticipate that candidates will progress from "not meeting expectations" to the "developing" and sometimes "meeting expectations" levels of performance. But there may be some areas where you are considering the intern to have exceeded the expectations for where they are at in their training program (i.e. practicum experience). In internship the candidates should progress to levels of "meeting expectations" and "exceeding expectations" as we are looking to soon welcome candidates as graduates to become colleagues in the field. However, once again, the score should be relative to their current training experience (i.e. practicum, internship 1, internship 2).

In Sections 1-4, please check which one of the five levels of performance detailed in the following boxes best describes your practicum/internship candidate's abilities. There is also space for comments if needed. Please think of these groupings as 'skill sets,' and indicate (by checking the box) which level of description best describes the candidate's current level of performance as a counselor. If you find that a candidate is consistently performing some skills but not others within the same level (e.g., '**developing**'), please still rate the candidate as '**developing**' and then describe the skills that need to be improved in the comment section below the box.

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)
Does not apply current record-keeping standards related to counseling; field experience documents are regularly submitted incorrectly or past the deadlines.	Inconsistently or ineffectually applies current record-keeping standards related to counseling; field experience documents are sometimes submitted incorrectly or past the deadlines.	Usually applies current record-keeping standards related to counseling, including submission of some required field experience documents by the stated deadlines.	Applies current record-keeping standards related to counseling, including submission of all required field experience documents by the stated deadlines.	Accurately and consistently applies current record-keeping standards related to counseling, including submission of all required field experience documents completed by the stated deadlines.

Comments:

Section 5. Professional Disposition (10%)

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 1-19

Any combination of the following for each category

The counseling intern conducts self in an ethical and professional manner so as to promote confidence in the counseling profession. The counseling intern demonstrates capacity for openness to points of view, theories, experiences, and perspectives different than their own, especially in relationship to those in supervisory or instructional positions. Counseling intern demonstrates the ability to engage in dialogue with others who have different perspectives in ways that show respect for the other persons and their points of view. They will demonstrate a willingness to consider the merits of these alternative points of view in a thoughtful and professional manner. The counseling intern demonstrates the ability to monitor attitudes, personal well-being, personal issues, and personal programs to support self as well as safeguard the welfare of the client. The CI demonstrates appropriate self-control (i.e. impulse control) in interpersonal relationships site staff other interns, clients, etc. The counseling intern maintains a positive attitude and flexible, solution-oriented stance in all educational and professional endeavors. The counseling intern refrains from making statements that are false, misleading, or deceptive; respects the

fundamental rights, dignity, and worth of all people. The counseling intern considers the impact of their actions on the well-being of others (i.e. colleagues, supervisors, clients), the site, and the profession as a whole.

CCU Counseling Program Professional Performance Standards are formally known as the counseling candidates:

1. Openness to new ideas
2. Flexibility
3. Relevant Interpersonal Skills
4. Willingness to accept and use feedback
5. Self-awareness of own impact on others
6. Ability to deal with conflict.
7. Ability to accept personal responsibility.
8. Ability to express feelings effectively and appropriately.
9. Ethical Conduct.
10. Alignment to the Profession: Initiative and motivation.

Candidates should be evaluated on their professional disposition in totality.

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)
Unable to demonstrate criteria for the program level. If candidate receives this score during internship 2; candidate will automatically need to repeat the course.	Does not meet criteria for program level.	Meets criteria minimally or inconsistently for program level.	Meets criteria consistently at this program level.	Exceeds criteria at this program level.

Comments:

Section 6. Additional Feedback about Candidate Behaviors

A. What would you identify as this intern candidate's top areas of strength?

B. What do you think should be the primary focus for this intern candidate's growth and improvement?

C. If you have any other comments regarding this intern, please include below. If more space is needed, continue your comments on the back of this page.

Faculty Supervisor's Signature: _____ **Date:** _____

APPENDIX B
**SITE SUPERVISOR ADDENDUM EVALUATION OF CANDIDATE FORM
(School Counseling)**

General Information:

- This evaluation is completed in addition to the South Carolina School Counselor Evaluation Rubric.
- The primary supervisor completes this form both at midterm and at the end-of-the semester internship experience. If the candidate has more than one supervisor at the same site, the supervisor with the most contact with the candidate should complete the evaluation after consulting with the other supervisors. If the candidate has a supervisor at two or more different sites, each site supervisor will need to complete and the scores will be averaged.
- This completed form is submitted by the site supervisor to Handshake for the appropriate rotation by specified due dates for the semester field experience. The faculty supervisor/course instructor, reviews and then submits the end of semester evaluation into the gradebook become part of the candidate's record in the candidate's practicum/internship file.
- This supervisor evaluation is considered in assigning grades for the internship.
- Please be sure to discuss your evaluation with your candidate during supervision. They will be asked to be prepared to reflect on their rating with their faculty supervisor/course instructor.
- Your time and careful evaluation are very important and much appreciated. Thank you!

Candidate Name:

Date of Evaluation:

This is the: Mid-Term Evaluation ____ Final Evaluation ____ (check one)

Site Supervisor:

Internship Site:

Internship Rotation: (drop-down menu; select one) Practicum, Internship 1, Internship 2

Please indicate the type of review done with the student, during group supervision and/or courseroom tasks, as well as specify the number of sessions you observed:

____I reviewed recordings of candidate's sessions. ____Number of sessions reviewed.

____I reviewed transcripts of candidate's sessions. ____Number of sessions reviewed

Instructions for Completing the Candidate Counseling Skills and Competencies Sections:

Supervisor feedback is a critical component of candidate development and evaluation. This form organizes candidate counseling performance into four general areas: Professional Work Requirements, Professional Ethics and Behaviors, Counseling Knowledge and Skills, Learning Behaviors and Self-Care, and Professional Dispositions.

Specific aspects of each area will have descriptions (rubric) of five levels of candidate performance:

Points Associated with Level	Rubric Descriptor
0	the candidate was Unable to Perform/Not Met (<i>if candidate receives this score during internship 2; candidate will automatically need to repeat the course</i>)
1	the candidate has Deficient (<i>does not meet criteria for program level</i>)
2	the candidate is still Developing (<i>meets criteria minimally or inconsistently for program level</i>)
3	the candidate Meets Expectations (<i>meets criteria consistently at this program level</i>)
4	the candidate Exceeds Expectations (<i>exceeds criteria at this program level</i>)

At each point in the candidate's rotation, they should be scored in accordance to their experience.

For instance, a practicum candidate, first field experience of a master's level counseling candidate, should be scored in accordance. Therefore, do they meet the expectations expected of where they are in their training program. The rubric should not be used as a means of comparison to those in the field (e.g. post-master's degree, LAC, LPC).

Developing skills and competencies in counseling takes time. In practicum we anticipate that candidates will progress from "not meeting expectations" to the "developing" and sometimes "meeting expectations" levels of performance. But there may be some areas where you are considering the intern to have exceeded the expectations for where they are at in their training program (i.e. practicum experience). In internship the candidates should progress to levels of "meeting expectations" and "exceeding expectations" as we are looking to soon welcome candidates as graduates to become colleagues in the field. However, once again, the score should be relative to their current training experience (i.e. practicum, internship 1, internship 2).

In Sections 1-4, please check which one of the five levels of performance detailed in the following boxes best describes your practicum/internship candidate's abilities. There is also space for comments if needed. Please think of these groupings as 'skill sets,' and indicate (by checking the box) which level of description best describes the candidate's current level of performance as a counselor. If you find that a candidate is consistently performing some skills but not others within the same level (e.g., '**developing**'), please still rate the candidate as '**developing**' and then describe the skills that need to be improved in the comment section below the box.

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)
Fails to introduce self as a counseling inter and explain professional counseling. Does not appear comfortable interacting with diverse clients (e.g., discomfort with varying ages, ethnic origin, etc.). During counseling sessions mostly listens to clients and does not respond effectively. Unable to build rapport and gain the client's trust. Is not sensitive or responsive to client's needs. Cannot describe to clients the mission and scope of services for this setting.	Frequently fails to introduce self as a counseling intern and explain professional counseling. Does not usually appear comfortable interacting with diverse clients (e.g., discomfort with varying ages, ethnic origin, etc.). During counseling sessions mostly listens to clients and usually does not respond effectively. Usually unable to build rapport and gain the client's trust. Usually is not sensitive or responsive to client's needs. Usually cannot describe to clients the mission and scope of services for this setting.	Introduces self as a counseling intern but limited in ability to explain professional counseling to others. More often than not appears comfortable interacting with diverse clients but counseling and treatment plans do not reflect this. Inconsistent effectiveness in using basic counseling skills with clients. Generally able to build rapport, and gain the client's trust. Respectful and most often sensitive and responsive to client's needs. Can describe to clients the purpose of the agency at a superficial level.	Introduces self as a counseling intern and can explain professional counseling to others. Appears comfortable interacting with diverse clients and notes aspects of client special needs in the counseling and treatment plans. Most often uses effective basic counseling skills in interactions with clients. Builds rapport and generates trust, with nearly all clients Is respectful, sensitive and responsive to client's needs. Can describe the purpose and services of the setting to others.	Consistently introduces self as counseling intern and can confidently explain professional counseling to professionals and lay persons. Appears comfortable interacting with a wide variety of diverse clients. Effectively applies and integrates knowledge of client diversity into counseling and treatment plans. Regularly uses effective basic counseling skills to initiate and maintain interactions with clients. Able to build rapport and generate trust with all but the most interpersonally difficult clients. Is consistently respectful sensitive and responsive to client's needs.

SC: CACREP (2024) V.H. 1-19

Any combination of the following for each category

The counseling intern conducts self in an ethical and professional manner so as to promote confidence in the counseling profession. The counseling intern demonstrates capacity for openness to points of view, theories, experiences, and perspectives different than their own, especially in relationship to those in supervisory or instructional positions. Counseling intern demonstrates the ability to engage in dialogue with others who have different perspectives in ways that show respect for the other persons and their points of view. They will demonstrate a willingness to consider the merits of these alternative points of view in a thoughtful and professional manner. The counseling intern demonstrates the ability to monitor attitudes, personal well-being, personal issues, and personal programs to support self as well as safeguard the welfare of the client. The CI demonstrates appropriate self-control (i.e. impulse control) in interpersonal relationships site staff other interns, clients, etc. The counseling intern maintains a positive attitude and flexible, solution-oriented stance in all educational and professional endeavors. The counseling intern refrains from making statements that are false, misleading, or deceptive; respects the fundamental rights, dignity, and worth of all people. The counseling intern considers the impact of their actions on the well-being of others (i.e. colleagues, supervisors, clients), the site, and the profession as a whole.

CCU Counseling Program Professional Performance Standards are formally known as the counseling candidates:

11. Openness to new ideas
12. Flexibility
13. Relevant Interpersonal Skills
14. Willingness to accept and use feedback
15. Self-awareness of own impact on others
16. Ability to deal with conflict.
17. Ability to accept personal responsibility.
18. Ability to express feelings effectively and appropriately.
19. Ethical Conduct.
20. Alignment to the Profession: Initiative and motivation.

Candidates should be evaluated on their professional disposition in totality.

Career Project (10%)**

CACREP (2024) III. A.11; B.8-9; D.1, 9-11; E.10-12,14; H.2, 7-8

SC: CACREP (2024) V.H.5, 8, 15-19

SCTS 4.0 (School Counselors): Planning. 1-3; Program Management.1-2; Direct and Indirect Services.1-2; Professionalism.1-5

NBPTS (School Counselors): I-V, VII-IX

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Each candidate will be required to complete one career project to help students prepare for college. Some examples of this project can include filling out the FAFSA application form with a student, taking a group of students on a college visit, assisting a student with a college application, providing the results of a PLAN or EXPLORE assessment and applying it to their future career goals, or any other ideas that the professor approves ahead of time. You will be allocated 15 minutes during which you will present your Career Project with the class. You must also give the instructor a written summary of your experience and a copy of the materials used (e.g., a copy of the FAFSA form, announcements/recruitment for college visit, copy of college application, etc.). Select any important handouts/information you want to highlight in your presentation and make copies for each classmate. A format for the written summary will be provided in class.

Dr. David A. DeCenzo
President
Coastal Carolina University
642 Century Circle
Conway, SC 29526

Dear Dr. DeCenzo:

The Accreditation Council of the Council for the Accreditation of Educator Preparation (CAEP) met on April 27, 2020, and I am pleased to inform you that the following accreditation status has been granted:

The William L. Spadoni College of Education at Coastal Carolina University is granted **Accreditation** at the initial-licensure level and advanced-level as described in the Accreditation Action Report.

Included with this letter are two subsequent documents:

- 1) The Accreditation Action Report provides details of the accreditation status.
- 2) Information for EPPs Granted Accreditation provides further information on the Council's decision process and provider responsibilities during the accreditation term.

Congratulations on your accreditation achievement. I appreciate your commitment to excellence in educator preparation accreditation.

Sincerely yours,

A handwritten signature in black ink that reads "Christopher A. Koch". The signature is written in a cursive, slightly stylized font.

Christopher A. Koch, Ed.D.
President

Enclosures: Accreditation Action Report, Certificate of Accreditation (mailed to provider leadership), and Information on CAEP Accreditation

cc: Dr. Edward Jadallah, William L. Spadoni College of Education
Dr. Dennis G. Wiseman, William L. Spadoni College of Education

IV. National accreditor and SPA Standards, and assessments

A. A current accreditation approval letter from the Specialized Professional Association (e.g., NASM, NASAD, etc.):

A copy of the most recent CAEP letter may be found in Appendix A.

B. Program report

B1. Context

The Dean of the Spadoni College of Education and Social Sciences is responsible for all institutional policies for the College. The Dean works with the faculty and other academic administrators within the College to ensure the quality of the academic program and the alignment with CACREP and state standards. The College's organization and governance structure assures the integrity and quality of academic programming.

South Carolina State Laws and Regulations include the following: (1) Educator preparation units offering initial licensure programs must develop and implement a plan that integrates the South Carolina ADEPT performance standards throughout candidates' coursework, field experiences, and clinical practice. The unit must provide evidence that all candidates recommended for certification meet their respective ADEPT competencies, (2) Educator preparation units must provide assessment evidence to indicate that all candidates enrolled in educator preparation, school guidance counseling, and education administration programs possess the knowledge, skills, and dispositions to integrate the following into the PK-12 curriculum: career guidance; cluster study; curriculum frameworks; individual graduation plans; the instruction of students with diverse learning styles; the elements of the Career Guidance Model; contextual teaching; cooperative teaching; and character education. Institutions must also prepare and assess all candidates in the use of applied methodologies in PK-12 academic courses, (3) Educator preparation units must provide candidates with specific written information regarding the state Standards of Conduct (SC Code Ann. §§ 59-25-160, 59-25-530, 63-17-1060) required of South Carolina educators for initial certification, (4) Educator preparation units must provide evidence that candidates in all certification programs possess the knowledge, skills, and dispositions to identify and prevent bullying, harassment, and intimidation in schools, (5) Educator preparation units must provide evidence that candidates in all certification programs know, understand, and can apply South Carolina PK-12 Academic Curriculum Standards in the area in which they seek to be certified, (6) Educator preparation programs must ensure that candidates meet minimum admission requirements at the initial and advanced levels, (7) Educator preparation programs and other school personnel preparation programs must provide field experiences (also known as the practicum) that provide candidates with a variety of progressive experiences in multiple and diverse settings. All candidates complete a minimum of 100 hours of field experience prior to the clinical practice (internships), which must total 600 hours. (8) Counselor education candidates must complete a 3-credit hour course in literacy to fulfill the state's Read to Succeed requirements.

The counselor education program at Coastal Carolina University will provide a sequence of field-based experiences in which candidates develop and demonstrate the knowledge, skills, and dispositions necessary to help all students learn. Teacher candidates advance through three field experiences, each requiring them to assume greater responsibility in the classroom before the internship semester. Field experiences are designed to engage candidates in a variety of school settings, including those with high and low levels of diversity, those with high and low levels of SES, and more rural and urban settings.

Table 1. Field Experience Requirements

Course	Placement	Minimum Required Hours
EDCO 603	Public school	100 hours
EDCO 604	Public elementary school	300 hours
EDCO 605	Public high school	300 hours

Field Experience I – EDCO 603 (100 hours)

Candidates spend 100 hours gaining practical knowledge of the school setting and the role of the school counselor as well as to begin to develop skills in individual and group counseling and interactive classroom instruction. The candidates observe and may work with an individual child, small groups, or a class alongside the counselor.

Field Experience II – EDCO 604 (300 hours)

Counselor candidates have opportunities to apply knowledge and skills in authentic situations. At the internship level, interns meld the theoretical and practical knowledge of counseling with professional behaviors. Interns can explore, investigate, grow, and develop through the internship. The internship further develops skills in individual and group counseling and interactive classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers and parents. This field experience occurs in a public elementary school.

In Field Experiences II and III, the candidate has at least three formative observations (two by the University Supervisor and one by the cooperating counselor) and three summative observations (two by the University Supervisor and one by the cooperating counselor) using the ADEPT for School Counselors rubric. They are also scored on the Assessment of Candidate Dispositions. Finally, the internships represent an all-important exit point in the program. Interns may not finish the internships, or complete their programs of study, without demonstrating competence as defined in this document; therefore, the internships serve as the final check of both candidate quality and program effectiveness.

Field Experience III – EDCO 605 (300 hours)

Counselor candidates have opportunities to apply knowledge and skills in authentic situations. At the internship level, interns meld the theoretical and practical knowledge of counseling with professional behaviors. Interns can explore, investigate, grow, and develop through the internship. Candidates are expected to assume a greater responsibility as the instructional leader. The internship further develops skills in individual and group counseling and interactive

classroom instruction. Additionally, candidates practice consultation skills by actively working with teachers and parents. This field experience occurs in a public high school.

Interns are expected to demonstrate proficiency in selected Performance Dimensions in addition to all the Professional Behaviors and Dispositions. Interns must apply their knowledge of learners and counseling by working with students as full participating members of a professional school community.

As previous noted, in field experiences II and III, the candidate has at least three formative observations (two by the University Supervisor and one by the cooperating counselor) and three summative observations (two by the University Supervisor and one by the cooperating counselor) using the ADEPT for School Counselors rubric. They are also scored on the Assessment of Candidate Dispositions. Finally, the internships represent an all-important exit point in the program. Interns may not finish the internships, or complete their programs of study, without demonstrating competence as defined in this document; therefore, the internships serve as the final check of both candidate quality and program effectiveness.

Assurances of High-Quality Field Experience:

The counselor education faculty work from a well-planned, collaborative research agenda that builds on and extends themes related to high quality field experiences. The faculty work closely with the Clinical Experiences Placement Coordinator to place the candidates with high quality schools that will work closely and collaboratively with our candidates. We use a strict vetting process when hiring University Supervisors, who are trained as ADEPT evaluators, to evaluate our counselor candidates. Our faculty have also worked closely to create a clear consensus about what high-quality field experiences look like and how that plays into a high-quality program.

B2, 3, 4. LIST OF ASSESSMENTS/ RELATIONSHIP OF ASSESSMENTS TO STANDARDS

CACREP does not limit EPPs to 6-8 key assessments, unlike other specialized program associations. Additionally, CACREP programs must address multiple strands of standards, versus a single set required by other accrediting bodies. Thus, the M.Ed. in Counseling has created a comprehensive portfolio of key assessments aligned to the CACREP standards. The following tables, pulled from the CACREP self-study report guidelines, show the alignment between courses, key assessments, and CACREP standards:

SSR 2.C KPIs and Dispositions Information

(Table taken from CACREP submission requirements)

Key Performance Indicators

Program Objectives	Key Performance Indicator (KPI)	Associated Foundational Curricular Area or Specialized Practice Area	Minimum Performance Expectation	Specific Measures Used to Assess KPI	Knowledge/Skill Assessment	When and Where Measurements Occur
Students will be able to demonstrate a professional counseling identity founded by ethical practices.	Graduates will demonstrate commitment as ethical and competent clinicians with a strong professional counselor identity aligned with the American Counseling Association ethical standards prepared to advocate on behalf of the profession and promotes client equity and access while committing to personal self-care and wellness.	Professional Counseling Orientation and Ethical Practice	Key Assessment Assignment: Candidates must receive an 80% or higher score on the assignment. Professional Dispositions

Each Professional Performance Standard is rated on a scale of 0 (poor) to 4 (excellent) as described in the Criteria for Professional Performance Standards Evaluation (**Appendix A in Handbook**). Both informal and formal review will occur for candidate professional disposition. Formal review will be embedded with course experiences that support the development of the counselor professional identity with emphasis on professional responsibilities:

Clinical Mental Health Counseling and School Counseling Programs

- EDCO 501: Foundational Skill Biopsychosocial and Progress Note
- EDCO 502: Developmental Autobiography
- EDCO 503: Self-Reflection Worldview Paper
- EDCO 504: Personal Counseling Theory Integration Paper
- EDCO 505: Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project, Part 5- Reflection
- EDCO 506: Crisis Counseling Practice, Supervision, and Reflection
- EDCO 507: Cover Letter and Resume/CV for the Counseling Field
- EDCO 508: Group Facilitator Self-Assessment Paper

Clinical Mental Health Counseling (only)

- EDMH 601: Taping Role Plays and Transcript
- EDMH 601: Theory of Change Discussion
- Fieldwork Evaluations

School Counseling (only)

- EDCO 602: School Counseling Program Presentation
- EDCO 602: Taping Role-Plays and Transcript
- Fieldwork Summative Evaluations

Candidates' fulfillment of the ten Professional Performance Standards is reviewed by individual faculty during each course and by the conclusion of each semester by the CCU Counseling Program faculty within the Professional Performance Standards Committee.

SSR 2.C KPIs and Dispositions Information

(Table from CACREP submission requirements)

Professional Dispositions

Professional Dispositions and Definitions	Method of Assessment	When and Where Assessment Occurs
<p>1. <i>Openness to new ideas.</i> The candidate solicits ideas and opinions from others, invites constructive feedback, displays an interest in others' perspectives, and strongly incorporates feedback to change one's own behavior.</p>	<p>Faculty are required to assess candidate professional dispositions using the counseling program's Professional Performance for eight (8) core CMHC and SC counseling program courses, five (5) occurrences within the CMHC entry-level program courses, and five (5) occurrences within the SC entry-level program courses. These assignments require the associated course faculty to assess candidate professional dispositions in relation to their performance on this assignment within the course.</p>	<p>Faculty are required to assess candidate professional dispositions using the counseling program's Professional Performance Standards throughout the entirety of their program. Some courses and assignments have been pre-identified to support gatekeeping efforts (see methods of assessment). Faculty must complete the evaluation associated with specific course assignments while accounting for the candidate's professional dispositions throughout the course. The faculty will select the score most closely matching the candidate's professional dispositions during the course aligned to the rubric.</p>
<p>2. <i>Flexibility.</i> The candidate shows effort to recognize the changing demands in the professional environment, shows effort to adapt responses and behavior to meet the demands of the changing professional environment, and accepts changes in one's own schedule without resentment.</p>	<p>Professional disposition assessment is not limited to these assignments. If any concern of candidate professional dispositions is displayed throughout their enrollment in the program, associated course faculty, advisor, and/or program director, are responsible to disclose with report to the professional standards committee.</p>	<p>Clinical Mental Health Counseling and School Counseling Programs</p>
<p>3. Culturally Relevant Interpersonal Skills: Interacts with others in a manner that evidences emotional awareness, emotional control, and mutual respect. Works cooperatively with others (e.g., peers, faculty, supervisors). Clearly communicates ideas and concepts to encourage receptiveness of message. Provides objective feedback with ability to substantiate self in theory and scholarly research. Is willing to embrace client worldview. Seeks to meet the client in the client's here and now with consideration of cultural and developmental sensitivity to support access to services and successful</p>	<p>Candidate dispositions are also assessed each semester during counseling program meetings.</p>	<ul style="list-style-type: none"> • EDCO 501: Foundational Skill Biopsychosocial and Progress Note • EDCO 502: Developmental Autobiography • EDCO 503: Self-Reflection Worldview Paper • EDCO 504: Personal Counseling Theory Integration Paper • EDCO 505: Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project, Part 5- Reflection • EDCO 506: Crisis Counseling Practice, Supervision, and Reflection • EDCO 507: Cover Letter and

<p>7. <i>Ability to accept personal responsibility.</i> The candidate monitors their own level of responsibility in professional performance, invites constructive critique from others and incorporates feedback into professional growth, accepts own mistakes and uses them as an opportunity for self-improvement and</p>		

growth, and rejects blame in favor of self-reflection and examination.		
8. <i>Ability to express feelings effectively and appropriately.</i> The candidate is consistently able to articulate one's own feelings, shows evidence of acknowledging the feelings of others, expresses feelings in a manner appropriate to the setting, and openly discusses feelings during supervision.		
9. <i>Ethical Conduct.</i> The candidate maintains clear personal-professional boundaries with clients, demonstrates consistent sensitivity to diversity and inclusion, consistently ensures client safety and well-being, and safeguards the confidentiality of clients.		
10. <i>Alignment to the Profession: Initiative and motivation.</i> Demonstrates motivation to pursue graduate study in chosen field (i.e. met all attendance requirements and deadlines, regularly participated in class activities, met or exceeded expectations, consistently displayed initiative and creativity in assigned work). Rationale for pursuing chosen field aligns with values and mission of the profession. Goals for professional development are appropriate for the chosen field.		

SSR 3.A Foundational Counseling Curriculum

PROFESSIONAL COUNSELING ORIENTATION AND ETHICAL PRACTICE

A. PROFESSIONAL COUNSELING ORIENTATION AND ETHICAL PRACTICE	EDCO 500 Professional Counseling Orientation and Ethical Practice	EDCO 501 Counseling Practice and Relationships	EDCO 505 Assessment and Diagnostic Process	Narrative
A.1: history and philosophy of the counseling profession and its specialized practice areas	X			EDCO 500 History Guides the Future Presentation Assignment: Candidates will review the history of how the profession of counseling has developed over time and identify one ethical or legal standard developed to support the improvement of the counseling profession.
A.2: the multiple professional roles and functions of counselors across specialized practice areas	X		X	<p>EDCO 500 Helping Professionals' Scope of Practice Assignment: Candidates are expected to identify the scope of practice of numerous helping professionals and explore their ethical responsibilities using their ethical codes/standards. This assignment will require candidates to complete research to identify the organization providing ethical and legal guidance for the specific helping profession.</p> <p>EDCO 505 Assessment Practice and Professionalism: Throughout the semester, candidates will practice taking and interpreting findings as well as facilitating and interpreting results for hypothetical cases. Consideration of audience receiving report will be examined in addition to within scope of practice and need for referrals for out-of-scope client assessment needs.</p>

A.3: 3. counselors' roles, responsibilities, and relationships as members of specialized practice and interprofessional teams, including (a) collaboration and consultation, (b) community outreach, and (c) emergency response management	X			EDCO 500 Helping Professionals' Scope of Practice Assignment: After completing research of the varying helping professional roles and their ethical responsibilities, candidates will explore how their role as a helping professional intersects with the other helping professions for (a) collaboration and consultation, (b) community outreach, and (c) emergency response management.
A.4: 4. the role and process of the professional counselor advocating on behalf of and with individuals receiving counseling services to address systemic, institutional, architectural, attitudinal, disability, and social barriers that impede access, equity, and success	X			EDCO 500 Advocacy Project assignment: Candidates will explore a current issue impacting their community and the counseling profession and report about it in relation to their role as a change agent to their classmates. For this assignment, candidates have the option to write a letter or email related to legislative action or participate in an organized mental health community event that focuses on helping an underrepresented population or raises awareness of an issue in their community. Candidates will reflect on the experience they choose.
A.5: 5. the role and process of the professional counselor advocating on behalf of the profession	X			EDCO 500 Advocacy Project assignment: For this assignment, candidates have the option to write a letter or email related to legislative action or participate in an organized mental health community event that focuses on helping an underrepresented population or raises awareness of an issue in their community. Candidates will reflect on the experience, to include, but not limited to, their role, for the option they choose.
A.6: 6. professional counseling organizations, including membership benefits, activities,	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will examine how a counseling organization's membership can support their professional

services to members, and current issues				goals. and gain understanding of the current labor market.
A.7: 7. professional counseling credentialing across service delivery modalities, including certification, licensure, and accreditation practices and standards for all specialized practice areas	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will identify their state's organization which guides credentialing for counseling specialty. Candidates will identify the requirements to become and maintain their desired counseling credential: (a) licensed professional counselor or (b) school counselor in their state depending on counseling program enrollment. Exploration concerning parameters of service delivery (e.g., telehealth) will be identified.
A.8: 8. legislation, regulatory processes, and government/public policy relevant to and impact on service delivery of professional counseling across service delivery modalities and specialized practice areas	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will identify their state board/ credentialing organization's parameters of service delivery (e.g., telehealth) will be identified.
A.9: current labor market information and occupational outlook relevant to opportunities for practice within the counseling profession	X			EDCO 500 Personal Counseling Credentialing Action Plan Assignment: Candidates will identify the current labor market for their desired counseling specialty.
A.10: ethical standards of professional counseling organizations and credentialing bodies, and applications of ethical and legal considerations in professional counseling across service delivery modalities and specialized practice areas	X			EDCO 500 Ethical Dilemmas and Counselor Welfare assignment: Candidates identify ethical and legal dilemmas counselors can face with clients in accordance with state law and professional ethical responsibilities as a counselor and integrate ethical decision-making models to resolve specific legal and ethical issues.

A.11: self-care, self-awareness, and self-evaluation strategies for ethical and effective practice	X	X	X	<p>EDCO 500 Ethical Dilemmas and Counselor Welfare assignment: Candidates articulate the impact of a counselor's personal values on the ability to resolve legal and ethical dilemmas within the counseling profession and develop strategies to address the influence of a counselor's personal values on ethical decision making.</p> <p>EDCO 501: Counselor Welfare Assignment: Candidates will engage in personal and professional wellness awareness exercises throughout the course. Candidates will reflect on their commitment to their self-care and their current feelings towards their satisfaction with their personal self-care. Candidates will consider what went well for them as well as what was more difficult. As an aspiring future counselor, candidates will examine their ethical obligation to monitor their effectiveness and be mindful of any impairments to safeguard the welfare of clients first and foremost.</p> <p>EDCO 505 Assessment Practice and Professionalism: Candidates are expected to demonstrate professionalism with facilitation of and interpreting results for hypothetical cases. Professionalism represents a way of being made up of appearance, manner, communication, interacting, attitudes, approach, skills, and openness to grow.</p>
A.12: the purpose of and roles within counseling supervision in the profession	X			<p>EDCO 500 Ethical Dilemmas Class Examination and Quizzes: Candidates are expected to come prepared to actively research state laws and ethical code/standard application to resolve dilemmas for service delivery across</p>

				modalities (e.g., face-to-face versus telehealth) when supervised and unsupervised.

SOCIAL AND CULTURAL IDENTITIES AND EXPERIENCES

B. SOCIAL AND CULTURAL IDENTITIES AND EXPERIENCES	EDCO 503 Identities and Experiences	CMHC: EDMH 603- Diagnosis and Treatment of Addictions Counseling	SC: EDCO 604 School Counseling Internship I: Elementary	Narrative
B.1: theories and models of multicultural counseling, social justice, and advocacy	X			EDCO 503 Annotated Bibliography assignment: Candidates will research 3 professional, peer-reviewed, journal articles addressing issues related to counseling a subgroup you have chosen to study. This assignment will give you the opportunity to discover how theories of counseling are applied to diverse populations and further developed through empirical research.
B.2: the influence of heritage, cultural identities, attitudes, values, beliefs, understandings, within-group differences, and acculturative experiences on individuals' worldviews	X			EDCO 503 Culturally sensitive Biopsychosocials/Intakes assignment: Candidates will be required to research cultures and populations unfamiliar to them to support establishing therapeutic rapport with the client.
B.3: the influence of heritage, cultural identities, attitudes, values, beliefs, understandings, within-group differences, and acculturative experiences on help-seeking and coping behaviors	X	CMHC		EDCO 503 Self-Reflection Worldview Paper assignment's purpose is to stimulate self-reflection on one's life experiences, particularly regarding race, gender, class, ability, sexuality, and spirituality. It also seeks to prompt thought about the interrelationships among race, gender, issues of social justice, and class

				<p>(socioeconomic background), and how this influences your clinical work.</p> <p>CMHC EDMH 603 Experiential Project: Candidates will watch films that address issues related to substance use and addictive behavior. Considerations of prevalence within culture should be considered. Students will choose to view 1 film outside of class (with instructor approval) and complete a developmentally and culturally appropriate treatment plan.</p> <p>CMHC EDMH 603 Counseling Demonstrations and Experiential Activities: Candidates will engage in group discussion and exercises including examination of mental health behaviors for cultures.</p>
B.4: the effects of historical events, multigenerational trauma, and current issues on diverse cultural groups in the U.S. and globally	X			EDCO 503 Cultural Immersion Impact assignment: candidates will identify historical and/or current issues impacting culture stereotypes and the effects of stereotypes.
B.5: the effects of stereotypes, overt and covert discrimination, racism, power, oppression, privilege, marginalization, microaggressions, and violence on counselors and clients	X			EDCO 503 Cultural Immersion Impact assignment: candidates will identify historical and/or current issues impacting culture stereotypes and the effects of stereotypes.
B.6: the effects of various socio-cultural influences, including public policies, social movements, and cultural values, on mental and physical health and wellness	X			EDCO 503 Self-Reflection Worldview Paper assignment: Candidates will discuss the formative experiences that shaped your beliefs about race, gender, class, ability, and sexuality.
B.7: disproportional effects of poverty, income disparities, and health disparities toward people with marginalized identities	X			EDCO 503 Self-Reflection Worldview Paper assignment: Candidates will examine class variances I comparison to other cultures.

B.8: principles of independence, inclusion, choice and self-empowerment, and access to services within and outside the counseling relationship	X		SC	<p>EDCO 503 Cultural Immersion Impact assignment: Candidates will apply guidelines developed by professional counseling organizations related to social justice, advocacy, and working with individuals with diverse cultural identities.</p> <p>EDCO 604 Individual Case Study: Candidate will identify client current life situation which includes experiences with barriers and resources for mental health services.</p>
B.9: strategies for identifying and eliminating barriers, prejudices, and processes of intentional and unintentional oppression and discrimination	X		SC	<p>EDCO 503 Cultural Immersion Impact assignment: Candidates will highlight advocacy efforts for this culture by highlighting researched strategies to support elimination of barriers, prejudices, and processes of intentional and unintentional oppression and discrimination.</p> <p>EDCO 604 Individual Case Study: Candidate will identify strategies to eliminate and/or decrease hardships related to client experiences with barriers to care.</p> <p>EDCO 604 Special Education Project: Candidates will sit in on a review of an IEP or 504 Plan and examine benefits to the student clients implemented.</p> <p>EDCO 604 Family Session: Candidate will complete and reflect on a family session where the interaction helps a student and a family member with communication, grades, or any other school related issue.</p>
B.10: guidelines developed by professional counseling organizations related to social	X			EDCO 503 Cultural Immersion Impact assignment: Candidates will apply guidelines

justice, advocacy, and working with individuals with diverse cultural identities				developed by professional counseling organizations related to social justice, advocacy, and working with individuals with diverse cultural identities.
B.11: the role of religion and spirituality in clients' and counselors' psychological functioning	X			EDCO 503 Culturally sensitive Biopsychosocials/Intakes assignment: Candidates will practice sessions will focus on accounting for the unique needs of the hypothetical case studies presented. Culturally sensitive skill practice will include application of the foundational skills to support successful completion of thorough biopsychosocial assessments intended to support counselor thorough understanding of their client and their unique experiences.

SSR 3.C Foundational Counseling Curriculum

LIFESPAN DEVELOPMENT

C. LIFESPAN DEVELOPMENT	EDCO 502 Lifespan Development	EDCO 510 Diagnostics of Psychopathology for Counselors	CMHC: EDMH 602- Introduction to Couples and Family Counseling	SC: EDCO 602- Elementary & Secondary School Counseling Strategies	Narrative
C.1: theories of individual and family development across the lifespan	X				EDCO 502 Quizzes will assess candidate understanding of developmental theories. EDCO 502 Trauma Research Paper will apply human development theory.
C.2: theories of cultural identity development	X				EDCO 502 Developmental Autobiography assignment: Part 3 of the assignment includes analysis of cultural implications.

C.3: theories of learning	X			SC	EDCO 502 Adaptive Learning Case Study assignment: Candidates will rationalize learning theory to support continued educational/professional goals for hypothetical client. EDCO 602 Taping Role-Plays and Transcript: Candidates examine learning to support personal growth as a counselor.
C.4: theories of personality and psychological development	X				EDCO 502 Group Development Project: Candidates will work in small groups and present the characteristics of an assigned developmental stage, the results of a literature review on a chosen topic relevant to the developmental stage, and a counseling psychoeducational activity/program to address the chosen topic.
C.5: theories and neurobiological etiology of addictions	X				EDCO 502 quiz assignments: After completing readings concerning addiction experience over the lifespan, candidates will complete a quiz to assess their comprehension of the content.
C.6: structures for affective relationships, bonds, couples, marriages, and families	X		CMHC		EDCO 502 quiz assignments: After completing readings concerning relational dynamics over the lifespan, candidates will complete a quiz to assess their comprehension of the content. EDMH 602 Genogram: Candidates will create a genogram. Relationships will be explored for triangles, coalitions, emotional cutoffs, and enmeshments. Boundaries (open and closed) and subsystems will also be explored and defined with symbols in the genogram.
C.7: models of resilience, optimal development, and wellness in individuals and families across the lifespan	X		CMHC		EDCO 502 Group Development Project: The presentation must include a model of

					<p>coping/resilience specific to the developmental stage.</p> <p>EDMH 602 Genogram: Candidates will explore implications of the client's Genogram for couples or family counseling and theories of individual and family development across the lifespan which would be relevant for application of counseling to support models of resilience, optimal development, and wellness in individuals and families across the lifespan.</p>
C.8: models of psychosocial adjustment and adaptation to illness and disability	X				EDCO 502 Adaptive Learning Case Study assignment: Address models of psychosocial adjustment for the hypothetical client candidate created. Rationalize a learning theory to support continued educational/professional goals.
C.9: the role of sexual development and sexuality related to overall wellness	X				EDCO 502 quiz assignments: After completing readings concerning sexual development over the lifespan, candidates will complete a quiz to assess their comprehension of the content.
C.10: biological, neurological, and physiological factors that affect lifespan development, functioning, behavior, resilience, and overall wellness	X				EDCO 502 Developmental Autobiography assignment: Choose a period of your own lifespan development (i.e., early childhood, middle childhood, adolescence, etc.) and address significant issues and life events that occurred within biopsychosocial and development. b. Utilizing one or a blend of developmental theories (Piaget/Vygotsky/Erikson etc.) presented in your reading (or not mentioned), the paper will present theoretical context specifically related to this period of personal development.

<p>C.11: systemic, cultural, and environmental factors that affect lifespan development, functioning, behavior, resilience, and overall wellness</p>	X	X			<p>EDCO 502 Adaptive Learning Case Study assignment: Address models of psychosocial adjustment for the hypothetical client candidate created. Candidate is responsible to include appropriateness for their cultural considerations. Rationalize a learning theory to support continued educational/professional goals.</p> <p>EDCO 510 Class Differential Diagnosis and Treatment Planning: Candidates are expected to actively engage in guided practice concerning the process of treatment planning protocol to support the desired outcomes of the presenting hypothetical cases with consideration of client uniqueness.</p> <p>EDCO 510 Online Discussion Posts: Require candidates to examine the whole client in rationalizing best practices.</p> <p>EDCO 510 Psychopharmacology Research Presentation: Requires candidates to critique medication appropriateness for client uniqueness.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper: Candidates will develop treatment objectives aligned to client's cultural and developmental considerations.</p>
<p>C.12: the influence of mental and physical health conditions on coping, resilience, and overall wellness for individuals and families across the lifespan</p>	X				<p>EDCO 502 Developmental Autobiography assignment: Choose a period of your own lifespan development (i.e., early childhood, middle childhood, adolescence, etc.) and address significant issues and life events that occurred within biopsychosocial and development.</p>

C.13: effects of crises, disasters, stress, grief, and trauma across the lifespan	X				EDCO 502 Trauma Research Paper assignment: This assignment will provide an opportunity to study Erikson's developmental stage theory and explore the potential impact of a trauma topic approved by the instructor on the psychosocial development at a specific stage of development (an age of your choosing). Candidates should complete an APA (7th ed) style paper on your choice of one of Erikson's Psychosocial developmental stages (Trust vs Mistrust, Autonomy vs Shame and Doubt, Initiative vs Guilt, Industry vs Inferiority, Identity vs Role Confusion, Intimacy vs Isolation, Generativity vs Stagnation, Integrity vs Despair) and the potential effects of a selected trauma topic on healthy development (e.g. death of a loved one, sexual abuse, natural disaster, loss of a loved one at an early age). An emphasis in this discussion should include discussion about how specific crisis events play a part in the traumatic event itself and how crisis/trauma triggers are associated with ongoing mental health issues throughout a person's life.

SSR 3.D Foundational Counseling Curriculum

CAREER DEVELOPMENT

D. CAREER DEVELOPMENT	EDCO 507 Career Development	CMHC: EDMH 606- Clinical Mental Health Counseling Internship II	SC: EDCO 604 School Counseling Internship I: Elementary	Narrative
------------------------------	--	---	--	-----------

D.1: theories and models of career development, counseling, and decision-making	X			EDCO 507 Career Theories Paper: Candidates will evaluate and analyze personal career development using the theoretical perspective of at least three major theorists discussed in class (ex. Holland, Super, Krumboltz, etc.).
D.2: approaches for conceptualizing the interrelationships among and between work, socioeconomic standing, wellness, disability, trauma, relationships, and other life roles and factors	X			EDCO 507 Career Infographic assignment: Candidates will consider a hypothetical client and their unique needs related to careers or work that may present as an issue in a counseling context. They will research the topic and create a tangible product (infographic, brochure, etc.) for your classmates to keep which includes counseling implications and recommendations.
D.3: processes for identifying and using career, avocational, educational, occupational, and labor market information resources, technology, and information systems				EDCO 507 Career Infographic assignment: Candidate will research the topic and create a tangible product (infographic, brochure, etc.) for your classmates to keep which includes resources to support their hypothetical client with careers or work that may present as an issue in a counseling context.
D.4: approaches for assessing the conditions of the work environment on clients' life experiences	X			EDCO 507 Final Project: Career and Culture Assignment: Candidates will include recommendations for additional assessment, evaluation, and research tools.
D.5: strategies for assessing abilities, interests, values, personality, and other factors that contribute to career development	X	CMHC		EDCO 507 Career Assessment Reflection: You Take One, Do One assignment: The candidate will familiarize themselves with taking

				and administering career assessments. EDMH 606 Cover Letter/Resume assignment: Candidates will implement strategies for assessing abilities, interests, values, personality, and other factors that contribute to career development.
D.6: career development program planning, organization, implementation, administration, and evaluation	X			EDCO 507 Final Project: Career and Culture Assignment: Candidates will develop a Career Action Plan, which identifies next steps, suggests client homework, and appropriate goals.
D.7: developmentally responsive strategies for empowering individuals to engage in culturally sustaining career and educational development and employment opportunities	X			EDCO 507 Final Project: Career and Culture Assignment: Candidates will examine hypothetical client multiple complexities and identities different from your own (age, developmental disabilities, acquired disabilities, religion, ethnicity, sexual orientation, socioeconomic status, indigenous group membership, national, and gender) and rationalize evidence-based practice.
D.8: strategies for advocating for employment support for individuals facing barriers in the workplace	X			EDCO 507 Career Infographic assignment: Candidates will identify advocate role when a client presents with career or work related issues.
D.9: strategies for facilitating client skill development for career, educational, and life-work planning and management	X		SC	EDCO 507 Final Project: Career and Culture Assignment: Candidates will apply Super, Krumboltz, and any other theories which might be relevant to the interviewee and give

				<p>evidence to support your suggestions.</p> <p>EDCO 604 Individual Case Study: Candidate will identify strategies to support student client success.</p> <p>EDCO 604 Special Education Project: Candidates will sit in on a review of an IEP or 504 Plan and examine benefits to the student clients implemented.</p> <p>EDCO 604 Family Session: Candidate will complete and reflect on a family session where the interaction helps a student and a family member with communication, grades, or any other school related issue.</p>
D.10: career and postsecondary training readiness and educational decision-making	X			<p>EDCO 507 Final Project: Career and Culture Assignment: Candidates will discuss the interviewees education and/or work experience, mental health considerations, counseling experiences, recreational and leisure interests and activities, and strengths/obstacles related to work.</p>
D.11: strategies for improving access to educational and occupational opportunities for people from marginalized groups	X		SC	<p>EDCO 507 Quiz assignment: Candidates will assess their knowledge of securing educational and work-related opportunities with accounting for cultural implications.</p>

				<p>EDCO 604 Individual Case Study: Candidate will identify strategies to eliminate and/or decrease hardships related to student client experiences with barriers to success.</p> <p>EDCO 604 Special Education Project: Candidates will sit in on a review of an IEP or 504 Plan and examine benefits to the student clients implemented.</p> <p>EDCO 604 Family Session: Candidate will complete and reflect on a family session where the interaction helps a student and a family member with communication, grades, or any other school related issue.</p>
D.12: ethical and legal issues relevant to career development and career counseling	X			<p>EDCO 507 Quizzes: Quizzes are intended to prepare candidates for success with navigating ethical and legal issues associated with educational and career counseling. Questions are intended to mimic credentialing exams (e.g. National Counselor Exam (NCE) and the National Clinical Mental Health Counselor Exam (NCMHCE) for clinical mental health counselors; Praxis and National Certified School Counselor [NCSC] for school counselors).</p>

E.4: consultation models and strategies		X						<p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will have the opportunity to act in the role of counselor, client, and observer to support understanding of the theoretical process for numerous theoretical</p>

								orientations. The observer acts in the role as consultant for their peer counselor in the role play practice.
E.5: application of technology related to counseling	X	X				CMHC	SC	EDCO 501 Informed Consent and Technology assignment: Candidates will create their own informed consent document you can utilize for your fieldwork experience. They will record themselves having their first session with a hypothetical client in which they are verbally reviewing the informed consent with them. They will submit a 2-3-page reflection on this experience to include examination of the informed consent process, use of foundational skills in conducting the session and the experience of technology related to counseling.

								<p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will reflect on application of technology related to counseling (e.g., complete as a telehealth session, recorded with face-to-face session)</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will complete telehealth training to prepare counselors-in-training to provide virtual counseling experiences for their clients.</p>
E.6: ethical and legal issues relevant to establishing and maintaining counseling relationships across service delivery modalities	X					CMHC	SC	<p>EDCO 501 Foundational Counseling Skills Practice Assignment: Candidates will receive feedback throughout their practice and a formal mid-semester supervision session. Candidate will meet with their course instructor for</p>

							<p>supervision to discuss their progress and skill development regarding their work in your role of counselor.</p> <p>EDCO 501 Informed Consent and Technology assignment: Candidates will create their own informed consent document you can utilize for your fieldwork experience. They will record themselves having their first session with a hypothetical client in which they are verbally reviewing the informed consent with them. They will submit a 2-3-page reflection on this experience to include examination of the informed consent process, use of foundational skills in conducting the session and the experience of technology related to counseling.</p>
--	--	--	--	--	--	--	--

								EDMH 601 and EDCO 602: Telehealth training: Candidates will complete telehealth training to address the ethical and legal implications of virtual counseling.
E.7: culturally sustaining and responsive strategies for establishing and maintaining counseling relationships across service delivery modalities	X	X	X			CMHC	SC	EDCO 501 Foundational Skill Biopsychosocial and Progress Note assignment: Candidates are expected to address aspects of cultural identity often relevant to the counseling process (e.g., race, gender, age, class) and invite a discussion with the “client” regarding the impact of identity match or difference during counseling. This assignment's purpose is to formally practice broaching skills and identify areas of growth to become a multiculturally competent and responsive counselor.

								<p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will address how the model is culturally responsive in supporting client 's worldview of wellness.</p> <p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Candidates will substantiate approach fit for client.</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will complete telehealth training to align with desired counseling setting and account for diverse client capabilities and needs.</p> <p>EDMH 601and EDCO 602 Taping Role Plays and Transcript: Candidates will examine best practices</p>
--	--	--	--	--	--	--	--	---

								to support client therapeutic success with accounting for uniqueness of the client.
E.8: counselor characteristics, behaviors, and strategies that facilitate effective counseling relationships	X	X				CMHC	SC	EDCO 501 Foundational Skill Biopsychosocial and Progress Note assignment: Part 2 of the assignment has candidates analyze their recording to identify areas of strength and areas in need of growth. Candidates will identify a minimum of 10 foundational skills used throughout the intake session. Each skill will be examined for effectiveness with the client. If an alternative strategy would have been more effective, this will be identified, and rationale will be provided. Candidates are not expected to be experts during this experience but are required to reflect on the process to support counselor skill growth.

							<p>Candidates will also complete at least a two-page reflection of their experience with this hypothetical client: (a) counselor competence, (b) client-counselor match, (c) transference, and (d) countertransference.</p> <p>EDCO 504 Personal Counseling Theory Integration Paper assignment: Candidates will reflect upon the course content as well as your theory skill practice sessions and supervision experienced and substantiate their personal theoretical orientation with accounting for counselor role implications.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will participate in reflection of personal impact on</p>
--	--	--	--	--	--	--	---

								<p>client therapeutic progression.</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will examine their role within a telehealth counseling setting to support client therapeutic progression.</p>
E.9: interviewing, attending, and listening skills in the counseling process	X	X				CMHC	SC	<p>EDCO 501 Foundational Counseling Skills Practice assignment: During class sessions, candidates will be required to practice foundational counseling skills with hypothetical clients both in role play and in written form.</p> <p>EDCO 501 Foundational Skill Biopsychosocial and Progress Note assignment: Candidates will work with a partner to record yourself in the role of counselor conducting a hypothetical client</p>

								biopsychosocial/intake session EDCO 504 Theory Skill Practice and Supervision assignment: Using the thinking and terminology of the particular theory of therapy, candidates will discuss the major themes/patterns they noticed through the lens of this approach concerning counseling skill implementation. EDMH 601and EDCO 602 Taping Role Plays and Transcript: Candidates will assess role of and effectiveness with foundational skills for client therapuetic progression.
E.10: counseling strategies and techniques used to facilitate the client change process	X	X	X		X	CMHC	SC	EDCO 501 Clients Readiness to Change assignment: Candidates will create a hypothetical client case. and identify where the client is on the readiness to change continuum. Candidates

							<p>will complete a biopsychical for their hypothetical client. Considering the unique needs of the client, you will identify barriers and supports for the client to progress with change. Candidates will also explore their role in facilitating change for the client.</p> <p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will examine what interventions they tried and their outcomes.</p> <p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will explain how the theory identifies how people hurt and how people change.</p> <p>EDCO 505 Scholar-Practitioner Client</p>
--	--	--	--	--	--	--	---

								<p>Assessment, Diagnosis, and Treatment Plan Project: Identify how change will be measured.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Treatment interventions are provided with rationale.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will evidence best practices to support client therapeutic progression.</p>
E.11: strategies for adapting and accommodating the counseling process to client culture, context, abilities, and preferences		X	X		X	CMHC	SC	<p>EDCO 504 Theory Skill Practice and Supervision assignment: Candidates will examine the effects of cultural influences observed to impact this session.</p> <p>EDCO 504 Counseling Theory Presentation</p>

								<p>and Skill Demonstration assignment: Candidates will address how the model is culturally responsive in supporting client 's worldview of wellness.</p> <p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Account for unique client considerations with empirical evidence for effectiveness.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates create and substantiate a treatment appropriate for unique client.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will substantiate alignment</p>
--	--	--	--	--	--	--	--	--

								<p>of approach for the client.</p> <p>EDCO 602 Classroom Guidance Activity and Lesson Plan: Candidates will rationalize the choice of topic with consideration of the student population.</p> <p>EDCO 602 School Counseling Program Presentation: Candidates will analyze program's alignment/appropriateness for the school's needs (i.e., strengths, weaknesses, cultural relevance, ethical, and legal implications, feasibility of delivery to be considered.)</p>
E.12: goal consensus and collaborative decision-making in the counseling process		X	X		X	CMHC	SC	<p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will identify key interventions for the theory and their intended purpose.</p>

								<p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Examine client role in treatment planning process.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates will match the treatment objectives to the client's desired outcomes.</p> <p>EDMH 601 and EDCO 602 Taping Role Plays and Transcript: Candidates will examine client role in treatment planning.</p>
E.13: developmentally relevant and culturally sustaining counseling treatment or intervention plans			X		x			<p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: Develop treatment plan goals supportive of client success.</p>

							<p>EDCO 510 Class Differential Diagnosis and Treatment Planning: Candidates will experience guided practice concerning the process of differential diagnosis while considering the uniqueness of each client to substantiate best practice with treatment.</p> <p>EDCO 510 Psychopharmacology Research Presentation assignment: Candidates will examine developmental and culturally appropriate medication management within the treatment plan.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates rationalize intervention effectiveness for specific client considerations.</p>
--	--	--	--	--	--	--	--

E.14: development of measurable outcomes for clients			X				SC	<p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: develop SMART goals within the treatment plan.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates develop measurable treatment goals for the client.</p> <p>EDCO 602 Classroom Guidance Activity and Lesson Plan: Candidates will develop student outcomes related to their topic accounting for student capability for the activity.</p>
E.15: evidence-based counseling strategies and techniques for prevention and intervention		X	X		X			<p>EDCO 504 Counseling Theory Presentation and Skill Demonstration assignment: Candidates will explain how the theory was created and with what purpose. Examination of how</p>

								<p>the interventions support the purpose occurs.</p> <p>EDCO 505 Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project: substantiate the effectiveness with the prevalence of the population.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidate explains appropriate application of psychodynamic techniques and practices for the diagnosis presented, and supports this explanation with evidence from scholarly literature.</p> <p>EDMH 601 Taping Role Plays and Transcript: Candidates will provide rationale</p>
--	--	--	--	--	--	--	--	---

								for approach with the client supporting therapeutic success.
E.16: record-keeping and documentation skills	X					CMHC	SC	<p>EDCO 501 Clients Readiness to Change assignment- Part 4: Based on the intake, candidates will create a progress note (e.g., SOAP, DAP, BIP, BIRP) to document their session with their hypothetical client session.</p> <p>EDMH 601 and EDCO 602 Telehealth Training: Candidates will examine implications related to documentation for telehealth.</p>
E.17: principles and strategies of caseload management and the referral process to promote independence, optimal wellness, empowerment, and engagement with community resources	X							EDCO 501 Clients Readiness to Change assignment- Part 4: Candidates will be expected to identify a minimum of one possible referral and provide rationale for supporting client empowerment and wellness.
E.18: classification, effects, and indications of commonly					X			EDCO 510 Psychopharmacology Research Presentation

prescribed psychopharmacological medications								<p>assignment: Candidates will examine medication management options to treat diagnosis with consideration of strengths and weaknesses.</p> <p>EDCO 510 Psychopathology Case Study and Diagnosis Paper assignment: Candidates will examine <u>commonly prescribed psychopharmacological medication supportive of treatment goals if needed/desired (e.g. classification, effects, purpose).</u></p>
E.19: suicide prevention and response models and strategies				X				<p>EDCO 506Crisis/Trauma Counseling Practice, Supervision, and Reflection: Candidates will complete real-time practice of hypothetical clients presenting with trauma and/or in crisis. Candidates will learn to differentiate the symptomology and select appropriate</p>

								<p>assessments to discern the symptomology experienced by clients. Formal and informal assessments will be administered (e.g. non-suicidal injury, SLAP). Ethical and legal implications will be examined concerning the case. Scopes of practice will be explored (e.g. CMHC/SC) along with continuum of care implications (e.g. referrals, follow-up, after-care) for school and community settings.</p> <p>EDCO 506 Suicide Training: Candidates will complete Suicide Training and reflect on the content for application in their desired counseling role.</p> <p>EDCO 506 Mental Health Crisis/Trauma Responder Interview: Candidates will conduct an interview with a mental health</p>
--	--	--	--	--	--	--	--	--

								provider who works with clients who have experienced trauma. Candidates will seek understanding of the approach and its effectiveness with the interviewee uses with their clients.
E.20: crisis intervention, trauma-informed, community-based, and disaster mental health strategies				X				<p>EDCO 506 Crisis/Trauma Counseling Practice, Supervision, and Reflection: Students will gain experience transitioning from traditional counseling sessions to assessment mode for supporting client stabilization with hypothetical clients.</p> <p>EDCO 506 Mental Health Crisis/Trauma Responder Interview: Candidates will conduct an interview with a mental health provider who works with clients who have experienced trauma. Candidates will seek understanding of the rationale concerning</p>

								the strategies' used at the site.
E.21: processes for developing a personal model of counseling grounded in theory and research		X				CMHC		<p>EDCO 504 Personal Counseling Theory Integration Paper: This paper should be comprehensive and address the candidate's 1) philosophy of humanity and how individuals and/or systems change, 2) theory(ies) of counseling, 3) goals as a counselor, 4) techniques to facilitate obtaining goals and corresponding theoretical justification, 5) a philosophy for counseling diverse clients, 6) personal and professional qualities that may add to or detract from one's effectiveness as a counselor, and 7) plans for future growth.</p> <p>EDMH 601 Theory of Change Discussion: Candidates will how their view of human</p>

								nature impacts their theoretical orientation .

RESEARCH AND PROGRAM EVALUATION

H. RESEARCH AND PROGRAM EVALUATION	EDCO 509 Research and Program Evaluation	EDMH 606- Clinical Mental Health Counseling Internship II	EDCO 605 School Counseling Internship II: Secondary	Narrative
H.1: the importance of research in advancing the counseling profession, including the use of research to inform counseling practice	X			<p>EDCO 509 Research Project: Candidates will present research relevant to the counseling profession to support best practices.</p> <p>EDCO 509 Journal article critique: Critiques will address the relevance of research to the counseling profession.</p>
H.2: identification and evaluation of the evidence base for counseling theories, interventions, and practices	X		SC	EDCO 509 Journal article critique: Critiques will address the relevance and applicability of this article to inform counseling practice.

				<p>EDCO 509 Evidence-Based Topic Literature Review: Candidates will complete a literature review examining an original topic of interest in counseling.</p> <p>EDCO 606 Individual Case Study Presentation: Candidates will evaluate effective approaches that align with the uniqueness of their clients and their symptomology for analysis of fit with their client.</p>
H.3: qualitative, quantitative, and mixed methods research designs	X			<p>EDCO 509 Research Project: Candidates will introduce research purpose, questions, and design are mutually supportive and coherent.</p> <p>EDCO 509 Journal article critique: Critiques will address methodology used in research to inform outcomes.</p>
H.4: practice-based and action research methods	X			<p>EDCO 509 Research Project: Candidates will present procedures that generate valid and reliable data to support counseling advancement.</p> <p>EDCO 509 Journal article critique: Critiques will address outcomes of the research to support the profession.</p>
H.5: statistical tests used in conducting research and program evaluation	X			<p>EDCO 509 Research Project: Candidates will substantiate appropriate data collection measures.</p> <p>EDCO 509 Journal article critique: Critiques will address how the research was conducted.</p>
H.6: analysis and use of data in research	X	CMHC		<p>EDCO 509 Research Project: Candidates will substantiate appropriate data analysis procedures.</p> <p>EDCO 509 Journal article critique: Critiques will address the data collected and the purpose of analysis.</p> <p>EDMH 606 Case Conceptualization Presentation and Session Analysis: Candidates will complete research to rationalize best practices with their unique clients</p>

				and their symptomology to support development of an evidence-based treatment plan.
H.7: use of research methods and procedures to evaluate counseling interventions	X	CMHC	SC	<p>EDCO 509 Research Project: Candidates will substantiate methodology to assess research interventions.</p> <p>EDCO 509 Journal article critique: Critiques will address how the results implicate counseling best practices.</p> <p>EDMH 606 Case Conceptualization Presentation and Session Analysis: Candidates will complete research to evaluate appropriate interventions to support client success with goal attainment.</p> <p>EDCO 605 Individual Case Study Presentation: Candidates will complete research to evaluate appropriate interventions to support student client success with goal attainment.</p>
H.8: program evaluation designs and procedures, including needs assessments, formative assessments, and summative assessments to inform decision-making and advocacy	X			EDCO 509 Research Project: Candidates will examine how results will impact future considerations in the counseling field.
H.9: culturally sustaining and developmentally relevant outcome measures for counseling services	X			EDCO 509 Research Project: Candidates will analyze cultural implications of results.
H.10: ethical and legal considerations relevant to conducting, interpreting, and reporting the results of research and program evaluation	X			EDCO 509 Research Project: Candidate asks a question about a specific situation or problem/topic requiring analyzation, synthesize, and/or evaluation accounting for ethical and legal parameters.

				EDCO 509 CITI Training: Candidates will complete the online CITI training for research with human subjects. This training provides ethical training for researchers conducting, or planning to conduct, biomedical or social-behavioral-educational human subjects research.
H.11 : culturally sustaining and developmentally responsive strategies for conducting, interpreting, and reporting the results of research and program evaluation	X			EDCO 509 Research Project: Candidates will present research Information In an organized, clear, and logical way supportive of audience understanding.

B5. Planned use of assessment results to improve candidate and program performance.

The Counselor Education program will analyze data each semester to assess student performance and needed changes for coursework. Data from the Praxis II exam and key assessments allow faculty to identify areas of content strength and weakness in candidates' speaking and content knowledge; this information allows faculty to determine which areas to focus on in the methods course and to watch while observing candidates during their teaching.

Additionally, the data will provide the faculty with opportunities to review candidates' performance as it relates to pedagogical practices, delivery of counseling services, planning, and content knowledge. Because many of these assessments occur in the semester prior to internship or during internship, they allow faculty to assess candidates' development as professionals and their readiness to enter the classroom. If a candidate is not performing at the expected levels on these key assessments, faculty can intervene and work with them to provide additional support, so they may improve their practices. Additionally, examining the data enables faculty to identify areas of strength and weakness across each program, so that they can adjust their instruction to better meet candidate needs. Assignments such as the Assessment Project ensure that candidates understand diagnostic and screening tools used in counseling education, how to interpret data, and ways to use the data to make decisions for students and their families.

By tracking the data over time, the faculty can look at trends in data and to disaggregate data not only by content area of focus, but also by candidate demographics. Looking at these data allows faculty to assess their own practices and ensure they are using equal scoring approaches across diverse student populations. Analyzing subgroup data and engaging in yearly training to reflect on their own practices, enables opportunities to ensure that faculty are scoring work appropriately for all candidates.

Dr. David A. DeCenzo
President
Coastal Carolina University
642 Century Circle
Conway, SC 29526

Dear Dr. DeCenzo:

The Accreditation Council of the Council for the Accreditation of Educator Preparation (CAEP) met on April 27, 2020, and I am pleased to inform you that the following accreditation status has been granted:

The William L. Spadoni College of Education at Coastal Carolina University is granted **Accreditation** at the initial-licensure level and advanced-level as described in the Accreditation Action Report.

Included with this letter are two subsequent documents:

- 1) The Accreditation Action Report provides details of the accreditation status.
- 2) Information for EPPs Granted Accreditation provides further information on the Council's decision process and provider responsibilities during the accreditation term.

Congratulations on your accreditation achievement. I appreciate your commitment to excellence in educator preparation accreditation.

Sincerely yours,

A handwritten signature in black ink that reads "Christopher A. Koch". The signature is written in a cursive, slightly stylized font.

Christopher A. Koch, Ed.D.
President

Enclosures: Accreditation Action Report, Certificate of Accreditation (mailed to provider leadership), and Information on CAEP Accreditation

Key Assessments 1-15

1. EDCO 500 Professional Counseling Orientation and Ethical Practice (3 credits)

Ethical Dilemmas and Counselor Welfare (30%)***Key Assessment***

CACREP (2024) III. A.1--8,10-12

CMHC: CACREP (2024) V. C. 2-3,6-8

SC: CACREP (2024) V. H. 3,6,10

SCTS 4.0 (School Counselors): Professionalism.1-2;5

NBPTS (School Counselors): II, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

For this assignment, candidates will select one ethical dilemma from a list provided to you from your instructor and select one ethical decision-making model to resolve the ethical dilemma. Be sure to clearly identify and describe the model used. The assignment will be divided into three parts.

Part 1: Candidates will identify the ethical dilemma and the model being applied. Reasoning for the appropriateness of the model for the dilemma will be supported with scholarly resources.

Part 2: Discuss what actions you would take in the role of counselor-in-training under supervision as you proceed through the steps of your selected model. Be sure to provide an adequate response to each step and include outside references in determining/identifying the issues. Describe what ethical and/or legal issues are apparent, which ethical codes may be in violation, and what you might do given that scenario. Be sure to use state law and ethical codes to guide your efforts in resolving the ethical dilemma. Remember you are not treatment planning for the client but making decisions based on what you, as the counselor-in-training, know at this point.

Part 3: The counselor role can be challenging at times. It is important to be able to process to avoid experiences with compassion fatigue, burnout, and vicarious trauma. Counselors are responsible for addressing any impairments which can negatively impact client welfare (ACA, 2014, C.2.g.). Based on the case you selected, address two personal values/opinions needed to be considered to support best practices with and for the client in the case explored? Explain two strategies you can use to prevent influencing your work with the client. Explore how professional counseling organizations and credentialing processes can support efforts. Lastly, to promote your longevity in the field, identify a S.M.A.R.T. self-care goal for yourself to combat burnout, compassion fatigue, and vicarious trauma.

Paper requirements: This must be written using APA 7th edition formatting and be 5-6 pages in length, not including references and title page.

NBPTS (School Counselors): XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

This assignment consists of four parts. The first part will require a partner and the second and third parts are independent work.

Part 1: Candidates will work with a partner to record yourself in the role of counselor conducting a hypothetical client biopsychosocial/intake session. Your partner will act in the role of hypothetical client. Candidates are expected to address aspects of cultural identity often relevant to the counseling process (e.g., race, gender, age, class) and invite a discussion with the “client” regarding the impact of identity match or difference during counseling. This assignment's purpose is to formally practice broaching skills and identify areas of growth to become a multiculturally competent and responsive counselor.

Part 2: Candidates will analyze their recording to identify areas of strength and areas in need of growth. Candidates will identify a minimum of 10 foundational skills used throughout the intake session. Each skill will be examined for effectiveness with the client. If an alternative strategy would have been more effective, this will be identified, and rationale will be provided. Candidates are not expected to be experts during this experience but are required to reflect on the process to support counselor skill growth. Candidates will also complete at least a two-page reflection of their experience with this hypothetical client: (a) counselor competence, (b) client-counselor match, (c) transference, and (d) countertransference. Candidates will examine the importance of broaching the of culture during counseling and identify their personal areas of strength and areas in need of growth for broaching culture with clients.

Part 3: Candidate will meet with their course instructor for supervision to discuss their progress and skill development regarding their work in your role as counselor (not about their role as a client). The supervision session will last approximately 15 minutes. You will bring 2 with you to the supervision session.

Part 4: Based on the intake, you will create a progress note (e.g., SOAP, DAP, BIP, BIRP) to document their session with their hypothetical client session. Candidates will be expected to identify a minimum of one possible referral and provide rationale for supporting client empowerment and wellness.

3. EDCO 502 Lifespan Development (3 credits)

Trauma Research Paper **(25%)

CACREP (2024) III.A.2-3,8,10; C. 1-13; E.19-20; G13-14

CACREP (2024) V.C.1-2,4,8

CACREP (2024) V.H.9,11-12,15-16,19

SCTS 4.0 (School Counselors): Direct Services.1-2; Professionalism.3

NBPTS (School Counselors): III, IV, IX

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Current researchers of human development are learning that trauma plays a much more significant role than thought previously in terms of healthy identity development and coping skills. In fact, much of the DSM-5-TR includes considerations about the link between traumatic experiences and the development of psychological disorders, symptoms, and associated life issues (e.g., relationships, learning). This assignment will provide an opportunity to study Erikson's developmental stage theory and explore the potential impact of a trauma topic approved by the instructor on the psychosocial development at a specific stage of development (an age of your choosing). Candidates should complete an APA (7th ed) style paper on your choice of one of Erikson's Psychosocial developmental stages (Trust vs Mistrust, Autonomy vs Shame and Doubt, Initiative vs Guilt, Industry vs Inferiority, Identity vs Role Confusion, Intimacy vs Isolation, Generativity vs Stagnation, Integrity vs Despair) and the potential effects of a selected trauma topic on healthy development (e.g., death of a loved one, sexual abuse, natural disaster, loss of a loved one at an early age). An emphasis in this discussion should include discussion about how specific crisis events play a part in the traumatic event itself and how crisis/trauma triggers are associated with ongoing mental health issues throughout a person's life. Candidates must study Erikson's theory in at least 3 (three) scholarly resources (including the course text) and do extensive research on their chosen topic of a traumatic experience in at least 3 (three) scholarly sources. Discussion about the impact of said trauma on the development of someone in the chosen stage of development will be written from the candidate's ideas and beliefs as a result of a thorough review of professional literature. Note: this is not an assignment for personal disclosure about candidate's individual experiences. The chosen topic of a traumatic experience should be based on candidates' future work with clients/students.

Summary of Aspects to be Addressed:

- a. Erikson's stage of choice
- b. Traumatic event
- c. Crises involved during the event and crisis triggers during lifelong mental health challenges
- d. Impact of trauma on development
- e. Counselor role
- f. Summary

Cultural Immersion Impact **(30%)

CACREP (2024) III.B. 1-6,10-11, C.12, E.1,7,13

CACREP V.C.3

CACREP V.H.11,19

SCTS 4.0 (School Counselors): Professionalism.2

NBPTS (School Counselors): V, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Each candidate will complete one cultural immersion exercise where you will immerse and engage with the population of your choice and write an impact paper about the experience and present to your class concerning your reflections with special focus on educating best-practices for this culture.

Part 1: Complete one cultural immersion exercise.

Part 2: Your final paper must be 6 double-spaced pages. For this assignment, you are asked to purposely put yourself in a situation to encounter self-reflection. We will discuss more in class about how to find an event to attend, and what makes a good event for this assignment. A suggested list of potential events will be provided. After you complete your immersion exercise, please summarize your insights by addressing the following in your paper:

- a. What event did you attend and what subcultural group did you choose to focus on?
- b. What happened at the event (in detail)? Were you an observer, an information seeker, a participant?
- c. Using journaling techniques, reflect on the situation. Talk about how your thinking was challenged. Describe any transformations that took place because of the experience. Specifically, in what areas did you critically reflect?
- d. Describe how the values and beliefs that comprise this situation are different than yours. Which of those preconceived ideas are now open to re-interpretation and why?
- e. How is your thinking impacted? How did you critically reflect on the ideologies?
- f. Revisit your worldview. Where do the values and beliefs align/differ from yours? What have you learned about yourself and this subgroup now that the immersion is over?

Part 3: Candidates will conduct a 10–15-minute class presentation about their immersion experience and summarize what they have learned from the experience. Candidates will identify historical and/or current issues impacting culture stereotypes and the effects of stereotypes. Candidates will apply a multicultural theory to highlight counselor cultural competence for this culture. Candidates will highlight advocacy efforts for this culture by highlighting researched strategies to support elimination of barriers, prejudices, and processes of intentional and unintentional oppression and discrimination. Apply guidelines developed by professional counseling organizations related to social justice, advocacy, and working with individuals with diverse cultural identities.

NBPTS (School Counselors): II-IV, X-XI

**To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.*

Candidates will receive a partner to present a theory to the class, through Power Point or other multimedia (30-40 minutes). The presentation must include the following:

- a. Who founded/created it? Where was it created?
- b. What need did it fill? (Why was it created/differ/expanded on from other theories?)
- c. When did it come about and what was going on in the world?
- d. What are the Key concepts / Key words
- e. How does the theory explain why people hurt and how people change?
- f. Review key interventions for the theory and their intended purpose
- g. Address how the model is culturally responsive in supporting client 's worldview of wellness
- h. Five-minute demonstration of theoretical counseling skills with a hypothetical client (partner 1: counselor; partner 2: hypothetical client; must introduce the hypothetical client identifying information and purpose for seeking counseling)
- i. An interactive activity/ quiz/ discussion points/ reflection questions
- j. Attach a handout or cheat sheet summarizing main points about theory (1-2 pages)

6. EDCO 505 Assessment and Diagnostic Process (3 credits)

Scholar-Practitioner Client Assessment, Diagnosis, and Treatment Plan Project (60%)**

CACREP (2024) III.A.11; E.1-2,7,10-15; G.1-17

CACREP (2024) V.C.1,4-5

CACREP (2024) V.H.11-19

SCTS 4.0 (School Counselors): Direct and Indirect Services.1-2; Professionalism.2-3NBPTS (School Counselors): II-IV, IX, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

This assignment requires five parts with three separate due dates: (1) selecting and reviewing a movie (see Appendix A), (2) complete an assessment of the character chosen from the movie, (3) establish client diagnosis(es), (4) create a treatment plan for the client, (5) personal reflection for completing the project.

Part 1: Movie (0%)- Due XX/XX/XX

CACREP (2024) III. G.16

Candidates will select a character from a movie (see Appendix A) to serve as the basis for a comprehensive case study. Select and review movie by due date to support time management for remainder of project components.

Part 2: Assessment (40%)- Due XX/XX/XX

CACREP (2024) III.G.2-10

Candidates will use what they know of this character to construct:

- Presenting problem
- Biopsychosocial history
- Mental status report
- Select assessment to support understanding of client symptomology for support of diagnosis and determining an evidence-based treatment plan. Each candidate will choose a test and conduct a review of the literature critical analysis to determine the test's psychometric properties, strengths, and weaknesses. The strengths and weaknesses sections must be a minimum of three combined pages of text. Appropriateness for the population you desire to serve must be examined. A sample review will be provided. The purpose of this project is to focus and integrate the concepts covered in class. The grade for this project will reflect the comprehensiveness of the review, application, and integration of information and clarity of professional writing style. Citations and references must adhere to APA style. Your assignment must include a references section. An outline of essential information to be included and a sample review is included below.

TEST REVIEW PROJECT OUTLINE

- Title, acronym, author(s), publication date, publisher, price, computer scoring software available:

GENERAL INFORMATION

- Primary constructs assessed, test purpose, administration type, population/range, time required to administer, score, and interpret,

interpretive scores derived, subtest (subscale) format, item/scoring format, and qualifications of examiners

GENERAL ADMINISTRATION AND SCORING PROCEDURES NORMATIVE INFORMATION

- Type of norms, age/grade of participants, sex of participants, dates of standardization, number of participants in sample, sample characteristics, geographic composition, racial composition, socioeconomic composition, availability of subgroup norms:

RELIABILITY

- Internal consistency, test-retest, alternate-form, scorer reliability

VALIDITY

- Content validity, criterion-related validity, construct validity

GENERAL EVALUATION

- Ethical and multicultural considerations, special merits and strengths of the test, criticisms and limitations of the test, personal recommendation – do you think you would use this test in your future work? Why or why not?

REFERENCES

Part 3: Differential Diagnosis (20%)- Due XX/XX/XX
CACREP (2024) III.G.11-12

You will present the diagnostic criteria for your client in written form; should be 4 to 6 pages in length, APA Style, and uses scholarly sources to substantiate the differential diagnosis. Please refer to DSM-5 for specific guidelines. Provide the criteria used to reach your diagnostic, including descriptions of the simulated client's signs and symptoms to support your clinical decision. Discussion of differential diagnosis is needed; please refer to DSM-5 for a list of alternative diagnosis. Discuss and provide evidence that eliminates all the alternative diagnosis for this disorder presented in the DSM-5 manual. All data included in the report must be written using professional language, based on evidence provided in the media source, and supported with a sound clinical rationale. Candidates are encouraged to consider and document multiple sources of information (e.g., client report, collateral report, observation). When information is not available, the candidate should indicate that additional information is needed and propose methods for gathering such information. Evidence of differential diagnosis should be provided.

Part 4: Treatment Plan (30%)- Due XX/XX/XX
CACREP (2024) III.E.1-2,7,10-15; G.7,17

You will develop a evidence-based treatment plan for your client and provide Justification. The treatment plan will include the development of 1 Problem, S.M.A.R.T. Goal, Objective, and Intervention sequence. You will complete a two-three page APA formatted paper supporting how your treatment plan is evidence-based,

culturally competent, and in accordance with professional ethics and state law. This section is an opportunity for you to offer challenges to the diagnosis you proposed in part 3. I am interested in any alternative explanations of the client's symptoms, especially those that do not fit in the medical model/DSM philosophy. The following are questions may get you started and guide you in this section.

- What is your client's assessment of the presenting concerns? Does he/she believe he/she has a "mental disorder?"
- In what ways does your client differ from the DSM criteria? For example, what are some behaviors that contradict the diagnosis you selected?
- How might the client's gender/cultural background/sexual orientation affect his or her diagnosis and treatment plan?
- What historical-social-political-cultural-familial-religious issues do you need to consider before applying this diagnosis and developing the treatment plan? Are there any alternative explanations for the client's behavior, taking into account these contextual factors?

Candidates should support rationale for treatment plan choices by incorporating data from at least six scholarly sources (e.g., DSM-5, treatment manual, journal article).

Part 5: Reflection (10%)- Due XX/XX/XX

CACREP (2024) III.A.11; G.1

The final portion of the project will require you to reflect on the project experience to support awareness for avoiding imposing personal values, opinions, and beliefs on your work with your client and promote professional identity development. Apply historical perspectives concerning the nature and meaning of assessment and testing in counseling and what this means for you in your role today and moving forward. This paper should be submitted in first person and 2-3 pages in length.

**To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.*

For this final project, you will assist in career development for an individual. First, select a client:

- CMHC candidates will select an individual who is between the ages of 18-30, who has recently experienced a career change.
- SC candidates will select an individual who is between 8-18, who is seeking support in making a choice with taking a hobby/interest/co-curricular experience more serious and considering as a probable future career path. Guardian permission is assumed in this case.

The individual selected must have multiple complexities and identities different from your own (age, developmental disabilities, acquired disabilities, religion, ethnicity, sexual orientation, socioeconomic status, indigenous group membership, national, and gender). DO NOT use a family member, close friend, or someone with whom you have a dual relationship with. You will write a 6-8 page paper including the following topics:

- Discuss the interviewees education and/or work experience, mental health considerations, counseling experiences, recreational and leisure interests and activities, and strengths/obstacles related to work.
- Identify the gender, cultural, ethical considerations, and personal issues that might impact the interviewee in his/her career.
- Theorize your interviewee's Holland Code or MBTI preference and give evidence to support to your theory.
- Apply Super, Krumboltz, and any other theories which might be relevant to the interviewee and give evidence to support your suggestions.
- Develop a Career Action Plan, which identifies next steps, suggests client homework, and appropriate goals. Include your recommendations for additional assessment, evaluation, and research tools.
- Critique the interview process, including a self-evaluation of your comfort with the process. What worked? What did not? What would you change?

8. EDCO 508 Group Counseling and Group Work

Group Proposal (30%)**

CACREP (2024) III. F.1-9

CMHC: CACREP (2024) V.A.11; C.2; F.10

SC: CACREP (2024) V.H.5,12-13,15

SCTS 4.0 (School Counselors): Program Planning.1-3; Program Management 1-2; Direct and Indirect Services.1-2; Professionalism1-4

NBPTS (School Counselors): III-IV, IX-XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Candidates will write a proposal for a psychoeducational/counseling group with a specific population (e.g., young boys/parental divorce, adolescent girls/bullying, college students/test anxiety, older adults/retirement planning). This proposal should be written in APA format and the body of the paper must be five to six (5-6) pages in length (This does not include title page, abstract, resources, references). Group proposals must be approved by the instructor prior to initiating group practicum. In addition, your proposal should include the following sections.

1. Title Page
2. Abstract
3. Type of Group (e.g., psychoeducational, open/closed)
4. Population
5. Modality (e.g., in-personal, virtual/telehealth)
6. Pre-Group Activities (needs assessment, site approval, recruiting, screening, consent, ethical and legal implications)
7. Rationale, Goals, and Objectives
8. Theoretical Orientation and Developmental Theory; include exploration of role of the group leader/facilitator
9. Rights and Expectations of Group Members
10. Basic Ground Rules
11. Unit Outline and Topics for Six [6] Group Sessions
12. Evaluation and Follow-Up
13. Counselor Development for this Proposal
13. References and Resources

10. EDCO 510 Diagnostics of Psychopathology for Counselors

Psychopathology Case Study and Diagnosis Paper **(20%)

CACREP (2024) III. C.11; E.1,10-15,18; G.5-9,11-12,16

CMHC: CACREP (2024) V. C.1,4-5

SC: CACREP (2024) V. H. 11-15

SCTS 4.0 (School Counselors): Direct and Indirect Services. 1-2; Professionalism.1,3,5

NBPTS (School Counselors): II-VIII, IX, XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Psychopathology refers to the study of mental disorders in terms of their causes, development, course, classification, and treatment for maladaptive personality traits. Each candidate will select from one of the presented case studies. The candidate will then prepare a diagnostic summary and treatment plan. The paper will be 5-6 pages, following APA style. At least three peer-reviewed sources, from the last 5 years, must be included. The paper must include the following:

- a. Identify one diagnosis you find interesting, want to know more about, or hope to work with future clients with.
- b. Include a summary of the diagnosis, in depth, with one theoretical view of the etiology and treatment
- c. Assessment techniques used to reach diagnostic conclusion appropriate for desired future counseling population (consider ethical and legal implications)
- d. Treatment objectives with a treatment plan (with cultural and developmental considerations given).
- e. Interventions supported with rationale
- f. Examination of one commonly prescribed psychopharmacological medication supportive of treatment goals if needed/desired (e.g. classification, effects, purpose)
- g. Prognosis

11. EDCO 602 Elementary & Secondary School Counseling Strategies (3 credits)

School Counseling Program Presentation* (20%)

CACREP (2024) III.A.2-4, 9; D.10-11; H.2,7-8; E.11

CACREP (2024) V.H.2, 4-6,15,19

SCTS 4.0 (School Counselors): Planning. 1-3; Program Management.1-2; Direct and Indirect Services. 1-2; Professionalism. 1-5

NBPTS (School Counselors): I-III, V-VI, IX

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Working in groups (minimum of 2 and maximum of 3), candidates are to design a presentation reviewing a curriculum program used in schools. Examples include: Green Dot, Kelsoe's Choice, Reconnecting Youth, Second Step, Speak Up Be Safe, Steps to Respect, Too Good for Drugs, Signs of Suicide, etc. The audience should be presented with an overview of the program including aspects such as: the name, year developed, topic, population/grade level, number of lessons, cultural relevance, feasibility of delivery, affordability, training requirements, role of the counselor and understanding of employability, evidence of effectiveness, etc. The length of the presentation should be 30 to 45 minutes – use of visuals and class involvement is highly recommended. Groups must email a complete presentation (use a visual modality such as PowerPoint or Prezi) to the instructor at least 24-hours in advance to ensure materials are received and can be used appropriately. Groups will be graded for the most part as a whole group, but 5 points are specific to each individual's ability to professionally present within the group.

Special Population Research Paper **(20%)

CACREP (2024) III.A.4;B.1-7; E.11

SC: CACREP (2024) V.H.6, 11-15,19

SCTS 4.0 (School Counselors): Direct and Indirect Services.1-2; Professionalism.1,3

NBPTS (School Counselors): III, IV, V, X

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Compose a paper (5-6 pages) on working with a specific population of students present in schools today. The paper should briefly describe the difficulties of students from this population of schools. The bulk of the paper should focus on specific interventions designed to meet the needs of these students at their corresponding developmental levels (e.g., elementary versus secondary) and how school counselors can help these students. This paper should be APA style and must include at least 3 peer-reviewed references. You must discuss your choice of population with the instructor. Some of these specific populations are: abused children, ADHD, the slow learner, gifted and talented children, children with reading difficulties, siblings of handicapped children, children of divorce, children living in poverty, children of alcoholics, anxious children, children of single-parent households, etc.

14. School Counseling Fieldwork
EDCO 604 School Counseling Internship I: Elementary
EDCO 605 School Counseling Internship II: Secondary

Included in EDCO 603 School Counseling Practicum. Must have an 80% or higher in field experience courses to progress to the next stage, however, only a key assessment during the internship phases, Internship I and Internship II.

Summative Evaluation (40%)**

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 1-19

SCTS 4.0 (School Counselors): Planning. 1-3; Program Management.1-2; Direct and Indirect Services.1-2; Professionalism.1-5

NBPTS (School Counselors): I- XI

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

(a) South Carolina DOE Summative School Counseling Evaluation (20%)

South Carolina requires a summative evaluation of school counseling candidates to be completed.

Please see: <https://ed.sc.gov/educators/educator-effectiveness/adept-for-special-areas-2020/rubric-for-school-counselors/>

(b) Faculty Supervisor Evaluation Addendum (10%)

During each semester of your fieldwork experience, you will be evaluated by your faculty supervisor regarding your preparedness for endorsement as graduate degree level clinical mental health counselor. Your professionalism, competence, and skills as a professional counselor will be assessed (e.g., cultural competence, self-awareness, clinical skill effectiveness).

SEE APPENDIX A

(c) Site Supervisor Evaluation Addendum (10%)

During each semester of your fieldwork experience, you will be evaluated by your site supervisor regarding your preparedness to join your supervisor as a colleague in the counseling field as a clinical mental health counselor. Your professionalism, competence, and skills as a professional counselor will be assessed (e.g., cultural competence, self-awareness, clinical skill effectiveness) in relation to your work with clients at their site under their supervision.

SEE APPENDIX B

APPENDIX A
**FACULTY SUPERVISOR EVALUATION OF CANDIDATE FORM
(School Counseling)**

General Information:

- The primary supervisor completes this form both at midterm and at the end-of-the semester internship experience. If the candidate has more than one supervisor at the same site, the supervisor with the most contact with the candidate should complete the evaluation after consulting with the other supervisors. If the candidate has a supervisor at two or more different sites, each site supervisor will need to complete and the scores will be averaged.
- This completed form is submitted by the site supervisor to Handshake for the appropriate rotation by specified due dates for the semester field experience. The faculty supervisor/course instructor, reviews and then submits the end of semester evaluation into the gradebook become part of the candidate's record in the candidate's practicum/internship file.
- This supervisor evaluation is considered in assigning grades for the internship.
- Please be sure to discuss your evaluation with your candidate during supervision. They will be asked to be prepared to reflect on their rating with their faculty supervisor/course instructor.
- Your time and careful evaluation are very important and much appreciated. Thank you!

Candidate Name:

Date of Evaluation:

This is the: Mid-Term Evaluation ____ Final Evaluation ____ (check one)

Faculty Supervisor:

Internship Rotation: (drop-down menu; select one) Practicum, Internship 1, Internship 2

Please indicate the type of review done with the student, during group supervision and/or courseroom tasks, as well as specify the number of sessions you observed:

____ I reviewed recordings of candidate's sessions. ____ Number of sessions reviewed.

____ I reviewed transcripts of candidate's sessions. ____ Number of sessions reviewed

Instructions for Completing the Candidate Counseling Skills and Competencies

Sections:

Supervisor feedback is a critical component of candidate development and evaluation. This form organizes candidate counseling performance into four general areas: Professional Work Requirements, Professional Ethics and Behaviors, Counseling Knowledge and Skills, Learning Behaviors and Self-Care, and Professional Dispositions.

Specific aspects of each area will have descriptions (rubric) of five levels of student performance:

Points Associated with Level	Rubric Descriptor
0	the candidate was Unable to Perform/Not Met (<i>if candidate receives this score during internship 2; candidate will automatically need to repeat the course</i>)
1	the candidate has Deficient (<i>does not meet criteria for program level</i>)

2	the candidate is still Developing (<i>meets criteria minimally or inconsistently for program level</i>)
3	the candidate Meets Expectations (<i>meets criteria consistently at this program level</i>)
4	the candidate Exceeds Expectations (<i>exceeds criteria at this program level</i>)

At each point in the candidate's rotation, they should be scored in accordance to their experience. For instance, a practicum candidate, first field experience of a master's level counseling candidate, should be scored in accordance. Therefore, do they meet the expectations expected of where they are in their training program. The rubric should not be used as a means of comparison to those in the field (e.g. post-master's degree, LAC, LPC). Developing skills and competencies in counseling takes time. In practicum we anticipate that candidates will progress from "not meeting expectations" to the "developing" and sometimes "meeting expectations" levels of performance. But there may be some areas where you are considering the intern to have exceeded the expectations for where they are at in their training program (i.e. practicum experience). In internship the candidates should progress to levels of "meeting expectations" and "exceeding expectations" as we are looking to soon welcome candidates as graduates to become colleagues in the field. However, once again, the score should be relative to their current training experience (i.e. practicum, internship 1, internship 2).

In Sections 1-4, please check which one of the five levels of performance detailed in the following boxes best describes your practicum/internship candidate's abilities. There is also space for comments if needed. Please think of these groupings as 'skill sets,' and indicate (by checking the box) which level of description best describes the candidate's current level of performance as a counselor. If you find that a candidate is consistently performing some skills but not others within the same level (e.g., '**developing**'), please still rate the candidate as '**developing**' and then describe the skills that need to be improved in the comment section below the box.

Section 1. Professional Work Requirements (20%)

A. Professional Role Requirements (10%)

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 6-10

Any combination of the following for each category

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)
Always arrives late. Does not use time to meet requirements. Fails to inform supervisor or make arrangements for absences. Not responsive to professional norms about clothing, language, etc.	Frequently arrives late. Does not use time effectively. Often fails to inform supervisor or make arrangements for absences. Not usually responsive to professional norms	Most often arrives on time but does not use time effectively. Usually informs supervisor but fails to make arrangements for absences. When requested, responsive to professional norms	Arrives on time and uses time effectively. Informs supervisor and makes arrangements for absences. Follows professional norms about clothing, language, etc.	Usually arrives early to prepare and uses time effectively. Is rarely, if ever, absent and always informs supervisor and makes arrangements for absence. Understands and complies with professional norms

	about clothing, language, etc.	about clothing and language, etc.		
--	-----------------------------------	--------------------------------------	--	--

Comments:

B. Interactions with Others (10%)

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 6-12

Any combination of the following for each category

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)
Appears uncomfortable interacting with peers, supervisors, faculty, and others. Appears to avoid interactions or communicate effectively with peers, supervisors, faculty, and others. Does not engage in conveying information and/or express own opinions.	Usually appears uncomfortable interacting with other peers, supervisors, faculty, and others. Does not initiate interactions or communicate effectively with peers, supervisors, faculty, and others. Unable to effectively convey information and/or express own opinions.	Usually appears comfortable interacting with other peers, supervisors, faculty, and others. Sometimes initiates interactions and communicates effectively with peers, supervisors, faculty, and others. Moderately effective in conveying information and expressing own opinions.	Appears comfortable interacting with other peers. Regularly initiates interactions and clearly and effectively communicates with peers. Accurately conveys information and frequently expresses own opinions.	Consistently appears comfortable interacting with other peers, supervisors, faculty, and others. Consistently initiates interactions and clearly and effectively communicates with peers, supervisors, faculty, and others. Accurately conveys information and clearly expresses own opinions.

Comments:

Section 2. Professional Ethics and Behaviors (10%)

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 4-19

Any combination of the following for each category

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)
Does not demonstrate the ability to apply and adhere to ethical and legal standards in counseling. Is not aware of	Is not aware of and/or frequently does not behave in accordance with professional ethical standards.	Inadequately demonstrates the ability to apply and adhere to ethical and legal standards in counseling.	Demonstrates the ability to apply and adhere to ethical and legal standards in counseling.	Demonstrates a highly skilled and knowledgeable ability to apply and adhere to ethical and legal standards in counseling. Applies ethical reasoning to complex ethical dilemmas.

Comments:

Section 3. Counseling Knowledge and Skills (30%)

A. Interactions with Clients (10%)

CACREP (2024) III.D.10; H.8

Section 5. Professional Disposition (10%)

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 1-19

Any combination of the following for each category

The counseling intern conducts self in an ethical and professional manner so as to promote confidence in the counseling profession. The counseling intern demonstrates capacity for openness to points of view, theories, experiences, and perspectives different than their own, especially in relationship to those in supervisory or instructional positions. Counseling intern demonstrates the ability to engage in dialogue with others who have different perspectives in ways that show respect for the other persons and their points of view. They will demonstrate a willingness to consider the merits of these alternative points of view in a thoughtful and professional manner. The counseling intern demonstrates the ability to monitor attitudes, personal well-being, personal issues, and personal programs to support self as well as safeguard the welfare of the client. The CI demonstrates appropriate self-control (i.e. impulse control) in interpersonal relationships site staff other interns, clients, etc. The counseling intern maintains a positive attitude and flexible, solution-oriented stance in all educational and professional endeavors. The counseling intern refrains from making statements that are false, misleading, or deceptive; respects the

fundamental rights, dignity, and worth of all people. The counseling intern considers the impact of their actions on the well-being of others (i.e. colleagues, supervisors, clients), the site, and the profession as a whole.

CCU Counseling Program Professional Performance Standards are formally known as the counseling candidates:

1. Openness to new ideas
2. Flexibility
3. Relevant Interpersonal Skills
4. Willingness to accept and use feedback
5. Self-awareness of own impact on others
6. Ability to deal with conflict.
7. Ability to accept personal responsibility.
8. Ability to express feelings effectively and appropriately.
9. Ethical Conduct.
10. Alignment to the Profession: Initiative and motivation.

Candidates should be evaluated on their professional disposition in totality.

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)
<i>Unable to demonstrate criteria for the program level. If candidate receives this score during internship 2; candidate will automatically need to repeat the course.</i>	<i>Does not meet criteria for program level.</i>	<i>Meets criteria minimally or inconsistently for program level.</i>	<i>Meets criteria consistently at this program level.</i>	<i>Exceeds criteria at this program level.</i>

Section 6. Additional Feedback about Candidate Behaviors

A. What would you identify as this intern candidate's top areas of strength?

B. What do you think should be the primary focus for this intern candidate's growth and improvement?

C. If you have any other comments regarding this intern, please include below. If more space is needed, continue your comments on the back of this page.

Faculty Supervisor's Signature: _____ **Date:** _____

APPENDIX B
**SITE SUPERVISOR ADDENDUM EVALUATION OF CANDIDATE FORM
(School Counseling)**

General Information:

- This evaluation is completed in addition to the South Carolina School Counselor Evaluation Rubric.
- The primary supervisor completes this form both at midterm and at the end-of-the semester internship experience. If the candidate has more than one supervisor at the same site, the supervisor with the most contact with the candidate should complete the evaluation after consulting with the other supervisors. If the candidate has a supervisor at two or more different sites, each site supervisor will need to complete and the scores will be averaged.
- This completed form is submitted by the site supervisor to Handshake for the appropriate rotation by specified due dates for the semester field experience. The faculty supervisor/course instructor, reviews and then submits the end of semester evaluation into the gradebook become part of the candidate's record in the candidate's practicum/internship file.
- This supervisor evaluation is considered in assigning grades for the internship.
- Please be sure to discuss your evaluation with your candidate during supervision. They will be asked to be prepared to reflect on their rating with their faculty supervisor/course instructor.
- Your time and careful evaluation are very important and much appreciated. Thank you!

Candidate Name:

Date of Evaluation:

This is the: Mid-Term Evaluation ____ Final Evaluation____ (check one)

Site Supervisor:

Internship Site:

Internship Rotation: (drop-down menu; select one) Practicum, Internship 1, Internship 2

Please indicate the type of review done with the student, during group supervision and/or courseroom tasks, as well as specify the number of sessions you observed:

____I reviewed recordings of candidate's sessions. ____Number of sessions reviewed.

____I reviewed transcripts of candidate's sessions. ____Number of sessions reviewed

Instructions for Completing the Candidate Counseling Skills and Competencies Sections:

Supervisor feedback is a critical component of candidate development and evaluation. This form organizes candidate counseling performance into four general areas: Professional Work Requirements, Professional Ethics and Behaviors, Counseling Knowledge and Skills, Learning Behaviors and Self-Care, and Professional Dispositions.

Specific aspects of each area will have descriptions (rubric) of five levels of candidate performance:

Points Associated with Level	Rubric Descriptor
0	the candidate was Unable to Perform/Not Met (<i>if candidate receives this score during internship 2; candidate will automatically need to repeat the course</i>)
1	the candidate has Deficient (<i>does not meet criteria for program level</i>)
2	the candidate is still Developing (<i>meets criteria minimally or inconsistently for program level</i>)
3	the candidate Meets Expectations (<i>meets criteria consistently at this program level</i>)
4	the candidate Exceeds Expectations (<i>exceeds criteria at this program level</i>)

At each point in the candidate's rotation, they should be scored in accordance to their experience.

For instance, a practicum candidate, first field experience of a master's level counseling candidate, should be scored in accordance. Therefore, do they meet the expectations expected of where they are in their training program. The rubric should not be used as a means of comparison to those in the field (e.g. post-master's degree, LAC, LPC).

Developing skills and competencies in counseling takes time. In practicum we anticipate that candidates will progress from "not meeting expectations" to the "developing" and sometimes "meeting expectations" levels of performance. But there may be some areas where you are considering the intern to have exceeded the expectations for where they are at in their training program (i.e. practicum experience). In internship the candidates should progress to levels of "meeting expectations" and "exceeding expectations" as we are looking to soon welcome candidates as graduates to become colleagues in the field. However, once again, the score should be relative to their current training experience (i.e. practicum, internship 1, internship 2).

In Sections 1-4, please check which one of the five levels of performance detailed in the following boxes best describes your practicum/internship candidate's abilities. There is also space for comments if needed. Please think of these groupings as 'skill sets,' and indicate (by checking the box) which level of description best describes the candidate's current level of performance as a counselor. If you find that a candidate is consistently performing some skills but not others within the same level (e.g., '**developing**'), please still rate the candidate as '**developing**' and then describe the skills that need to be improved in the comment section below the box.

Section 1. Professional Work Requirements (20%)

Section 5. Professional Disposition (10%)

CACREP (2024) III.D.10; H.8

SC: CACREP (2024) V.H. 1-19

Any combination of the following for each category

The counseling intern conducts self in an ethical and professional manner so as to promote confidence in the counseling profession. The counseling intern demonstrates capacity for openness to points of view, theories, experiences, and perspectives different than their own, especially in relationship to those in supervisory or instructional positions. Counseling intern demonstrates the ability to engage in dialogue with others who have different perspectives in ways that show respect for the other persons and their points of view. They will demonstrate a willingness to consider the merits of these alternative points of view in a thoughtful and professional manner. The counseling intern demonstrates the ability to monitor attitudes, personal well-being, personal issues, and personal programs to support self as well as safeguard the welfare of the client. The CI demonstrates appropriate self-control (i.e. impulse control) in interpersonal relationships site staff other interns, clients, etc. The counseling intern maintains a positive attitude and flexible, solution-oriented stance in all educational and professional endeavors. The counseling intern refrains from making statements that are false, misleading, or deceptive; respects the fundamental rights, dignity, and worth of all people. The counseling intern considers the impact of their actions on the well-being of others (i.e. colleagues, supervisors, clients), the site, and the profession as a whole.

CCU Counseling Program Professional Performance Standards are formally known as the counseling candidates:

11. Openness to new ideas
12. Flexibility
13. Relevant Interpersonal Skills
14. Willingness to accept and use feedback
15. Self-awareness of own impact on others
16. Ability to deal with conflict.
17. Ability to accept personal responsibility.
18. Ability to express feelings effectively and appropriately.
19. Ethical Conduct.
20. Alignment to the Profession: Initiative and motivation.

Candidates should be evaluated on their professional disposition in totality.

Unable to Perform/ Not Met (0 pts)	Deficient (1 pt)	Developing (2 pts)	Meets Expectations (3 pts)	Exceeds Expectations (4 pts)

15. EDCO 605 School Counseling Internship II: Secondary

Career Project (10%)**

CACREP (2024) III. A.11; B.8-9; D.1, 9-11; E.10-12,14; H.2, 7-8

SC: CACREP (2024) V.H.5, 8, 15-19

SCTS 4.0 (School Counselors): Planning. 1-3; Program Management.1-2; Direct and Indirect Services.1-2; Professionalism.1-5

NBPTS (School Counselors): I-V, VII-IX

To maintain good standing in the program, a minimum of 80% or higher on all key assessment assignments is needed.

Each candidate will be required to complete one career project to help students prepare for college. Some examples of this project can include filling out the FAFSA application form with a student, taking a group of students on a college visit, assisting a student with a college application, providing the results of a PLAN or EXPLORE assessment and applying it to their future career goals, or any other ideas that the professor approves ahead of time. You will be allocated 15 minutes during which you will present your Career Project with the class. You must also give the instructor a written summary of your experience and a copy of the materials used (e.g., a copy of the FAFSA form, announcements/recruitment for college visit, copy of college application, etc.). Select any important handouts/information you want to highlight in your presentation and make copies for each classmate. A format for the written summary will be provided in class.
